The Limitless Power of the Mind Ifeoma Eze,Okwudili Eze,2018-04-21 Our thoughts are not only things but our thoughts are tangible Our thoughts are powerful and they frame the triumphs or tragedies of our life The key to success is developing a winning mentality We spend a lot of time pursuing the trivial and expecting to be successful However we minor on the development of the mind Reaching your greatest potential is contingent upon rigorous development of the mind When you unlock the power of the mind you unlock a life of endless possibilities Few people are aware of the thoughts that pass through their minds Most thinking is done in an automatic manner The mind is like a small child who accepts and takes for granted whatever it sees or hears without judgment and without considering the consequences If you let your mind behave in this manner giving it complete freedom to jump from one thought to another you lose your freedom We are constantly flooded with thoughts ideas and information coming through the five senses other people the newspapers and TV These thoughts ideas and information penetrate the mind whether we are aware of this process or not Imagination is the ability to form a mental image of something that is not perceived through the five senses It is the ability of the mind to build mental scenes objects or events that do not exist are not present or have happened in the past Everyone possesses a certain degree of imagination ability The imagination manifests in various degrees in various people In some it is highly developed and in others it manifests in a weaker form Imagination makes it possible to experience a whole world inside the mind It gives the ability to look at any situation from a different point of view and to mentally explore the past and the future Lack of

understanding of the power of the imagination is responsible for the suffering incompetence difficulties failures and unhappiness people experience For some reason some people are inclined to think in a negative way They do not expect success They expect the worst and when they fail they believe that fate is against them This attitude can be changed and then will improve accordingly Understanding how to use your imagination correctly and putting this knowledge into practice for your own and other s benefit will put you on the golden path to success satisfaction and happiness **Recreating Your World** ,2007 **Biblical Healing in African Context** S.
