Race and Ethnicity in Digital Culture Anthony Bak Buccitelli, 2017-11-10 In this unprecedented study leading scholars and emerging voices from around the world consider how race and ethnicity continue to shape our everyday lives even as digital technology seems to promise a release from our real social identities How do people use the new expressive features of digital technologies to experience represent discuss and debate racial and ethnic identity How have digital technologies or digital spaces become racialized How have the existing vernacular traditions or folklore surrounding identity been reshaped in digital spaces And how have new traditions emerged This interdisciplinary volume of essays explores the role of traditional culture in the evolving expressions practices and images of race and ethnicity in the digital age The work examines cultural forms in exclusively digital environments as well as in the hybrid environments created by mobile technologies where real life becomes overlaid with digital content Insights from academics across disciplines including anthropology communications folkloristics art and sociology consider the interplay between race ethnicity everyday vernacular culture and digital technologies Six sections explore traditional cultural affordances of technology folklore and

digital applications visual cultures of race and ethnicity racism and exclusion online political activism and race and concluding observations The book covers technologies such as vlogs video games digital photography messaging applications social media sites and the Internet

SMS Communication Louise-Amélie Cougnon,Cédric Fairon,2014-07-15 The media often point an accusatory finger at new technologies they suggest that there is always a loss of information or quality or even that computer mediated communication is destroying language Most linguists on the contrary are firmly convinced that it is better to consider language as an evolving and changing entity From this point of view language is a social tool that has to be studied in depth through the prism of objectivity as a process in motion which is influenced by new social and technological stakes rather than as a fading organism In this volume we study and describe the societal phenomenon of SMS writing in its full complexity The aim of this volume is threefold to present recent linguistic research in the field of SMS communication to inform the reader about existing large SMS corpora and processing tools and finally to display the many linguistic aspects that can be studied via a corpus of text messages These articles were previously published in *Linguisticae Investigationes* Vol 35 2 2012

Language Online David Barton,Carmen Lee,2025-10-30 In *Language Online* David Barton and Carmen Lee explore the evolving landscape of digital communication This extensively updated second edition reflects the latest research and developments addressing key contemporary issues such as online aggression digital activism and the growing impact of AI on human communication It also examines how digital communication has shaped and been shaped by global events like the COVID 19 pandemic and incorporates multimodal discourse With case studies from diverse geographical contexts languages and platforms the book illustrates how digital language practices vary across cultures This edition places greater emphasis on the intersection between online and offline communication highlighting how digital interactions are deeply integrated into everyday life Written in a clear and accessible style *Language Online* balances theory with practical analysis providing valuable insights into the relationship between language and digital technologies Complete with discussion topics and real world examples this is an essential read for students and scholars of new media literacy and multimodality in language and linguistics

The SAGE Handbook of Social Media Jean Burgess,Alice Marwick,Thomas Poell,2017-11-20 The world is in the midst of a social media paradigm Once viewed as trivial and peripheral social media platforms like Twitter Facebook and WeChat have become an important part of the information and communication infrastructure of society They are bound up with business and politics as well as everyday life work and personal relationships This international Handbook addresses the most significant research themes methodological approaches and debates in the study of social media It contains substantial chapters written especially for this book by leading scholars from a range of disciplinary perspectives covering everything from computational social science to sexual self expression Part 1 Histories And Pre Histories Part 2 Approaches And Methods Part 3 Platforms Technologies And Business Models Part 4 Cultures And Practices Part 5 Social And Economic Domains

Multilingual Families in a Digital Age Kristin Vold Lexander,Jannis Androutsopoulos,2023-05-23

This book offers new insights into transnational family life in today's digital age exploring the media resources and language practices parents and children employ toward maintaining social relationships in digital interactions and constructing transnational family bonds and identities The book seeks to expand the boundaries of existing research on family multilingualism in which digital communication has been little studied until now Drawing on ethnographic studies of four families of Senegalese background in Norway Lexander and Androutsopoulos develop an integrated approach which weaves together participants linguistic choices for situated interaction the affordances of digital technologies and the families language and media ideologies The book explores such key themes as the integration of linguistic and media resources in family repertoires creative practices of digital translanguaging engagement in diaspora practices and opportunities of digital communication for the development of children's heritage language skills With an innovative perspective on doing family in the digital age this book will be of interest to students and scholars in multilingualism sociolinguistics digital communication language and communication and language and media

Analyzing Digital Discourses Marjut Johansson, Sanna-Kaisa Tanskanen, Jan Chovanec, 2022-01-12 This book contributes to the scholarly debate on the forms and patterns of interaction and discourse in modern digital communication by probing some of the social functions that online communication has for its users An array of experts and scholars in the field address a range of forms of social interaction and discourses expressed by users on social networks and in public media Social functions are reflected through linguistic and discursive practices that are either those of convergence or controversy in terms of how the discourse participants handle interpersonal relations or how they construct meanings in discourses In this sense the book elaborates on some very central concerns in the area of digital discourse analysis that have been reported within the last decade from various methodological perspectives ranging from sociolinguistics and pragmatics to corpus linguistics This edited collection will be of particular interest to scholars and students in the fields of digital discourse analysis pragmatics sociolinguistics social media and communication and media and cultural studies

Mobile Messaging and Resourcefulness Caroline Tagg, Agnieszka Lyons, 2022-03-22 This book advocates a new post digital linguistic ethnography approach to unpacking mobile communication and enabling a more informed understanding of individuals communicative practices in cities today Drawing on data from a group of ordinary working people multilingual individuals from superdiverse cities across the United Kingdom the volume brings observations from this data together to form a new concept of resourcefulness as a means of explaining the emergent sense of agency individuals develop towards remediating existing forms of technology in their everyday lives The book in turn establishes the notion of the networked individual by way of demonstrating the ways in which communicative practices cross spaces and platforms Further chapters detail examples to highlight resourcefulness at work in enabling more efficient business communication routes to self expression and the creation and development of social support systems while a concluding chapter looks at both the limitations and possibilities of resourcefulness and directions for future research This innovative volume will be of

particular interest to students and researchers in applied linguistics sociolinguistics linguistic ethnography and media and communication studies Faith and Language Practices in Digital Spaces Andrey Rosowsky, 2017-11-16 This volume shares the results of research conducted within and across the complex nexus of language religion and new technologies It identifies the dynamic and mobile ways religious practice and language interact online to modify confirm transform and consolidate linguistic resources and repertoires It makes a significant contribution to work in the emerging sub discipline of the sociology of language and religion and adds to the growing work on digital religion It also showcases leading and ground breaking researchers working on online and offline examples of the complex relationships evinced by the study of language and religion The chapter authors explore a wide range of religions technologies and languages in order to provide an innovative insight into the overlap between the study of language and religion and language and technology
