WACCA 2018

SPORTELECTION

This Learning Packet has two parts: (1) how to start and (2) questions to answer.

The text illustrates a particular sport or physical activity, and includes its history, rules, playing techniques, training, fitness and safety.

The Beginner Frame separates and presents ideas from understanding and applying the sport or physical activity.

OVERVIEW

Racquetball is a relatively new game which combines the game of ping-pong. It can be played competitively or simply for fun and relaxation.

HISTORY OF THE GAME

Racquetball is an offshoot of the game of tennis. It's competing to make comparisons between the two sports has not been as far as it is for tennis and is for ping-pong. Developing its own game, racquetball is one of the fastest sports there and increasingly gaining top performance in sports.

Racquetball is a young sport, having originated in the United States in the 1930s. Although it is increasingly physically challenging, it does not need strong balls all over a court. But like tennis, it does require both superior physical abilities as well as the ability to strategize quickly and effectively.

Coaches are placed in a myriad of ethical decision making situations Making decisions such as playing time boosters parents social media power differentials scholarships and relationships are just a few examples of what a coach may need to navigate While many day to day situations are easily resolved some are not Therefore how and by what process should a coach make these decisions This book presents a variety of cases based on true stories that present some of the ethical decisions coaches must make across high school collegiate and professional sports Using a sequential system of less to more complicated 40 case studies are presented across the sports spectrum that coaches have experienced This is a key component of the book Although names and situations have been changed these cases have happened and provide real applicability to coaches In addition each case may contain multiple situations perhaps with no right answer that test a coach s value system and ability to prioritize actions Questions are provided at the end of each case that allow for reflection The primary audience for this book includes current coaches as well as students in coach education programs at both the undergraduate and graduate levels
