Post-Modernism and the Social Sciences Pauline Marie Rosenau, 1991-11-05 Post modernism offers a revolutionary approach to the study of society in questioning the validity of modern science and the notion of objective knowledge this movement discards history rejects humanism and resists any truth claims In this comprehensive assessment of post modernism Pauline Rosenau traces its origins in the humanities and describes how its key concepts are today being applied to and are restructuring the social sciences Serving as neither an opponent nor an apologist for the movement she

cuts through post modernism's often incomprehensible jargon in order to offer all readers a lucid exposition of its propositions. Rosenau shows how the post modern challenge to reason and rational organization radiates across academic fields. For example, in psychology it questions the conscious logical coherent subject; in public administration it encourages a retreat from central planning and from reliance on specialists; in political science it calls into question the authority of hierarchical bureaucratic decision making structures that function in carefully defined spheres; in anthropology it inspires the protection of local primitive cultures from First World attempts to reorganize them. In all of the social sciences she argues post modernism repudiates representative democracy and plays havoc with the very meaning of left wing and right wing. Rosenau also highlights how post modernism has inspired a new generation of social movements ranging from New Age sensitivities to Third World fundamentalism. In weighing its strengths and weaknesses, the author examines two major tendencies within post modernism: the largely European skeptical form and the predominantly Anglo North American form which suggests alternative political, social and cultural projects. She draws examples from anthropology, economics, geography, history, international relations, law, planning, political science, psychology, sociology, urban studies and women's studies and provides a glossary of post modern terms to assist the uninitiated reader with special meanings not found in standard dictionaries.

Postmodernity and the Fragmentation of Welfare John Carter, 2012-10-12. Postmodern ideas have been vastly influential in the social sciences and beyond. However, their impact on the study of social policy has been minimal. *Postmodernity and the Fragmentation of Welfare* analyses the potential for a postmodern or cultural turn in welfare as it treats postmodernity as an evolving canon from the seminal works of Baudrillard, Foucault and Lyotard through to recent theories of the risk society. Already disorientated by globalisation, new technologies and the years of new right ascendancy, welfare faces a significant challenge in the postmodern. It suggests that rather than universality and state provision, the new social policy will be consumerised and fragmented: a welfare state of ambivalence. With contributions from authors coming from a variety of fields offering very different perspectives on postmodernity and welfare, *Postmodernity and the Fragmentation of Welfare* also keeps social policy's intellectual inheritance in view. By exploring ways in which theorisations of postmodernity might improve understanding of welfare issues in the 1990s and assessing the relevance of theories of diversity and difference to mainstream and critical social policy traditions, this book will be an essential text for all students of social policy, social administration, social work and sociology.

Encyclopedia of Postmodernism Victor E. Taylor, Charles E. Winquist, 2003. Provides comprehensive and authoritative coverage of academic disciplines, critical terms and central figures relating to the vast field of postmodern studies. Publisher's description.

The Sacred and its Scholars Idinopulos, Yonan, 1996-10-01. This volume of essays is devoted to a careful examination of the importance of methodology in the study of primary religious data. The essays focus on the Sacred as an ultimate object of descriptive analysis and critical scrutiny on the part of a select number of North American and European methodologists in the study and teaching of the

history of religions and its allied disciplines The central question to which the contributors respond are these What is the Sacred Is it a being or a concept of a being is it a mental state or an objective reality or something else entirely Can the Sacred be described as an empirical fact or as a formal rule for religious inquiry If the Sacred is a valid category in the study and teaching of religion then what can be said about the antithesis of the sacred namely the profane or the secular This volume probes these questions with great care in order to justify a number of ways the Sacred can be construed as an indispensable notion for the study and teaching of religion Colonial Inscriptions Carolyn Martin Shaw,1995 **Social Theory in the Real World** Steven Miles,2001-05-09 Social Theory in the Real World is concerned with illustrating the practical benefits of social theory Many students find it hard to relate the real insights provided by social theory to their real life experiences and many lecturers struggle to demonstrate the relevance of social theory to everyday life This book offers an accessible non patronizing solution to the problem demonstrating that social theory need not be remote and obscure but if used in imaginative ways it can be indispensable in challenging our common sense perceptions and understandings The book identifies the key themes of contemporary social theory mass society postindustrialism consumerism postmodernism McDonalidization risk and globalization and uses the insights of both classical and contemporary theorists of social change to highlight the potential of imaginative theorizing **Truth Considered and Applied** Stewart E. Kelly,2011-07-05 A classroom text for philosophy and theology students learning to defend Christianity with love and truth in the context of history and against the challenges of postmodernist thought **The Paralysis of Analysis in African American Studies** Stephen Ferguson II,2023-09-21 Stephen C Ferguson II provides a philosophical examination of Black popular culture for the first time From extensive discussion of the philosophy and political economy of Hip Hop music through to a developed exploration of the influence of the postmodernism poststructuralist ideology on African American studies he argues how postmodernism ideology plays a seminal role in justifying the relationship between corporate capitalism and Black popular culture Chapters cover topics such as cultural populism capitalism and Black liberation the philosophy of Hip Hop music and Harold Cruse s influence on the cultural turn in African American studies Ferguson combines case studies of past and contemporary Black cultural and intellectual productions with a Marxist ideological critique to provide a cutting edge reflection on the economic structure in which Black popular culture emerged He highlights the contradictions that are central to the juxtaposition of Black cultural artists as political participants in socioeconomic struggle and the political participants who perform the rigorous task of social criticism Adopting capitalism as an explanatory framework Ferguson investigates the relationship between postmodernism as social theory current manifestations of Black popular culture and the theoretical work of Black thinkers and scholars to demonstrate how African American studies have been shaped

An Introduction to the Philosophy of Methodology Kerry E Howell, 2012-11-13 This book provides students with a concise introduction to the philosophy of methodology. The book stands apart from existing methodology texts by clarifying in a student friendly and engaging way distinctions between philosophical positions, paradigms of inquiry, methodology and methods. Building an understanding of the relationships and distinctions between philosophical positions and paradigms is an essential part of the research process and integral to deploying the methodology and methods best suited for a research project, thesis or dissertation. Aided throughout by definition boxes, examples and exercises for students, the book covers topics such as Positivism and Post positivism, Phenomenology, Critical Theory, Constructivism and Participatory Paradigms, Post Modernism and Post Structuralism, Ethnography, Grounded Theory, Hermeneutics, Foucault and Discourse. This text is aimed at final year undergraduates and post graduate research students. For more experienced researchers developing mixed methodological approaches, it can provide a greater understanding of underlying issues relating to unfamiliar techniques.

Postmodernist and Post-Structuralist Theories of Crime Dragan Milovanovic, 2017-07-05 This volume presents the rich and provocative historical, theoretical, methodological and applied developments within affirmative postmodern and post structural criminology. This includes the evolution of thought that embraces the linguistic turn in crime, law, justice and social change. Previously published articles authored by key thinkers are included throughout the book's five substantive sections. Collectively, they represent important reflections on the current criminological landscape in which symbolic, linguistic, material and cultural realms of analyses are featured.

The Historiography of the Chemical Revolution John G McEvoy, 2015-10-06 This study offers a critical survey of past and present interpretations of the Chemical Revolution designed to lend clarity and direction to the current ferment of views.

On 'What Is History?' Keith Jenkins, 2005-07-25 Jenkins provides a student introduction to contemporary historiographical debates. Through its radical critique of Carr and Elton, he embraces the postmodern type approaches of thinkers such as Richard Rorty and Hayden White.
