Australia A Biography Of A Nation:

Australia Phillip Knightley, 2000 Part history part travelogue part memoir this is the inspiring story of how a one time British colony settled by only two kinds of citizens convicts and jailers turned itself into a proud prosperous and confident country the greatest sporting nation on earth where the citizens of its high leisure cities enjoy a lifestyle that is the envy of the world Through the eyes of ordinary people struggling with their passions hopes dreams and ambitions Phillip Knightley describes the journey that has taken the Great South land from a dark racist and often murderous past to a working multi cultural society The shocking treatment of the Aborigines the determination of Australians to make a clean break from the ills of the Old World and create a new society where everyone had a fair go the love hate relationship with Britain that led to the slow but traumatic detachment from the Mother Country drive this sweeping story of a people whose discovery of the middle way could serve as a guide for our future *History For A Nation* Stuart Macintyre, 2016-10-18 There is a common belief that Australia acquired history only when it grew up and threw off its colonial origins after the Second World War Yet earlier generations of Australians created their own histories to express their sense of who they were and what they might be This book reveals that the quest for an Australian past found its way into our universities and schools from the early years of the Commonwealth Ernest Scott was the most prolific teacher and writer of history in inter war Australia A self taught degreeless professor he laid the foundations of a historical profession in this country and wrote the textbook that taught generations of schoolchildren the meaning of Australian history An Englishman and an imperialist active in public affairs he trained Australians to understand their colonial past as a guide to nationhood At the time when Australians debate their nationhood Asianisation and the republic A History for a Nation recalls a lost culture of urgent contemporary significance

The Australian Nation Geoffrey Partington, The Australian Nation is an excellent book It will make a significant impact on the debate about the meaning of Australian Nationalism John Playford *A Concise History of Australia* Stuart Macintyre, 2004-08-24 Australia is the last continent to be settled by Europeans but it also sustains a people and a culture tens of thousands of years old For much of the past 200 years the newcomers have sought to replace the old with the new This book tells how they imposed themselves on the land and brought technology institutions and ideas to make it their own It relates the advance from penal colony to a prosperous free nation and illustrates how in a nation created by waves of newcomers the search for binding traditions has long been frustrated by the feeling of rootlessness This revised edition incorporates the most recent historical research and contemporary historical debates on frontier violence between European settlers and Aborigines and the Stolen Generations It covers the Sydney Olympics the refugee crisis and the Pacific solution More than ever before Australians draw on the past to understand their future **A Sporting Nation** Paul Cliff, 1999 A Sporting Nation will appeal equally to the serious sports enthusiast and mainstream reader Its main text comprises excerpts from the Library's oral history recordings with additional features by Olympian Marlene Mathews and Eric Rolls and Marion

Halligan Twenty six richly illustrated features present a broad and popular sweep through the nation's sporting culture opening with a recollection of the 1956 Melbourne Olympics and a survey of the Sydney 2000 Games by Marlene Mathews

Honouring a Nation Karen Fox, 2022-01-20 The first detailed history of imperial and national honours in Australia Honouring a Nation tells the story of the honours system's transformation from instrument of imperial unity to national institution From the extension of British honours to colonial Australasia in the nineteenth century through to Tony Abbott's revival of knighthoods in the twenty first this book explains how the system has worked traces the arguments of its supporters and critics and looks both at those who received awards and those who declined them Honouring a Nation brings to life a long history of debate over honours including wrangles over State rights gender imbalances in honours lists and the emergence and hardening of the Labor Liberal divide over British awards illuminating issues that are still part of Australian life and of the honours system today The history of the honours system is equally the history of the nation revealing who Australians were what they have become what they value and the things that have unified and divided them National honours are a fraught recognition of merit They beg many questions who decides why some people are recognised and others ignored Honours provide a window to the soul of the nation and invite us to consider who we really are and what we value These are big issues to ponder Karen Fox provides many of the answers in this timely lively and important book Julianne Schultz AM FAHA Emeritus Professor Media and Culture Griffith University Give Karen Fox a gong for distinguished service to Australian culture in recognition of her authoritative yet entertaining account of how a supposedly egalitarian country embraced knighthoods OAs and other baubles Richard White Associate Professor at the University of Sydney and author of *Inventing Australia* Karen Fox has written an intelligent incisive and intriguing account of how Australians have acknowledged and elevated their fellow citizens from the founding of the first colony to the present day a work packed with insights about the ever shifting determinants of social hierarchy individual merit and public esteem a thoroughly stimulating read Stuart Ward Head of the Saxo Institute University of Copenhagen At last a definitive account of the Australian honours system from the First Fleet to 2021 Honours serve as a prism through which to view imperial strategies federal rivalries and partisan class based and gender politics with many scandals and controversies along the way Karen Fox has given us a book that is both topical and compelling on evolving national identity and honours as a symbol of exclusion or inclusion Marian Sawyer AO Emeritus Professor The Australian National University *The Nation and Athenæum*, 1910 **To Constitute a Nation** Helen Irving, 1999-06-13 This imaginative and resonant 1997 book looks at the constitution as a cultural artefact It attempts to understand the period during which it emerged culminating in Federation in 1901 Irving looks beyond the well known events places and figures to locate federation and the constitution in the context of broader social political and cultural changes She argues that Australians displayed an ability to reconcile the demands of pragmatism with the urge of romanticism Despite its paradoxical construction there is something uniquely Australian about the constitution and it marked

a utopian moment as the old century gave way to the new Irving analyses the background and outcomes of the Constitutional Convention and considers its significance for Australia's possible future as a republic

Career Development as a Partner in Nation Building Australia Wendy Patton, 2019-07-15 Despite examples of vocational guidance practice being evident in Australia since the mid 1800s there remains a spasmodic and patchwork approach to practice across the country For decades it is a field which has been paradoxically boosted and challenged by changing economic and political agendas Repeated international national and State reviews emphasise the vital nature of a systemic national approach to career development however authors repeatedly lament the lack of a sustained focus on career activity as a major national priority There is no broad comprehensive historical reckoning of the history of career development theory and practice in Australia since this early period Career development theory and practice in Australia has been forged in partnership with developments in an international context In documenting the shared history with other countries the author significantly adds to the body of knowledge on career development as a field in Australia and internationally The book provides new understandings about the historical development of this field of knowledge and in particular the challenging and cyclical nature of its policy history

A History of Australia Mark Peel, Christina Twomey, 2017-12-22 This vivid multi dimensional history considers the key cultural social political and economic events of Australia's history Deftly weaving these issues into the wider global context Mark Peel and Christina Twomey provide an engaging overview of the country's past from its first Indigenous people to the great migrations of recent centuries and to those living within the more anxiously controlled borders of the present day This engaging textbook is an ideal resource for undergraduate students and postgraduate students taking modules or courses on the History of Australia It will also appeal to general readers who are interested in obtaining a thorough overview of the entire history of Australia from the earliest times to the present in one concise volume

The Nation, 1882 **The South in the Building of the Nation: Southern biography, ed. by W. L. Fleming** Franklin Lafayette Riley, James Curtis Ballagh, John Bell Henneman, Edwin Mims, Thomas Edward Watson, Samuel Chiles Mitchell, 1909 The Imaginary Australian Miriam Dixson, 1999 Examination of the nature of Australian national identity includes reference to Aborigines discussed in terms of violence racism guilt remorse and memory questions the characterisation of race relations through forgetting and silence Stanner and violence Rowley argues that simplified historical narratives about race relations impede reparative energy in race relations psychological understanding of racism theories of the nation crisis of history and time in Australia and its impact on identity *Migrant Nation* Paul Longley Arthur, 2017-12-15 Focusing on particular historical blind spots by telling stories of individuals and groups that did not fit the favoured identity mould the essays in *Migrant Nation* work within the gap between Australian image and experience and offer fresh insights into the other side of identity construction The volume casts light on the hidden face of Australian identity and remembers the experiences of a wide variety of people who have generally been excluded neglected or simply forgotten

in the long running quest to tell a unified story of Australian culture and identity Drawing upon memories letters interviews and documentary fragments as well as rich archives the authors have in common a commitment to give life to neglected histories and thus to include in an expanding and open ended national narrative people who were cast as strangers in the place that was their home

The A to Z of Australia James C. Docherty, 2010-04-01 The last continent to be claimed by Europeans Australia began to be settled by the British in 1788 in the form of a jail for its convicts While British culture has had the largest influence on the country and its presence can be seen everywhere the British were not Australia's original populace The first inhabitants of Australia the Aborigines are believed to have migrated from Southeast Asia into northern Australia as early as 60 000 years ago This distinctive blend of vastly different cultures contributed to the ease with which Australia has become one of the world's most successful immigrant nations The A to Z of Australia relates the history of this unique and beautiful land which is home to an amazing range of flora and fauna a climate that ranges from tropical forests to arid deserts and the largest single collection of coral reefs and islands in the world Through a detailed chronology an introduction appendixes a bibliography and cross referenced dictionary entries on some of the more significant persons places and events institutions and organizations and political economic social cultural and religious facets author James Docherty provides a much needed single volume reference on Australia from its most unpromising of beginnings as a British jail to the liberal tolerant democracy it is today

The Unknown Nation James Curran, Stuart Ward, 2010 The Unknown Nation is an illuminating history of Australia's putative search for national identity James Curran and Stuart Ward document how the receding ties of empire and Britishness posed an unprecedented dilemma as Australians lost their traditional ways of defining themselves as a people With the sudden disappearance in the 1960s and 1970s of the familiar coordinates of the British world Australians were cast into the realm of the unknown The task of remodelling the national image touched every aspect of Australian life where identifiably British ideas habits and symbols from foreign relations to the national anthem had grown obsolete But how to celebrate Australia's past achievements and present aspirations became a source of public controversy as community leaders struggled to find the appropriate language and rhetoric to invoke a new era

The Fin de Siècle Imagination in Australia, 1890-1914 Mark Hearn, 2022-07-14 This book explores the fin de siècle an era of powerful global movements and turbulent transition in Australia and beyond through a series of biographical microhistories From the first wave feminist Rose Summerfield and the working class radical John Dwyer to the indigenous rights advocate David Unaipon and the poet Christopher Brennan Hearn traces the transnational identities philosophies ideas and cultures that characterised this era Examining the struggles and aspirations of fin de siècle lives respect for the rights of women and indigenous peoples the injustices and hardship inflicted on working men and women and the ways in which they imagined a better world this book examines the transformation and renewal brought about by fin de siècle ideas It examines the distinctive characteristics of this great acceleration of economic technological and cultural forces that swept the globe at the

turn of the 19th century both within an Australian context and on the world stage Asserting that the fin de si cle was significant for the making of modern Australia and demonstrating the impact Australian fin de si cle lives had on the transnational and global movements of the era Mark Hearn traces the turbulent nature of the fin de si cle imagination in Australia and its response to these dynamic forces Not Born in Singapore: Fifty Personalities who Shaped the Nation Ying Hui,2019-02-18 Did you know that we owe the iconic Singapore Girl to a British born adman Or that the founder of the popular Mustafa Centre hails from India This year as we celebrate our local heroes it s also time to put the spotlight on other unsung contributors who have shaped our nation They may have come from other shores but these 50 foreigners have left their mark in building Singapore into the nation we know it to be today The 50 remarkable individuals are ARTS Ian Batey K P Bhaskar Santha Bhaskar Della Butcher Choo Hoey John Herbert Kuo Pao Kun Goh Lay Kuan J M Sali Tan Swie Hian ECONOMY Mustaq Ahmad Sir Laurence Hartnett Dr Tsutomu Kanai Pasquale Pistorio Captain Muhammad Jalaluddin Sayeed Tang I Fang Ratan Tata Kartar Singh Thakral Tan Sri Frank Tsao Wen King Alain Vandenborre Cyril Neville Watson Albert Winsemius EDUCATION Dr Robert A Brown Brother Joseph McNally Milenko Prvacki Mary Turnbull Professor Wang Gungwu Professor Wu Teh Yao Dr John Miksic Ann Wee SOCIETY Professor T H Elliott Christine Laimer Lien Ying Chow BG Yaakov Jack Elazari G G Thomson Krystyn Olszewski Bruno Wildermuth SCIENCE AND MEDICINE Sir Sabaratnam Arulkumaran Dr Sydney Brenner Professor Edward W Holmes Dr Edison Liu Sir George Radda Dr Shan Ratnam Sir David Lane Professor Jackie Y Ying SPORTS Aleksandar Duric Feng Tianwei Jing Junhong Ronald Susilo Tao Li **An Immigrant Nation Seeks Cohesion** James Jupp,2018-04-10 An Immigrant Nation Seeks Cohesion presents Australian traditions myths and legends in an understanding but often critical light in the belief that such devices have often been used by interested parties and even governments to maintain social solidarity and to mould a very complex people into a coherent and obedient whole Australia is not and never has been an equal society It has not always been a peaceful and tolerant society but it is more so than most other states and especially many of those sending immigrants It is not a perfect democracy Many have been mistreated and even persecuted but that most of those suffering at present are either indigenous or refugees should not be a cause of indifference Australians may be suspicious of foreigners and social and political deviants But they have passed a whole series of reforming laws since the Federation in 1901 not all of which have been as racist as the White Australia policy An Immigrant Nation Seeks Cohesion attempts to get a little bit closer to the truth of two hundred years of creating a liveable society in what was a remote and unknown part of the world To Feed a Nation Keith Thomas Henry Farrer,2005 Takes the reader on a journey over the centuries describing the slow and arduous development of Australian food technology and science from before European settlement to the latter half of the twentieth century
