Assessing Language Teachers Professional Skills And Knowledge:

Assessing Language Teachers' Professional Skills and Knowledge Rosemary Wilson, Monica Poulter, 2015-01-31
The growth in English language teaching worldwide and the related increase in teacher training programmes of all kinds highlight the need for greater accountability in the assessment of teachers. The need for formal summative assessment has taken on greater importance in training programmes and requires procedures which do not always sit easily with the development process while transparency of assessment procedures is also increasingly demanded by the candidates themselves. This edited volume discusses key issues in assessing language teachers' professional skills and knowledge and provides case study illustrations of how teacher knowledge and teaching skills are assessed at pre-service and in-service levels within the framework of the Cambridge English Teaching Qualifications. The volume provides discussion of ways in which the changing nature of English language teaching has impacted on teacher education and assessment, examples of specific assessment procedures for both teaching knowledge and practical classroom skills, accounts of the ways in which the Cambridge English Teaching Qualifications have been integrated into and adapted for local contexts. This is the first volume of its kind wholly dedicated to language teacher assessment and as such will be of interest to language teachers and teacher educators as well as to researchers and postgraduate students.
