Indeed something within Protestantism by accident or design creates the necessary preconditions that lead to the flowering of a just free and prosperous society At the same time Weber wonders if the economic backwardness of certain societies and regions of the world are somehow related to their religious affiliation Weber s century old thesis challenges the erroneous core assumptions of many secular humanists postmoderns Roman Catholic traditionalists and Islamists In view of the threat of the War on Terror and in the face of the inadequate response of secularist and post modern intellectuals it is vital that we understand and appreciate the profound paradigm shift that occurred during the sixteenth and seventeenth century that led to the unfolding of modern capitalism Despite a plethora of critics Max Weber s one hundred year old thesis still stands
