Piercy, 2000 The Oxford Handbook of the Learning Organization Anders Örténblad, 2019-12-12 The concept of the learning organization is one of the most popular management ideas of the last few decades Since it was conceived as an idea in its own right it has been given various definitions and meanings such that we are still faced with the question as to whether any unified understanding of what the learning organization really is can be established This Handbook offers extensive reviews of both new and traditional perspectives on the concept and provides suggestions for how the learning organization can best be defined practiced studied and developed in future research With contributions from long standing scholars in the field as well as those new to the area this book aims to bridge the gap between traditional and more critical perspectives and in doing so find alternative features and angles to take the idea forward In addition to elaborating on and developing older definitions of the learning organization and suggesting updated and even new definitions the chapters also provide focused explorations on pertinent aspects of the learning organization such as ambidexterity gender inclusivity and systems thinking They also survey organizations that have made efforts towards becoming learning organizations how the learning organization can best be measured and studied and the universality of the idea itself Some of the questions raised in this book are answered or at least given tentative answers while other questions are left open In this way the book has the ambition to take the learning organization an important step further whilst having no intentions to take any final step instead the intention is that others will endeavour to continue where this book stops Handbook of Research on the Learning

Organization Anders Örténblad, 2013-09-30 This timely Handbook establishes the contextualization of the learning organization idea as a research field Organizational Learning and the Learning Organization Mark Easterby-Smith, Luis Araujo, John Burgoyne, 1999-04-28 A valuable resource for academics and practitioners in management and corporate strategy as well as those involved in management training and development European Foundation for Management Development The editors overall assessment is that there has been insufficient dialogue between the two camps of action research and theorizing As a contribution to mapping this divided house the text is an apt illustration of these problems The editor s overview is of interest Stephen Gibb University of Strathclyde MCB University Press The debates surrounding concepts of organizational learning and the learning organization receive a welcome synthesis in this book Inte
