Politics Who Gets What When And How Harold D Lasswell:

Politics as Leadership Robert C. Tucker, 1995-10 Robert C Tucker begins this invaluable book with an analytical look at politics leadership and the effect each has on the other Aligning himself with Plato's view of politics as leadership Tucker argues that politics is more usefully defined from this perspective than from the more familiar stance of the exercise of power He maintains leaders must define collective problems prescribe actions or policies and finally seek support for their diagnoses and policy prescriptions Tucker contends that political science must take account not only of leadership by those in state authority but also of sociopolitical movements for change as vehicles of attempted leadership of political communities Dividing such movements into those for reform and those for revolution he illustrates this distinction with examples including Martin Luther King Jr as a reform leader and Lenin as a revolutionary one Finally Tucker raises a central question of his study how can leadership save humankind from itself in the troubled world of today In an insightful and moving discussion of what he calls the crisis syndrome Tucker analyzes problems such as population growth resource depletion and environmental degradation with respect to leadership He argues that the current political process has focused on the immediate present while ignoring crises with far reaching implications that require tough solutions In the epilogue to this revised edition Tucker draws on his expertise as a Russian specialist extending the book's discussion of leadership by viewing Mikhail Gorbachev as a reform leader in Soviet Russia and Boris Yeltsin as a post Soviet Russian leader Tucker also readdresses the crisis syndrome by examining leaders responses in the 1980s and early 1990s Tucker's incisive reasoning original insights and commentary on the theory and practice of politics should make this revised edition of *Politics as Leadership* equally valuable and fascinating for experts in the field of political science and for concerned citizens **Politics; who Gets What, When,**

Executing Truth Stuart Weierter, 2019-04-26 With the increasing use of algorithms to govern public life a proliferation of promises surrounding big data and an ever tighter union of academic specialists and the state bureaucracy we are it seems on our way to an administrative utopia At what cost though *Executing Truth* critically appraises this reformation of politics by way of the social sciences It argues that what is lost with this reformation is a deeper consideration of the problematic relation of truth to politics a problem which cuts deeper than any social science might plumb In seeking to recover what is lost this book offers a comprehensive study of the problem The author works his way back from the debates in politically applied social science or policy science to the foundational thinkers These include Harold Lasswell John Dewey Max Weber and Georg Hegel At the end of this journey *Executing Truth* calls for a return to the everyday or the most comprehensive basis for distinguishing between theoretical perspectives and outlines the implications of this return for those political advisors state executive actors tasked with speaking truth to power

Political Science Revitalized Michael Haas, 2017-07-28 Political science has been described as a jigsaw puzzle with many specializations and subfields that do not talk to one another This book offers a solution that will advance the field from mid level theory to engage in cross fertilization through metatheoretical paradigms The book begins with a history of political science from the nineteenth century to the present followed by a paradigmatic history of political science including 6 metatheories in the pre behavioral era 12 in the behavioral era and the 4 major and several minor paradigms being developed today The book advances the goal of David Easton by proposing a neobehavioral political science including multimethodological innovations cross testing of paradigms and tenets of a new political science that can rise to become a truly theoretical science Each paradigm is diagrammed to demonstrate the key concepts and their causal interconnections *Political Science Revitalized Filling the Jigsaw Puzzle with Paradigms* poses an exciting and provocative argument for the future of the vast field of political science

Disability Rights and the American Social Safety Net Jennifer L. Erkulwater, 2018-07-05 The recent history of the American welfare state has been viewed with dismay by those on the left because of the steady contraction of benefits under both Republican and Democratic administrations In contrast Jennifer L Erkulwater describes the remarkable success of advocacy for the disabled at a time when the federal government was seemingly impervious to liberal policy innovations Since the War on Poverty the American public's support for social welfare policies has gradually eroded as conservative politicians have gained power and demographic changes and uncertain economic growth have enhanced pressures for fiscal retrenchment Yet the past thirty years have also seen a dramatic expansion of disability benefits This book is the first to examine how entitlements for the disabled have fared in the wake of the disability rights movement This movement initially fought to end the institutionalization of the severely disabled and moved on to claim that antidiscrimination laws would allow the disabled to work and become less dependent on welfare It also had a profound impact on entitlements Erkulwater demonstrates that the Disability Insurance and Supplemental Security Income programs enacted between 1972 and 2000 succeeded because policy elites switched from welfare based approaches to the civil rights rhetoric used by the disability rights movement The work of liberal advocates who sought to end the segregation of the disabled in custodial institutions and integrate them into their home communities contributed to the growth of programs providing financial assistance to disabled citizens and to the recent controversies surrounding the future direction of disability policy
