Therefore the best measure of overhead resources consumed by jobs or products is machine hours.

- (e) The general characteristics of incentive schemes should ensure that:
 (i) the scheme is simple to understand and administer;
 (ii) payment should be made as quickly as possible after production;
 (iii) there should be no limit on earnings and employees must be safe-guarded from earning lower wages than time rate wages arising from problems which are outside their control.

The advantages of incentive schemes are:

- (i) increased production and lower average unit costs;
 (ii) increased morale of the workforce;
 (iii) attraction of more efficient workers to the company.
