Handbook of Technology Application in Tourism in Asia Azizul Hassan,2022-07-09 It is an undisputed reality that the tourism industry in Asia is getting exposed to more innovative technologies than ever before This proposed book provides the latest research in the application of innovative technology to the tourism industry covering the perspectives innovativeness theories issues complexities opportunities and challenges This book a blend of comprehensive and extensive effort by the contributors and editors is designed to cover the application and practice of technology in tourism including the relevant niches This book focuses on the importance of technology in tourism This also highlights in a comprehensive manner specific technologies that are impacting the tourism industry in Asia as well as the constraints the industry is facing The contents of this book deal with distinct topics such as mobile computing new product designs innovative technology usages in tourism promotion technology driven sustainable tourism development location based apps mobility accessibility and so on A good number of research studies have conducted outlining the contributions and importance of technologies in tourism in general However the tourism industry of Asia so far has attracted very few researchers Some contributions have been made but not sufficient

Considering the ongoing trend of technology application in the tourism industry in Asia very few research attempts have been made aiming to explore diverse aspects Tourism is expanding enormously across the world which actually creates more demands for effective technologies This book will be a reading companion especially for tourism students in higher academic institutions This book will also be read by the relevant policy planners and industry professionals Apart from them this book will be appreciated by expatriate researchers and researchers having keen interest in the Asian tourism industry

Young Consumer Behaviour Ayantunji Gbadamosi, 2017-11-22 Although one perspective depicts young consumers as vulnerable and passive in the marketplace system our knowledge of this consumer group will be inadequate if limited to this contention Their roles and relevance in family consumption activities are becoming increasingly profound Available evidence shows that they cannot be ignored in the marketplace dynamics as they consume goods and services in their households and are involved in various other active roles in their household consumption including making decisions where applicable Hence the landscape of young consumer behaviour is changing

Young Consumer Behaviour A Research Companion focusses on exploring the behaviour of young consumers as individuals and societal members The chapters address different aspects of consumption activities of children as individuals like motivation involvement perception learning attitude the self and personality Similarly chapters on consumer behaviour in social settings contextualised to young consumers including culture sub culture family and groups are incorporated into the book This book fills a gap in the literature by addressing the dynamics of consumption patterns of this consumer group in relation to various marketing stimuli and different stakeholders It combines eclectic perspectives on the topic and specifically bridges the gap between historical perspectives and contemporary issues Building on the extant literature in the field of marketing and consumer behaviour this book is a compendium of research materials and constitutes an essential reference source on young consumer behaviour issues with both academic and managerial implications
