This Thing Called the World Debjani Ganguly,2016-07-21 In *This Thing Called the World* Debjani Ganguly theorizes the contemporary global novel and the social and historical conditions that shaped it Ganguly contends that global literature coalesced into its current form in 1989 an event marked by the convergence of three major trends the consolidation of the information age the arrival of a perpetual state of global war and the expanding focus on humanitarianism Ganguly analyzes a trove of novels from authors including Salman Rushdie Don DeLillo Michael Ondaatje and Art Spiegelman who address wars in Iraq Afghanistan and Sri Lanka the Palestinian and Kashmiri crises the Rwandan genocide and post9 11 terrorism These novels exist in a context in which suffering s presence in everyday life is mediated through digital images and where authors integrate visual forms into their storytelling In showing how the evolution of the contemporary global novel is analogous to the European novel s emergence in the eighteenth century when society and the development of capitalism faced similar monumental ruptures Ganguly provides both a theory of the contemporary moment and a reminder of the novel s power

The Image of the Feminine in the Poetry of W.B. Yeats and Angelos Sikelianos Anastasia Psoni,2018-12-19 Modernism as a powerful movement saw the literary and artistic traditions as well as pure science starting to evolve radically creating a crisis even chaos in culture and society Within this chaos myth offered an ordered picture of that world employing symbolic and poetic images Both W B Yeats and Angelos Sikelianos embraced myth and symbols because they liberate imagination and raise human consciousness bringing together humans and the cosmos Being opposed to the rigidity of scientific materialism that inhibits spiritual development the two poets were waiting for a new age and a new religion expecting that they themselves would inspire their community and usher in the change In their longing for a new age archaeology was a magnetic field for Yeats and Sikelianos as it was for many writers and thinkers After Sir Arthur Evans s discovery of the Minoan Civilization where women appeared so peacefully prominent the dream of re creating a gynocentric mythology was no longer a fantasy In Yeats s and Sikelianos s gynocentric mythology the feminine figure appears in various forms and like in a drama it plays different roles Significantly a gynocentric mythology permeates the work of the two poets and this mythology is of pivotal importance in their poetry their poetics and even in their life as the intensity of their creative desire brought to them female personalities to inspire and guide them Indeed in Yeats s and Sikelianos s gynocentric mythology the image of the feminine holds a place within a historical context taking the reader into a larger social political and religious space

Criminal Ingenuity Ellen Levy,2011-05-13 Poetry was declining Painting advancing we were complaining it was 50 recalled poet Frank O Hara in 1957 *Criminal Ingenuity* traces a series of linked moments in the history of this transfer of cultural power from the sphere of the word to that of the image Ellen Levy explores the New York literary and art worlds in the years that bracket O Hara s lament

through close readings of the works and careers of poets Marianne Moore and John Ashbery and assemblage artist Joseph Cornell In the course of these readings Levy discusses such topics as the American debates around surrealism the function of the token woman in artistic canons and the role of the New York City Ballet in the development of mid century modernism and situates her central figures in relation to such colleagues and contemporaries as O Hara T S Eliot Clement Greenberg Walter Benjamin and Lincoln Kirstein Moore Cornell and Ashbery are connected by acquaintance and affinity and above all by the possession of what Moore calls criminal ingenuity a talent for situating themselves on the fault lines that fissure the realms of art sexuality and politics As we consider their lives and works Levy shows the seemingly specialized question of the source and meaning of the struggle for power between art forms inexorably opens out to broader questions about social and artistic institutions and forces the academy and the museum professionalism and the market and that institution of institutions marriage

Art as a Pathway to God Susangelina Yalili Patrick,2024-04-22 This book integrates history theology and art and analyzes the Jesuits cross cultural mission in late imperial China Readers will find a rich collection of resources from historical sites museums manuscripts and archival materials including previous unpublished works of art The production and circulation of art from different historical periods and categories show the artistic theological and missional values of Christian art It highlights European Jesuits Asian Christians transnationalism and gives voice to Chinese Christian women and their patronage of art in the seventeenth century It offers a rare systematic study of the relation between art and mission history

The Wallflower Avant-garde Brian Glavey,2016 The Wallflower Avant Garde argues for the importance of a strain of modernist formalism based in ekphrasis the literary imitation of the visual arts Often associated with a conservative aesthetic of wholeness permanence and autonomy ekphrastic writing also involves excess failure and mimesis conjuring an aesthetic sense of closure and unity out of impossible imitations This choreography of imitation and autonomy resonates with many of the foundational insights of queer theory the way it situates identity as an effect of performativity artifice and mimesis Unlike many queer theorists however this book insists that we value both the imitations and the aspirations that guide them underlining not only the illusoriness of identity but also its allure This more capacious formalism allows aspects of modernists aesthetic that have seemed regressive or repressive to be read as generative forms of stasis quiet reserve shyness and so on

Images, Reality, and Digital Culture Krešimir Purgar,2025-09-30 Focusing on the moment of transition from the pictorial to the post pictorial condition this book advocates the opinion that what fundamentally distinguishes pictorial representation in Western civilization is one s ability to distinguish what the picture shows from what the picture refers to and to that extent the reality inside the picture cannot be confused with what is outside it The contributions in this book serve as kind of a missing link connecting the genealogy of traditional images with contemporary environmental visualizations in the world that in this very moment undergoes a

transition into a new exciting age in which many old knowledges are rapidly becoming obsolete and new ones are seeking their legitimacy Instead of leading the reader to reconciliation with the fatal diagnosis of the world under the rule of technological determinism this book indicates the key points of transition between the pictorial representation that traditionally belonged to the history of art and the virtual presence that is approached in quite different ways today This book will be of interest to scholars working in art history image philosophy image studies and digital studies **Word & Image**

Bible in Photography Sheona Beaumont,2024-01-25 Sheona Beaumont addresses the untold story of biblical subjects in photography She argues that stories characters and symbols from the Bible are found to pervade photographic practices and ideas across the worlds of advertising and reportage the book and the gallery in theoretical discourse and in the words of photographers themselves Beaumont engages interpretative tools from biblical reception studies art history and visual culture criticism in order to present four terms for describing photography s latent spirituality the index the icon the tableau and the vision Throughout her journey she includes lively discussion of selected fine art photography dealing with the Bible in surprising ways from images by William Henry Fox Talbot in the 19th century to David Mach in the 21st Far from telling a secular story photography and the conditions of its representations are exposed in theological depth Beaumont skillfully

interweaves discussion of the images and theology arguing for the dynamic and potent voice of the Bible in photography and enriching visual culture criticism with a renewed religious understanding **Aesthetic Vision and German Romanticism**

Brad Prager, 2007 Crosses disciplinary boundaries to explore German Romantic writing about visual experience and the interplay of text and image in Romantic epistemology The work of the groundbreaking writers and artists of German Romanticism including the writers Tieck Brentano and Eichendorff and the artists Caspar David Friedrich and Philipp Otto Runge followed from the philosophical arguments of the German Idealists who placed emphasis on exploring the subjective space of the imagination The Romantic perspective was a form of engagement with Idealist discourses especially Kant's Critique of Pure Reason and Fichte's Science of Knowledge Through an aggressive speculative reading of Kant the Romantics abandoned the binary distinction between the palpable outer world and the ungraspable space of the mind's eye and were therefore compelled to develop new terms for understanding the distinction between internal and external In this light Brad Prager urges a reassessment of some of Romanticism's major oppositional tropes contending that binaries such as self and other symbol and allegory and light and dark should be understood as alternatives to Lessing's distinction between interior and exterior worlds Prager thus crosses the boundaries between philosophy literature and art history to explore German Romantic writing about visual experience examining the interplay of text and image in the formulation of Romantic epistemology Brad Prager is Associate Professor of German at the University of Missouri Columbia
