Popkin's Private Republic of Letters**, 2024-11-18 Richard H Popkin 1923 2005 was a pioneer in the field of Jewish studies His numerous books and articles broke new ground in the study of Jewish Christian relations in the early modern period and in the exploration of the impact of Jews and Judaism on philosophy and religious thought *A Sceptical Jew* Richard H Popkin's *Private Republic of Letters* brings together selections from Popkin's private correspondence and other documents to illuminate the sources of his interests and the nature of his contributions to the fields in which he worked *CSR: Roots in PHILOSOPHY* Dr. Joji Valli, 2015-08-28 *Philosophy* aims at individual liberation through cessation of pain and suffering The world around what we see is full of miseries and suffering Human life is a saga of suffering pain and happiness Although happiness is there when we take the proportion of suffering and pain it is not equated or balanced Human beings from time immemorial have been probing into this existential issues and asking the question how to eliminate pain and suffering Or how to bring about eternal happiness in this life This book will delve deeper into the naked realities of life which affirm the

necessity of CSR for the welfare and progress of the society *Illusions of Sceptics* Jiri Fuchs,2021-08-31 It is the authors belief that philosophers if they aspire to critical thinking have to start their investigation by embracing the concept of truth as an underlying characteristic of the human thought The cornerstone of the entire Noetics is to construct the apodictic proof of the objective truth which is in the correspondence sense assumed whether they realize it or not even by the most extreme sceptics This proof also refutes the traditional objections purporting that all the attempts at the self explanation of reason inevitably result in dogmatism circular logic or infinite regress Accordingly the verification of truth as a mandatory attribute of the human thought becomes the main benchmark not just for the noetic but for every subsequent philosophical investigation This critical confrontation invalidates the modern theories of knowledge along with their negativistic vein exposing them as basically dogmatic and intrinsically contradictory By providing a liberating distance from the principle authorities of modern philosophy the true Noetics can show that the tragic and anthropologically destructive outcome in the postmodern relativism of values is by no means an indispensable attribute of philosophy proper but just a consequence of the failure of the modern thinkers to pay proper attention to the Noetics **An Introduction to the Phenomenology of Religion** James Cox,2010-02-10

In this thoroughly revised edition James Cox provides an easily accessible introduction to the phenomenology of religion which he contends continues as a foundational method for the academic study of religion in the twenty first century After dealing with the problematic issue of defining religion he describes the historical background to phenomenology by tracing its roots to developments in philosophy and the social sciences in the early twentieth century The phenomenological method is then outlined as a step by step process which includes a survey of the important classifications of religious behaviour The author concludes with a discussion of the place of the phenomenology of religion in the current academic climate and argues that it can be aligned with the growing scholarly interest in the cognitive science of religion

Ambanasom,2013-02-17 In 2009 Anglophone Cameroon literature celebrated its fifty years of existence Now at the mature age of fifty plus this literature has a great deal to write home about even if it still has a lot to do in its pursuit of excellence Part of its maturity resides in the fact that although the scale of literary

creativity and literary criticism is skewed in favour of the former Anglophone Cameroon literary criticism is gradually waking up from slumber in an attempt to catch up with the rapidly expanding creativity The essays in this book comment practically on some aspects of all the genres of written literature that the Anglophone Cameroon creative writers have produced so far the novel drama poetry the short story the essay and childrens literature The essays on the whole are a testimony of the transition and reality from the apparent drought of Anglophone Cameroon literary paucity to the actual fruitful period of Anglophone Cameroon abundance of literary creativity The Anglophone Cameroonians have appropriated an imperial language English to serve their postcolonial Cameroonian vision Their various literary texts are vehicles of representations that are essentially cultural and ideological constructs The works examined are initially anchored on Cameroonian experiences to take on social significance As they are grounded on moving human experiences these works necessarily make references to the immediate Cameroonian environment of their authors before taking on universal human significance The book abundantly evidences and crowns Shadrach Ambanasoms achievements and reputation as a skilled pedagogue on the art of practical literary criticism

Good Pastors Bad Pastors suggests that a multidimensional approach of responsible reportage emphatic moral education appropriate but sympathetic response to moral failure and peer review accountability could help uphold a higher standard of ministerial ethics
