Data Services

The following is a summary of the data packet data services offered for medium- and high-frequency (HF) and VHF radio operation:

Beefing — Network of stations operating on marine VHF frequencies within the VHF and HF bands. It is a commercial operation, and has provided for several decades of this service. Coverage has been limited to the western part of the United States from coast to coast. No international data service.

Worldwide (WW) — Network of stations operating on Amateur Radio frequencies in the VHF and HF bands. One of the services requires a General Class Amateur Radio license.
