Peter Sculthorpe Faber Music:

Peter Sculthorpe Faber Music Limited,1979 **Peter Sculthorpe** Michael Hannan,1976 Peter Sculthorpe Graeme Skinner,2015-10-01 Peter Sculthorpe who died in 2014 remains Australia s best known composer and is widely held to be the most important creative musical spirit the country has produced Beautifully written and fastidiously researched this authorised biography provides an insight into Sculthorpe s formation years his quest for personal voice and his arrival through many creative friendships and collaborations at a place in the collective heart of the nation It charts the realisation of a youthful vocation to become not merely a composer but an Australian composer Graeme Skinner s biography is also a social history examining Sculthorpe s unique role in the creation of Australian musical modernism in the 1960s an important era in Australia s cultural evolution **Australia's Jindyworobak Composers** David Symons,2020-11-29 Australia s Jindyworobak Composers examines the music of a historically and artistically significant group of Australian composers active during the later post colonial period 1930s c 1960 These composers sought to establish a uniquely Australian identity through the evocation of the country s landscape and environment including notably the use of Aboriginal elements or imagery in their music texts dramatic scenarios or programmes Nevertheless it must be observed that this word was originally adopted as a manifesto for an Australian literary movement and was for the most part only retrospectively applied by commentators rather than the composers themselves to art music that was seen to share similar aesthetic aims Chapter One demonstrates to what extent a meaningful relationship may or may not be discernible between the artistic tenets of Jindyworobak writers and apparently likeminded composers In doing so it establishes the context for a full exploration of the music of Australian composers to whom Jindyworobak has come to be popularly applied The following chapters explore the music of composers writing within the Jindyworobak period itself and finally the later twentieth century afterlife of Jindyworobakism This will be of particular interest to scholars and researchers of Ethnomusicology Australian Music and Music History **The Sounds of Aurora Australis** Beatrice Dalov,2021-01-12 Entrenched until recently in Western aesthetics Australian composers are now developing a functional cultural identity expressed through a distinctly nationalistic musical idiom Its ongoing formation inspired by Australias Aboriginal heritage and unique natural environment seeks to distance the nations artistic developments from the geographically remote Occidental regions and emphasize its native cultures Presently however mounting sociopolitical and ethical concerns surrounding the cultural borrowing between Indigenous and non Indigenous peoples are problematizing the developing nationalistic idiom as composers must determine whether the two groups share any legitimate connection beyond mere occupation of the same land given their tense post colonial history Musicologist Beatrice Dalov traces the formation of the Southern Lands cultural identity while simultaneously considering its complex relationship with the nations First Peoples She illuminates the origins influences and developments of Australian art music from colonization late eighteenth century to the present day interweaving the social

cultural political and economic forces that shaped and often determined its evolution The history demonstrates that the complex processes of articulating a unique cultural identity began almost immediately after arrival of the first colonists and continues uninterrupted through today Drawing on newly available archival material key works and personally conducted interviews with numerous contemporary composers Dalov traces the history of the lands music from scattered convict settlements and eventful contacts with Aboriginal peoples to the formation of a national musical infrastructure to today's thriving musical independence She brings forward not only the most prominent composers and musicians of the last century but also those who laid a crucial foundation and offered the first contributions toward a national idiom A comprehensive history of the music of the Great Southern Land has been too long neglected by social historians and musicologists worldwide Beatrice Dalov sets the record straight *Australian Music and Modernism, 1960-1975* Michael Hooper, 2019-10-31

Drawing on newly available archival material key works and correspondence of the era Australian Music and Modernism defines Australian Music as an idea that emerged through the lens of the modernist discourse of the 1960s and 70s At the same time that the new Australian Music was distinctive of the nation it was also thoroughly connected to practices from Europe and shaped by a new engagement with the music of Southeast Asia This book examines the intersection of nationalism and modernism at this formative time During the early stages of Australian Music there was disagreement about what the idea itself ought to represent and indeed whether the idea ought to apply at all Michael Hooper considers various perspectives offered by such composers as Peter Sculthorpe Richard Meale and Nigel Butterley and analyzes some of the era's significant works to articulate a complex understanding of Australian Music at its inception **Peter Sculthorpe**, 2001

Copyright Office,1975 **National Union Catalog** ,1983 **Roger Smalley: A Case Study of Late Twentieth-Century Composition** Christopher Mark,2016-04-08 How does one go about writing the history of musical composition in the late twentieth century when on the one hand so much of it seems impossibly fractured and disassociated and on the other there has been so little certainty about what the notion of music history might entail under the critiques of post modernism One of the most productive ways forward is to pursue case studies involving single composers whose music reflects several aspects of recent activity This enables the discussion of broad issues in a relatively focussed way whilst avoiding the pitfalls of traditional narrative histories and the centrifugal tendencies of the relativistic approach that some have called for The music of the English born 1943 and Australia domiciled composer Roger Smalley is ideal material for such a study because of his involvement with and response to an unusually large number of the myriad concerns and practices of post 1950s composition including post serial constructivism parody electro acoustic composition and the electronic modification of conventionally produced sound Moment Form aleatorism minimalism the use of non Western resources Aboriginal and South East Asian sonorities neo Romanticism and arguably the new classicism as well as a brief flirtation with rock music in the late 60s Employing an interview with the composer as a kind of cantus firmus the book the first extended single author study of Smalley s music to be published incorporates critical commentary on the composer s major works in a chronological narrative that engages with broad issues of central relevance to Smalley s generation such as the process of learning the craft of composition in the early 60s the motivation behind the adoption of certain technical and aesthetic positions the effects on technical and aesthetic orientation of both the changing relationships between composer performer and audience and technological change and the distinction betwe Twentieth-Century Countertenor Repertoire Steven L.
