Modern East Asia A Brief History Second Edition:

Modern East Asia Conrad Schirokauer, Donald N. Clark, 2008 Modern East Asia A Brief History **Modern East Asia** Conrad Schirokauer, Donald N. Clark, 2003-04-01 **The 'Global' and the 'Local' in Early Modern and Modern East Asia** Benjamin A. Elman, Chao-Hui Jenny Liu, 2017-01-09 The Global and the Local in Early Modern and Modern East Asia presents a unique set of historical perspectives by scholars from two important universities in the East Asian region The University of Tokyo T dai and Fudan University along with East Asian Studies scholars from Princeton University Two of the essays address the international leanings in the histories of their respective departments in Todai and Fudan The rest of the essays showcase how such thinking about the global and local histories have borne fruit as the scholars of the three institutions contributed essays arguing about the philosophies methodologies and or perspectives of global history and how it relates to local stories Authors include Benjamin Elman Haneda Masashi and Ge Zhaoguang **Schirokauer Modern East Asia Brief 2nd Ed + World Atlas 2nd Ed** Houghton Mifflin College Division, 2007-08-01 *Gender, Health, and History in Modern East Asia* Angela Ki Che Leung, Izumi Nakayama, 2017-11-22 This groundbreaking volume captures and analyzes the exhilarating and at times disorienting experience when scientists government officials educators and the general public in East Asia tried to come to terms with the introduction of Western biological and medical sciences to the region The nexus of gender and health is a compelling theme for this is an area in which private lives and personal characteristics encounter the interventions of public policies The nine empirically based studies by scholars of history of medicine sociology anthropology and STS science technology and society spanning Japan Korea China Taiwan and Hong Kong from the 1870s to the present demonstrate just how tightly concerns with gender and health have been woven into the enterprise of modernization and nation building throughout the long twentieth century The concepts of gender and health have become so commonly used that one might overlook that they are actually complicated notions with vexed histories even in their native contexts Transposing such terminologies into another historical or geographical dimension is fraught with problems and what makes the East Asian cases in this volume particularly illuminating is that they present concepts of gender and health in motion The studies show how individuals and societies made sense of modern scientific discourses on diseases body sex and reproduction redefining existing terms in the process and adopting novel ideas to face new challenges and demands Whether reviewing the comparative national histories of birth control debating early cases of transsexual surgery or highlighting the resurgence of traditional Asian medical commodities this volume provides accessible and productive studies on these intriguing topics in Asia Scholars of modern East Asia and indeed anyone concerned with the analysis of gender and health in light of intersecting postcolonial studies will find the book rewarding Rayna Rapp New York University A bold and important volume that explores the interweaving of gender body and modernity throughout East Asia With vivid articles on sexuality reproductive technologies and sexual identities the book opens multiple possibilities for how Asia as method can shine new
