Concerns of Child

Joshua seems to be anti-social with his peers at day care, and seems generally uninterested in activities. Joshua prefers to be by himself, which is affecting social development, according to caregivers.

Feelings of Child

When prompted, Joshua responded that he does not like others, and that they are "weird." He did not answer many questions, and instead kept his head down. Appears unbothered.

Objective

Toys Used

Action figures in town set

Play Themes

- Lack of attachment
- Controlling
- Messing
- General negative interactions

Changes in Play Behavior

Play became more negative when I attempted to interfere with his scene. Joshua did not appreciate outside input, and preferred to control the scene himself, despite lack of interest.

Verbal Themes

- Boredom

Limits Set

- The buildings are not made to be destroyed

Assessment

Joshua used action figures to play a scene within a town set. He demonstrated a lack of attachment, expressing boredom, and made a mess of the scene with lack of care. He controlled the elements, and wouldn't let me interfere.

Plan

Joshua demonstrates clear anti-social and detachment issues, with a general lack of interest. He can withdraw if feeling threatened, such as my interference, and so it is recommended that Joshua sees me next week to evaluate child therapy options.

Play Therapy Treatment Planning with Children and Families Lynn Louise Wonders, Mary L. Affee, 2024-03-29 *Play Therapy Treatment Planning with Children and Families* is a comprehensive guide that provides an integrative and prescriptive approach to creating customized treatment plans. It is an excellent textbook for graduate programs in social work counseling and family therapy and an invaluable guide for practicing clinicians in all settings. After exploring and explaining the many modalities for treating children and adolescents, this book provides sample treatment plans using a variety of case vignettes. Chapters also take readers through a road map for case conceptualization, meeting with caregivers, problem identification, goal development, diagnosis, determination of interventions, and termination, and much more.

Linking Parents to Play Therapy Deborah Killough McGuire, Donald E. McGuire, 2001. First Published in 2001. Routledge is an imprint of Taylor & Francis, an informa company.

Clinical Documentation with Children and Adolescents Amy Marschall, 2023-08-29. This book addresses the unique challenges therapists face when documenting their clinical work with children, providing insight into what ethical, appropriate, and culturally competent practice looks like. Clinical documentation is vital for ethical and legal practice, and good documentation helps clinicians leave room for client-centered and age-appropriate interventions such as play therapy. Beginning with an overview of the important considerations unique to providers working with children, Amy Marschall offers guidance on all aspects of clinical documentation, such as intakes, treatment plans, mental status examinations, progress notes, safety plans, and more. Each chapter includes specific examples of clinical situations with guidance on how to document these situations effectively. With chapters on client confidentiality and telehealth, as well as special attention being paid to cultural awareness, including race, ethnicity, gender, sexual orientation, and socioeconomic status, this book includes blank templates of treatment plans, progress notes, and risk assessments for therapists to use in their practice. This book is essential for any mental health professional who works with children in both individual and family work, including psychologists, licensed clinical social workers, licensed professional counselors, mental health counselors, marriage and family therapists, play therapists, school counselors, and therapist interns.

The Guide to Play Therapy Documentation and Parent Consultation Linda E. Homeyer, Mary Morrison Bennett, 2023-03-01. The Guide to Play Therapy Documentation and Parent Consultation guides play therapists through the case documentation process, from the initial inquiry for services through intake, session, diagnosis, treatment planning, session notes, and termination summary. There is a special focus on writing session notes, one of the areas in which play therapists most often request additional training. Chapters also identify play themes, explore clinical theories, and case conceptualization, and guide play therapists from the playroom to the paperwork. The authors include several examples of case notes and treatment plans completed from a variety of theoretical perspectives, and vignettes and case studies illustrate ways to connect with caregivers, strategies for working with challenging caregivers, addressing difficult topics at different ages and stages of parenting, how to talk about

sex screen time co parenting etc and much more The book also includes a thorough discussion of ways to structure parent consultations to facilitate the therapeutic process Expansive appendices provide many case examples and tips to explain and demonstrate documentation and the authors provide form templates in the text and on the book s website
