Taking Rational Trouble Over the Mysteries Nicola Hoggard Creegan, Andrew Shepherd, 2013-07-29 How can one believe in an age of doubt How can we name the mystery of God in human words Does nature speak of the glory of God Does science undermine faith Is the problem of evil unanswerable In this volume scientists theologians philosophers as well as a historian and social scientist take seriously the challenge of knowing and speaking about God in an age of doubt and challenge All New Zealand writers the authors reflect a variety of styles inputs and assumptions from down under Some look to answer new atheists directly others point out links between belief and unbelief in any age There are essays that show us new ways of reading old texts Scientists reflect on nature its signs and its obscurity We are confronted also with the mixed picture of belief and unbelief that the last few hundred years reveals to us Most of these essays have come out of seminars and conferences put on by TANSA Theology and the Natural Sciences in Aotearoa a forum for discussion and interpretation amongst scientists and theologians in New Zealand **Twilight Zones** Susan Bordo, 2023-09-01 Considering everything

from Nike ads emaciated models and surgically altered breasts to the culture wars and the O J Simpson trial Susan Bordo deciphers the hidden life of cultural images and the impact they have on our lives She builds on the provocative themes introduced in her acclaimed work *Unbearable Weight* which explores the social and political underpinnings of women's obsession with bodily image to offer a singularly readable and perceptive interpretation of our image saturated culture As it becomes increasingly difficult to distinguish between appearance and reality she argues we need to rehabilitate the notion that not all versions of reality are equally trustworthy Bordo writes with deep compassion unnerving honesty and bracing intelligence Looking to the body and bodily practices as a concrete arena where cultural fantasies and anxieties are played out she examines the mystique and the reality of empowerment through cosmetic surgery Her brilliant discussion of sexual harassment reflects on the Clarence Thomas Anita Hill controversy as well as the film *Disclosure* She suggests that sexuality although one of the mediums of harassment is not its essence and she calls for the recasting of harassers as bullies rather than sex fiends Bordo also challenges the continuing marginalization of feminist thought in particular the failure to read feminist work as cultural criticism Finally in a powerful and moving essay called *Missing Kitchens* written in collaboration with her two sisters Bordo explores notions of bodies place and space through a recreation of the topographies of her childhood Throughout these essays Bordo avoids dogma and easy caricature Consistently and on many levels she demonstrates the profound relationship between our lives and our theories our feelings and our thoughts Considering everything from Nike ads emaciated models and surgically altered breasts to the culture wars and the O J Simpson trial Susan Bordo deciphers the hidden life of cultural images and the impact they have on our lives She builds on the provoc

The Journal of Philosophy ,1993 Covers topics in philosophy psychology and scientific methods Vols 31 include A Bibliography of philosophy 1933 **Proceedings and Addresses of the American Philosophical Association** American Philosophical Association,1994 List of members in v 1 *The Philosophical Athlete* Heather Lynne Reid,2002 All athletes experience victory and defeat but how many truly learn from the experience of sport For ancient Greek philosophers sport was an integral part of education Today athletics programs remain in schools but we face a growing gap between the modern sports experience and enduring educational values This book seeks to bridge that gap by advocating a philosophical approach to the sports experience Combining issues and ideas from traditional philosophy with contemporary analyses of sport and applied thinking activities this book invites athletes to learn about life from their experience of sport The text works its way from internal reflection to social interaction by addressing four important topics self discovery responsibility respect and citizenship This sequence is important because authentic self knowledge is an essential foundation for effectively dealing with the personal and social challenges faced by philosophical athletes Reid discusses specific issues such as violence racism and performance enhancing drugs in their relevant contexts although philosophical athletes focus on the big picture approaching each issue from a complete vision of themselves their moral commitments and their social roles Athletes as

diverse as the teenage college recruit and the aging weekend warrior will gain insight into their sports experience and into their lives This philosophical approach maximizes what we can learn from sport and gives us the best chance for leading better lives because of it

With All Your Mind Michael L. Peterson, 2001 With All Your Mind makes a compelling case for the value of thinking deeply about education in America from a historically orthodox and broadly ecumenical Christian point of view Few people dispute that education in America is in a state of crisis But not many have posed workable solutions to this serious problem Michael Peterson contends that thinking philosophically about education is our only hope for meaningful progress In this refreshing book he invites all who are concerned about education in America to participate in his study which analyzes representative theories and practical strategies that reveal the power of Christian ideas in this vital area Peterson addresses the most fundamental questions facing educators and society in general such as What is the purpose of education What goals do new techniques and methods serve What kind of person is our educational system supposed to produce He also explores questions of unique importance to Christians such as What is the relation between Christianity and the pursuit of intellectual excellence How can Christians bring their faith to bear on all areas of knowledge Can educated Christians significantly influence culture With All Your Mind examines the key assumptions and implications of influential classical and contemporary philosophies with respect to education including idealism naturalism Thomism experimentalism existentialism linguistic analysis and postmodernism Based on this analysis Peterson develops an unapologetically Christian philosophy of education in regard to curriculum design instilling ethics and values and the nature of teaching and learning Peterson further advances the merits of an ecumenical Christian philosophy of education by showing how it can be used to analyze key issues in educational theory such as the relation of general education to liberal learning the integration of faith and learning and the demand for professional and technical training From a practical standpoint Peterson's approach brings balance and common sense to issues such as the clash between public and private education the rise of multiculturalism the changing demographic and psychological profile of America's youth and the impact of computer and Internet technology With All Your Mind concludes with a stirring vision for education that is embedded in an all encompassing Christian view of life Using clear jargon free language Peterson teaches a good deal of basic philosophy while developing a powerful argument for the value of liberal arts education interacting with Christian faith at all levels of schooling
