Great War Uwe Baumann, Sarah Fißmer, 2023-11-13 Literarische und visuelle Repräsentationen zum Ersten Weltkrieg zeigen trotz nationaler Prägungen oft Parallelen und bergreifende Themen auf die es ermöglichen über Grenzen und Zeiten hinweg Brücken zu schlagen Die zehn Beiträge fokussieren diesen Krieg dessen Erinnerungskulturen häufig noch nationalkulturell geprägt sind aus unterschiedlichen methodischen und Fachperspektiven Durch die Analyse beispielhafter Werke verschiedenster Nationen und Mediengattungen tragen die Beiträge dazu bei wichtige Themen im Zusammenhang mit literarischen und visuellen Darstellungen des Great War in den öffentlichen Diskurs zu rücken Die Beiträge verdeutlichen dass Künstlerinnen Filmemacherinnen und Autorinnen sich über Zeiten und Nationen hinweg der großen Tragweite dieses Konfliktes bewusst sind und trotz der Heterogenität ihrer Arbeiten diese auch immer wieder dazu nutzen wichtige bergreifende Themen zu explizieren die über nationale Grenzen hinausgehen The ten contributions to this collection of essays focus on literary and visual representations of the First World War a war that is still very much remembered in a national context The authors analyse exemplary representations of sundry media each part of a different national cultural memory that stem from diverging time spans The texts demonstrate that while there are still national differences in remembering this war through literature and visuals these representations are also full of parallels Artists filmmakers and authors are aware of the momentousness of this world war and despite the heterogeneity of their work also use it to address universal themes that help build bridges across borders and times By focusing on these exemplary representations the authors of the ten essays contribute to moving important topics into public discourse Au revoir là-haut Pierre

Dying for France Ian Germani, 2023-03-15 In the past century Western attitudes toward the soldier's death have undergone a remarkable transformation Widely accepted at the time of the First World War when nearly ten million soldiers died in uniform as a redemptive sacrifice on behalf of the nation the soldier's death is increasingly regarded as an unacceptable tragedy In *Dying for France* Ian Germani considers this transformation in the context of the history of France over the expanse of five centuries from the Renaissance to the present Blending military history with the history of culture and mentalities Germani explores key episodes in the history of France's wars to show how patriotic models of the soldier's death eclipsed those inspired by the aristocratic code of honour before themselves giving way to disillusioned representations First hand testimony of soldiers surgeons and others provides the basis for vivid descriptions of how a soldier encountered death on and away from the battlefield Works of art and print culture are used to analyze how soldiers' deaths were represented to the public and to discern how popular attitudes evolved over time Encompassing France's major

external conflicts and its civil wars this study also considers the experiences of soldiers recruited from the French colonial empire Relating changes in the perception of military mortality to broader changes in society's relationship with death Dying for France highlights essential turning points in the rise and fall of the patriotic ideal of the soldier's death
