Indian Smes And Start-ups: Growth Through Innovation And Leadership Leo-paul Dana, Omvir Gautam, Ashish Gupta, Naman Sharma, 2023-05-03

Over the years, India has emerged as the third largest start-up ecosystem in the world, earning itself the reputation of being the emerging land for delivering unicorns. It has become one of the most attractive regions in the world for initiating and scaling up new business ideas. Many venture capitalists have invested in India's start-up ecosystem, and the government has also launched a variety of schemes to promote this growth. Indian organisations have become more competitive, making their global presence felt and expanding their reach into new industries and sectors. What factors have been pivotal for the growth of Indian start-ups? How did the Indian ecosystem evolve to fuel this growth? Is the role of leadership in start-ups more crucial than in other organisations? This book, through its diverse range of chapters, not only provides answers to the above questions but also makes sincere efforts to highlight the innovative potential that start-ups carry and the leadership that is required to sail them through global competition. The book also provides an insight on the race of unicorns and how Indian start-ups have been extremely successful in bagging this coveted title. This edited book is a must-read for budding entrepreneurs and researchers who aim to understand and conduct research on Indian start-ups and their ecosystem support.

Cooperatives As A Catalyst For Sustainability: Lessons Learned From Asian Models Leo-paul Dana, Naman Sharma, Sneha Kumari, K K Tripathy, B P Pillai, R Jayalaxmi, 2023-01-04

The cooperative movement has played a vital role in economic development around the world. Cooperatives also contribute to the achievement of the United Nations Sustainable Development Goals (SDGs). They generate revenue for economic growth, support the development of communities and local culture, and help protect the environment. Cooperatives in Asia have been leaders in their approaches with comprehensive and supportive policies. Across Asia, there are unique models of cooperatives, some of which can be replicated internationally. They utilise collectivisation as an economic model with the cooperation of their populations. Cooperatives from Bangladesh, India, Israel, Japan, Nepal, and the United Arab Emirates are also well known for their proactive approach to sustainability. This book seeks to document the governance, leadership, and sustainable best practices of cooperatives to pave the way for the development of cooperatives internationally, utilising the sustainable cooperatives of Asia as examples. Addressing the current gap in research about cooperatives, the chapters showcase lessons for the cooperative world in its movement towards sustainability through the examination of original case studies as well as quantitative studies. The volume offers new insights to researchers.
