Interreligious/Interfaith Studies Eboo Patel, Jennifer Howe Peace, Noah

Silverman,2018-08-21 A groundbreaking academic anthology that explores the emerging field of interreligious interfaith studies As it is now backed by an impressive number of courses academic programs and centers faculty positions journals and publications funding and professional partnerships there is no longer a question as to whether the interreligious interfaith field exists But its meaning and import are still being debated How is this field distinct from yet similar to other fields such as religious or theological studies What are its signature pedagogies and methodologies What are its motivations and key questions In other words what is the shape of interfaith and interreligious studies and what is its distinct contribution These questions are the driving force behind this anthology *Theology and the Arts* Ruth Illman,W. Alan Smith,2013-06-07 This book brings the emerging fields of practical theology and theology of the arts into a dialogue beyond the bias of modern systematic and constructive theology The authors draw upon postmodern post secular feminist liberation and dialogical dialectical philosophy and theology and their critiques of the narrow modern emphases on reason and the scientific method as the model for all knowledge Such a practical theology of the arts focuses the work of theology on the actual practices that engage the arts in their various forms as the means of interpreting and understanding the nature of the communities and their members as well as the mechanisms through which these communities engage in transformative work to make persons and neighborhoods whole This book presents its theological claims through the careful analysis of several stories of communities around the world that have engaged in transformational practices through a specific art form investigating communities from Europe the Middle East South America and the U S The case studies explored include Jewish Christian Muslim Druze indigenous and sometimes agnostic subjects involved in visual art music dance theatre documentary film and literature *Theology and the Arts* demonstrates that the challenges of a postmodern and post secular context require a fundamental rethinking of theology that focuses on discrete practices of faithful communities rather than one dimensional theories about religion *Anarchy in Athens* Nicholas Apoifis,2016-11-11 The battles between Athenian anarchists and the Greek state have received a high degree of media attention recently But away from the intensity of street protests militants implement anarchist practices whose outcomes are far less visible They feed the hungry and poor protect migrants from fascist beatings and try to carve out an autonomous political social and cultural space Activists within the movement share politics centred on hostility to the capitalist state and all forms of domination hierarchy and discrimination Based on extensive ethnographic fieldwork among Athenian anarchists and anti authoritarians *Anarchy in Athens* unravels the internal complexities within this milieu and provides a better understanding of the forces that give the space its shape

Transnational Lives in Global Cities Caroline Plüss,2018-12-21 This book investigates the transnational experiences of Chinese Singaporeans who lived in one of four global cities Hong Kong London New York or Singapore Plüss argues that these middle class well educated and often highly skilled migrants mostly experienced a sense of dis embeddedness and not cosmopolitanism or hybridity in their transnational lives The author's multi sited study intersects the Chinese Singaporeans

highly varied perceptions of these global cities and their biographies to show that these migrants who often were repeat migrants foremost experienced ruptures and disjuncture in their education work family and or friendships lifestyle contexts Transnational dis embeddedness is explained in terms of the Chinese Singaporeans access to resources and their views of self others places and societies Pl ss recommends that research on these migrants should more fully account for the complexities of transnational processes and contributes with such a knowledge to the scholarship on transnationalism migration race and ethnicity and migrant non integration *Researching Learning in Higher Education* Glynis Cousin,2009-01-13 Across the world universities are transforming their teaching and learning practices to meet the challenges facing Higher Education in the 21st century Research into teaching and learning in Higher Education has never been a more important issue Growing numbers of academics across disciplines are conducting research in their teaching This book presents contemporary approaches to researching university teaching and learning to address this rising demand The author provides a much needed comprehensive yet basic approach for conducting this type of research A perfect resource for new lecturers professional developers researchers and graduate students this book provides useful and effective guidance for conducting teaching and learning research in Higher Education Filling a clear gap in the market this book covers all the essential methodological and theoretical bases needed to engage in Higher Education research This book offers a refreshingly light yet serious approach to research which has proved to yield significant advances in the field allowing new academics from any discipline to effectively conduct higher education research Each chapter covers the following FRAMING HIGHER EDUCATION RESEARCH Generating an ETHICAL FRAMEWORK QUALITATIVE DATA ANALYSIS FOCUS GROUP RESEARCH SEMI STRUCTURED INTERVIEWS NARRATIVE INQUIRY ETHNOGRAPHIC APPROACHES CASE STUDY RESEARCH ACTION RESEARCH APPRECIATIVE INQUIRY PHENOMENOGRAPHY RESEARCHING THRESHOLD CONCEPTS VISUAL RESEARCH EVALUATION APPROACHES This book is an invaluable resource for anyone interested in up to date theories and methods for conducting teaching and learning research in Higher Education *Data Driven* Karen Levy,2024-06-18 A behind the scenes look at how digital surveillance is affecting the trucking way of life Long haul truckers are the backbone of the American economy transporting goods under grueling conditions and immense economic pressure Truckers have long valued the day to day independence of their work sharing a strong occupational identity rooted in a tradition of autonomy Yet these workers increasingly find themselves under many watchful eyes Data Driven examines how digital surveillance is upending life and work on the open road and raises crucial questions about the role of data collection in broader systems of social control Karen Levy takes readers inside a world few ever see painting a bracing portrait of one of the last great American frontiers Federal regulations now require truckers to buy and install digital monitors that capture data about their locations and behaviors Intended to address the pervasive problem of trucker fatigue by regulating the number of hours driven each day these devices support additional surveillance by trucking firms and other companies

Traveling from industry trade shows to law offices and truck stop bars Levy reveals how these invasive technologies are reconfiguring industry relationships and providing new tools for managerial and legal control and how truckers are challenging and resisting them Data Driven contributes to an emerging conversation about how technology affects our work institutions and personal lives and helps to guide our thinking about how to protect public interests and safeguard human dignity in the digital age

Islam on Campus Alison Scott-Baumann, Mathew Guest, Shuruq Naguib, Sariya Cheruvallil-Contractor, Aisha Phoenix, 2020-10-16 Islam on Campus explores how Islam is represented perceived and lived within higher education in Britain It is a book about the changing nature of university life and the place of religion within it Even while many universities maintain ambiguous or affirming orientations to religious institutions for reasons to do with history and ethos much western scholarship has presumed higher education to be a strongly secularizing force This framing has resulted in religion often being marginalized or ignored as a cultural irrelevance by the university sector However recent times have seen higher education increasingly drawn into political discourses that problematize religion in general and Islam in particular as an object of risk Using the largest data set yet collected in the UK this book explores university life and the ways in which ideas about Islam and Muslim identities are produced experienced perceived appropriated and objectified It asks what role universities and Muslim higher education institutions play in the production reinforcement and contestation of emerging narratives about religious difference This is a culturally nuanced treatment of universities as sites of knowledge production and contexts for the negotiation of perspectives on culture and religion among an emerging generation It demonstrates the urgent need to release Islam from its official role as the othered the feared When universities achieve this we will be able to help students of all affiliations and of none to be citizens of the campus in preparation for being citizens of the world

Prekäre Gleichstellung Mike Laufenberg, Martina Erlemann, Maria Norkus, Grit Petschick, 2018-03-14 Der vorliegende Band nimmt Wechselbeziehungen zwischen Gleichstellungspolitik, strukturellen Diskriminierungsformen und prekären Arbeitsverhältnissen in der neoliberalen Hochschule in den Blick Die Arbeits- und Lebenssituation von Wissenschaftler_innen hat sich in den vergangenen zwei Jahrzehnten tiefgreifend verändert Die fortschreitende Konsumisierung von Hochschulen und anderen Wissenschaftsorganisationen hat zu einer Zuspitzung von Wettbewerb und Konkurrenz geführt, die sich auch auf die Arbeits- und Wissenschaftskultur auswirkt Insbesondere der akademische Mittelbau ist von einer verschärften Prekarisierung wissenschaftlicher Arbeitsverhältnisse und Laufbahnen betroffen Zeitgleich lässt sich eine verstärkte Institutionalisierung von Gleichstellungs- und Diversitypolitiken in der Wissenschaft beobachten Doch während an den hiesigen Universitäten heute mehr Frauen als je zuvor studieren promovieren und wissenschaftliche Laufbahnen einschlagen, wirken strukturelle gruppenbezogene Benachteiligungen und Diskriminierungsformen fort Die Konsumisierung und Prekarisierung wissenschaftlicher Arbeit sowie die Thematisierung von Geschlechterungleichheit, institutionellem Rassismus und sozialer Selektivität in der Wissenschaft haben in den vergangenen Jahren als Einzelphänomene
