Auditing and Assurance Services David N. Ricchiute, 2003 Auditing and assurance service education has undergone dramatic change in at least three ways 1 An awakening that practitioners have a comparative advantage in offering professional services that transcend the boundaries of financial statements 2 An understanding that client strategies affect engagement risk and 3 A transition away from first person delivery by classroom instructors only and toward third person discovery by students both within and outside of the classroom Each has influenced the seventh edition To transcend the boundaries of financial statements Auditing and Assurance Services exposes students both to the demand for and the supply of the profession s flagship service financial statement audits and to the nature of the value added assurance services decision makers demand in the information age

Modern Auditing William C. Boynton, Raymond N. Johnson, 2005-08-19 Known in the academic market for its clear writing style and accessibility this extensive revision focuses on auditor decision making and the auditor s role in providing assurance about the integrity of the financial reporting system This is particularly important in light of the recent events involving WorldCom Enron Xerox Aldelphia Tyco Waste Management and other recent incidents that have questioned the quality of work in the auditing profession Intended for a junior or senior level course in auditing or assurance services taught at most four year schools
