Dictionary Of Concepts In Archaeology:

Dictionary of Concepts in Archaeology Molly Mignon, 1993-09-14 This volume provides analytical definitions and discussions of the key concepts in archaeology For each of the more than seventy terms covered the dictionary provides an examination of the development of the term and an analysis of the key thinkers and writing involved in its development Each entry concludes with a bibliographical essay designed to cover the original sources of vital importance in the development of the concept sources such as review articles that provide access to a sizable portion of the literature related to the concept and a selection of recent publications representative of current directions in research Additional access to the material covered is provided by an index of concepts and terms and an index of names This is the first reference dictionary to deal with the concepts in archaeology and as such will be useful to scholars and students in the field as well as libraries supporting research in archaeology

Dictionary of Concepts in Archaeology Molly Raymond Mignon, 1993-03-01 The terms and concepts selected for inclusion in this dictionary of archaeology are those most in need of definition and explanation for persons outside the field This book is addressed to them as well as to students of archaeology In cases where the terminology has not become standardized alternative terms have been included The use of jargon terms has been avoided in favor of standard English words Entries comprise 4 parts First brief statements give the current meaning of a concept Next discursive paragraphs trace a concept's historical origins and connotative development Then sources mentioned in part 2 are cited and additional notes briefly highlight other aspects of individual references Part 4 includes sources of additional info

Encyclopedic Dictionary of Archaeology Barbara Ann Kipfer, 2014-01-15 **Collins Dictionary of Archaeology** Paul G. Bahn, 1993 In the preface to this new dictionary of archaeology Dr Paul Bahn describes his approach to compiling this work as an attempt to drag the concept of the archaeological dictionary kicking and screaming into the 1990s And he has done so without losing any of the traditional power of a good dictionary Endeavoring to pay

particular attention to theoretical and technical terms not usually included in similar dictionaries Dr Bahn was aided by a contributors panel of 16 regional experts The resulting dictionary of nearly 3 000 entries offers definitions of the archaeological world s most recent terms and theories and covers techniques sites and time honored nomenclature as well Biographical entries on archaeologists of the past further enhance the scope of the dictionary giving the reader a sense of the historical development of the discipline Readers will also benefit from the abundant cross references that interconnect related entries and from the line drawings that accompany many of the entries Forty seven pages of maps and a list of titles for further reading arranged by topic complete this new research tool and field guide that will capably serve the broad spectrum of the archaeologically interested public *Introduction To Library Research In Anthropology* John M Weeks,1998 This edition outlines the historical development of the discipline identifies the informational needs of anthropologists and describes the structure and organization of libraries as sources of anthropological information A variety of research strategies and methods for conducting library research are explored as well Included are descriptions of scope arrangement and content for hundreds of reference works such as encyclopedias dictionaries directories subject and regional bibliographies guides to specialized libraries and archives indexes and abstracts Human Relations Area Files and computerized databases Electronic databases are identified throughout the volume and a chapter is devoted to Internet resources *The Oxford Handbook of Archaeology and Language* Martine Robbeets,Mark Hudson,2025-06-09 This volume provides a comprehensive and up to date overview of how archaeology genes and language can be combined to shed light on the human past Our understanding of human prehistory has been revolutionized in recent years by the growth of interdisciplinary perspectives and particularly by insights from the study of ancient DNA At a time when the Big Data movement in genetics and archaeology is beginning to make inroads into linguistics The Oxford Handbook of Archaeology and Language sets the agenda for future research in the discipline of archaeolinguistics The handbook is divided into three parts The first part introduces the basic frameworks of archaeolinguistics addressing recent trends and new perspectives Chapters in Part II explore the application of archaeolinguistics to different stages in human history from hunter gathering via the adoption of farming and the rise of writing to modern times Part III features regional case studies from different parts of the world including not only Indo European but also Uralic Transeurasian Sino Tibetan Paleosiberian Tai Kadai Austronesian Papuan Australian Afrasian Nilo Saharan Niger Congo Kalahari Basin Andean and Lowland South American languages In illustrating the extent to which linguistic archaeological and genetic histories align or differ the volume goes beyond the level of broad brush approaches by engaging specialists from a range of disciplines as co authors shedding light on language dynamics from multiple perspectives *The Bipoint in the Settlement of North America* Wm Jack Hranicky,2020 This 378 page archaeological publication covers the development definition classification and world wide deployment of the lithic bipoint and includes numerous photographs drawings and maps The bipoint is a legacy implement

from the Old World that is found through time space all over America It was brought into the U S on both coasts the Pacific Coast introduction was around 17 000 years ago and the Atlantic Coast was 23 000 years ago The basic bipoint is defined and its manufacturing processes are presented along with bipoint properties shape form resharping and cultural associations This publication illustrates numerous bipoints from the Atlantic and Pacific states and within the U S and presents some of their inferred chronologies which are the oldest in the New World Several morphologies between American and Iberian bipoints are compared namely the famous Virginia Cinmar bipoint It concludes that a Solutrean occupation did occur on the U S Atlantic coastal plain The bipoint is the most misclassified artifact in American archaeology The book is indexed and has extensive references
