Part One: The Character's World is packed with tools to analyze the script and fully prepare the character before arriving on set. Part Two: The Actor's World focuses on developing technical acting skills for the camera that assist the pre and post production teams to create a dynamic on-screen performance. In Part Three: The Professional World, industry professionals provide tips from inside the film/TV audition room and how to navigate a career in the acting business. The final section, Part Four: Self-Tape Like a Pro, outlines how to build a self-tape studio in the privacy of your own home and submit high-quality self-tape auditions that will help you stand out from the competition. Written for students enrolled in *Acting for the Camera* courses, *Acting for the Camera Back to One* explores techniques that can be practiced and mastered by actors of all levels from the moment they audition for the part through to when they hear that director call cut.
