The Archaeology of Food and Warfare Amber M. VanDerwarker, Gregory D. Wilson, 2015-08-03 The archaeologies of food and warfare have independently developed over the past several decades This volume aims to provide concrete linkages between these research topics through the examination of case studies worldwide Topics considered within the book include the impacts of warfare on the daily food quest warfare and nutritional health ritual foodways and violence the provisioning of warriors and armies status based changes in diet during times of war logistical constraints on military campaigns and violent competition over subsistence resources The diversity of perspectives included in this volume may be a product of new ways of conceptualizing violence not simply as an isolated component of a society nor as an attribute of a particular societal type but instead as a transformative process that is lived and irrevocably alters social economic and political organization and relationships This book highlights this transformative process by presenting a cross cultural perspective on the connection between war and food through the inclusion of case studies from several continents
