The issue is that they don't know where to start or that they don't know how to continue their relationship. We all know that being in a relationship can be frustrating when you have a hard time interacting with your partner. However, we also know that being in a relationship can have its happy moments as well. In reality, relationships aren't as difficult as you think they are. Once you know the basic ideas of what it's like to be in a relationship, you won't have to deal with many difficulties when you're in one. If you're interested in improving your own relationship or want to know what it's like to be in one, then this book will be able to guide you through the basics of what relationships are all about. A Woman's Guide to the Male Mind Sam Geraldo, 2011-01-14 A Woman's Guide to the Male Mind is the indirect result of a blog that I wrote in 2005 *How Do You Tell If a Guy Fancies You*. The article was so popular, receiving more than 70 replies from women with lots more questions, that I launched my web site www.seducemen.co.uk. Since then, most of the advice I've given in hundreds of published articles was based on my own experiences and those of my friends. To write the book, however, I adopted a more scientific approach. I performed a significant amount of research into recent discoveries by anthropologists, sociologists, psychologists, and biochemists on topics ranging from basic sexual attraction to personality type and male/female communications strategies. It's my belief, therefore, that *A Woman's Guide to the Male Mind* features the best of two worlds: common sense opinions backed by solid empirical evidence. By helping ladies understand the male point of view with regard to sex, dating, and relationships, I hope to eliminate the senseless conflicts that so often erupt between lovers and would-be lovers. Once you understand a few fundamentals about the male mind and male behaviour, you will stop thinking of men as inscrutable blockheads and primitive misfits. You will no longer regard them as you would a small nasty child or an alien race. Arming yourself with the wisdom in this book, you'll increase your odds of finding happiness and harmony in romantic relationships, and you will help ensure that this bliss lasts a lifetime. By the time a man reaches maturity, he has passed through four evolutionary stages in his attitude toward women and relationships. It's very important to understand and identify these four stages because it will save you from wasting time on guys who aren't ready for serious romance.
