Code-switching Rebecca S. Wheeler, Rachel Swords, 2006 Wheeler and Swords show K 6 teachers how to use code switching and contrastive analysis to help students use prior knowledge to translate vernacular English into Standard English When African American students write or say Mama jeep is out of gas or The Earth revolve around the sun many teachers labeling this usage poor English or bad grammar assume that their students have problems with possession or don't know how to make subjects and verbs agree Forty years of linguistic research however demonstrates that the student is not making errors in Standard English the child is writing or speaking correctly in the language patterns of the home and of the community Building on the linguistic knowledge that children bring to school becomes the focus of this book which advocates the use of code switching to enable students to add another linguistic code Standard English to their linguistic toolbox Rather than drill the idea of Standard English into students by labeling their home language as wrong the authors recommend teaching students to recognize the grammatical differences between home speech and school speech so that they are then able to choose the language style most appropriate to the time place audience and communicative purpose University researcher Rebecca Wheeler and urban elementary teacher Rachel Swords offer a practical hands on guide to code switching providing teachers with step by step instructions and numerous code switching charts that can be reproduced for classroom use The success of Wheeler's presentations in urban school districts and the positive results that Swords has observed in her own classroom speak to the effectiveness of the research and of this approach While the book focuses on language use in the elementary classroom the procedures and materials introduced can be easily adapted for middle and high school students

Devereaux, 2014-10-17 Standardized tests demand Standard English but secondary students grades 6 12 come to school speaking a variety of dialects and languages thus creating a conflict between students language of nurture and the expectations of school The purpose of this text is twofold to explain and illustrate how language varieties function in the classroom and in students lives and to detail linguistically informed instructional strategies Through anecdotes from the classroom lesson plans and accessible narrative it introduces theory and clearly builds the bridge to daily classroom practices that respect students language varieties and use those varieties as strengths upon which secondary English teachers can build The book explains how to teach about language variations and ideologies in the classroom uses typically taught texts as models for exploring how power society and identity interact with language literature and students lives connects the Common Core State Standards to the concepts presented and offers strategies to teach the sense and structure of Standard English and other language variations so that all students may add Standard English to their linguistic toolboxes **Handbook of Urban Educational Leadership** Muhammad Khalifa, Noelle Witherspoon Arnold, Azadeh F.
