The Cumulative Book Index, 1996 A world list of books in the English language

Calculations for Pharmaceutical Practice Arthur J. Winfield, Ivan Edafiogho, 2005 A comprehensive and clearly written book on pharmacy calculations which covers all the calculations that students of pharmacy need to know in relation to pharmacy practice and clinical pharmacy It includes a large number of self testing questions at the end of each chapter as well as some mock UK registration exam papers The self testing aspect is important

and is in line with the educational premise that it is only through practice of calculations that true competence is achieved. The book will be especially useful for anyone preparing for registration exams in pharmacy in particular those based on the UK exam. It will be an invaluable tool in developing the critical skills necessary for student and prereg pharmacists and will also be a useful reference during subsequent practice. Contains self study questions and answers many with worked examples. Includes mock registration exam papers. Ideal for exam preparation and as a reference for later practice. Includes a chapter on pharmacokinetics. Serves as a useful reference during practice.
