Uncertain Peril Claire Hope Cummings, 2009-03-01 Life on earth is facing unprecedented challenges from global warming war and mass extinctions The plight of seeds is a less visible but no less fundamental threat to our survival Seeds are at the heart of the planet's life support systems Their power to regenerate and adapt are essential to maintaining our food supply and our ability to cope with a changing climate In Uncertain Peril environmental journalist Claire Hope Cummings exposes the stories behind the rise of industrial agriculture and plant biotechnology the fall of public interest science and the folly of patenting seeds She examines how farming communities are coping with declining water soil and fossil fuels as well as with new commercial technologies Will genetically engineered and terminator seeds lead to certain promise as some have hoped or are we embarking on a path of uncertain peril Will the doomsday vault under construction in the Arctic designed to store millions of seeds save the genetic diversity of the world's agriculture To answer these questions and others Cummings takes readers from the Fertile Crescent in Iraq to the island of Kauai in Hawaii from Oaxaca Mexico to the Mekong Delta in Vietnam She examines the plight of farmers who have planted transgenic seeds and scientists who have been persecuted for revealing the dangers of modified genes At each turn Cummings looks deeply into the relationship between people and plants She examines the possibilities for both scarcity and abundance and tells the stories of local communities that are producing food and fuel sustainably and providing for the future The choices we make about how we feed ourselves now will determine whether or not seeds will continue as a generous source of sustenance and remain the common heritage of all humanity It comes down to this whoever controls the future of seeds controls the future of life on earth Uncertain Peril is a powerful reminder that what's at stake right now is nothing less than the nature of the future

Reclaiming Two-Spirits Gregory Smithers, 2022-04-26 Winner of the 2023 Prose Award in Cultural Anthropology and Sociology Finalist for the 2023 Publishing Triangle Randy Shilts Award for Gay Nonfiction A sweeping history of Indigenous traditions of gender sexuality and resistance that reveals how despite centuries of colonialism Two Spirit people are reclaiming their place in Native nations Reclaiming Two Spirits decolonizes the history of gender and sexuality in Native North America It honors the generations of Indigenous people who had the foresight to take essential aspects of their cultural life and spiritual beliefs underground in order to save them Before 1492 hundreds of Indigenous communities across North America included people who identified as neither male nor female but both They went by *aak skassi miati okitcitakwe* or one of hundreds of other tribally specific

identities After European colonizers invaded Indian Country centuries of violence and systematic persecution followed imperiling the existence of people who today call themselves Two Spirits an umbrella term denoting feminine and masculine qualities in one person Drawing on written sources archaeological evidence art and oral storytelling Reclaiming Two Spirits spans the centuries from Spanish invasion to the present tracing massacres and inquisitions and revealing how the authors of colonialism s written archives used language to both denigrate and erase Two Spirit people from history But as Gregory Smithers shows the colonizers failed and Indigenous resistance is core to this story Reclaiming Two Spirits amplifies their voices reconnecting their history to Native nations in the 21st century **World Food** Mary Ellen Snodgrass,2012-09-15

Avakian,2005-01-01 Sheds light on the history of food cooking and eating This collection of essays investigates the connections between food studies and women s studies From women in colonial India to Armenian American feminists these essays show how food has served as a means to assert independence and personal identity Food and Urbanism Susan Parham,2015-02-26 Cities are home to over fifty percent of the world s population a figure which is expected to increase enormously by 2050 Despite the growing demand on urban resources and infrastructure food is still often overlooked as a key factor in planning and designing cities Without incorporating food into the design process how it is grown transported and bought cooked eaten and disposed of it is impossible to create truly resilient and convivial urbanism Moving from the table and home garden to the town city and suburbs Food and Urbanism explores the connections between food and place in past and present design practices The book also looks to future methods for extending the gastronomic possibilities of urban space Supported by examples from places across the world including the UK Norway Germany France Spain Portugal Greece Romania Australia and the USA the book offers insights into how the interplay of physical design and socio spatial practices centred around food can help to maintain socially rich productive and sustainable urban space Susan Parham brings together

the latest research from a number of disciplines urban planning food studies sociology geography and design with her own fieldwork on a range of foodscapes to highlight the fundamental role food has to play in shaping the urban future

Empires of the Senses Andrew J. Rotter, 2019-06-21 A deeply researched study this book offers the first sensory history of the British empire in India and the United States in the Philippines reflecting on how senses structured the colonizers perception of the colonized and vice versa and impacted the British and American imperial projects *Food and World Culture*

Linda S. Watts, Kelty Clark-Mahoney, 2022-08-23 This book uses food as a lens through which to explore important matters of society and culture In exploring why and how people eat around the globe the text focuses on issues of health conflict struggle contest inequality and power Whether because of its necessity pleasure or ubiquity the world of food and its lore proves endlessly fascinating to most people The story of food is a narrative filled with both human striving and human suffering However many of today's diners are only dimly aware of the human price exacted for that comforting distance from the lived world realities of food justice struggles With attention to food issues ranging from local farming practices to global supply chains this book examines how food's history and geography remain inextricably linked to sociopolitical experiences of trauma connected with globalization such as colonization conquest enslavement and oppression The main text is structured alphabetically around a set of 70 ingredients from almonds to yeast Each ingredient's story is accompanied by recipes Along with the food profiles the encyclopedia features sidebars These are short discussions of topics of interest related to food including automats diners victory gardens and food at world's fairs This project also brings a social justice perspective to its content weighing debates concerning food access equity insecurity and politics *Food Energetics* Steve Gagné, 2008-11-05 Explains how food imparts a living wisdom that is separate from the science of nutrient values Offers an approach to diet from the perspective of ancient peoples who understood how the energetic qualities of food affect both physical and spiritual health Includes a comprehensive catalog of the energetic properties of myriad foods from chicken beef and potatoes to garlic avocados zucchini and grapefruit Food is more than simply fuel It imparts a living wisdom that is beyond the science and mechanics of calories grams and nutrient values Ancient peoples through their relationships with the plants and animals providing their food understood that their food conveyed the unique energetic qualities of its source such as swiftness from wild deer and groundedness from root vegetables With the rise of agribusiness and industrial food production people have become disconnected from the sources of their food and are no longer able to register the subtle rhythms harmony and energies that food can convey This separation has thrown the basic human food relationship out of balance to the detriment of human consciousness In *Food Energetics* Steve Gagn shows how to revitalize our connection to food and remedy our physical and psychic imbalances with the wisdom of food energetics He provides a comprehensive catalog of foods and their corresponding energetic properties and explains how each food affects us at the deepest spiritual level By demonstrating how to plan meals that incorporate both dominant and compliant foods he shows how to provide truly

healthy cuisine that nourishes the body and the soul Eating Culture Gillian Crowther,2013-01-01 Humans have an appetite for food and anthropology as the study of human beings their culture and society has an interest in the role of food From ingredients and recipes to meals and menus across time and space Eating Culture is a highly engaging overview that illustrates the important role that anthropology and anthropologists have played in understanding food Organized around the sometimes elusive concept of cuisine and the public discourse on gastronomy nutrition sustainability and culinary skills that surrounds it this practical guide to anthropological method and theory brings order and insight to our changing relationship with food pub desc An Edible History of Humanity Tom Standage,2010-05-03 A lighthearted chronicle of how foods have transformed human culture throughout the ages traces the barley and wheat driven early civilizations of the near East through the corn and potato industries in America Eating and Identity in Postcolonial Fiction Paul Vlitos,2018-10-11 This book focuses on the fiction of four postcolonial authors V S Naipaul Anita Desai Timothy Mo and Salman Rushdie It argues that meals in their novels act as sites where the relationships between the individual subject and the social identities of race class and gender are enacted Drawing upon a variety of academic fields and disciplines including postcolonial theory historical research food studies and recent attempts to rethink the concept of world literature it dedicates a chapter to each author tracing the literary cultural and historical contexts in which their texts are located and exploring the ways in which food and the act of eating acquire meanings and how those meanings might clash collide and be disputed Not only does this book offer suggestive new readings of the work of its four key authors but it challenges the reader to consider the significance of food in postcolonial fiction more generally *Taste* Kate Colquhoun,2012-05-01 From the Iron Age to the Industrial Revolution the Romans to the Regency few things have mirrored society or been affected by its upheavals as much as the food we eat and the way we prepare it In this involving history of the British people Kate Colquhoun celebrates every aspect of our cuisine from Anglo Saxon feasts and Tudor banquets through the skinning of eels and the invention of ice cream to Dickensian dinner party excess and the growth of frozen food Taste tells a story as rich and diverse as a five course dinner

Salt Mark Kurlansky,2011-03-18 From the award winning and bestselling author of Cod comes the dramatic human story of a simple substance an element almost as vital as water that has created fortunes provoked revolutions directed economies and enlivened our recipes Salt is common easy to obtain and inexpensive It is the stuff of kitchens and cooking Yet trade routes were established alliances built and empires secured all for something that filled the oceans bubbled up from springs formed crusts in lake beds and thickly veined a large part of the Earth s rock fairly close to the surface From pre history until just a century ago when the mysteries of salt were revealed by modern chemistry and geology no one knew that salt was virtually everywhere Accordingly it was one of the most sought after commodities in human history Even today salt is a major industry Canada Kurlansky tells us is the world s sixth largest salt producer with salt works in Ontario playing a major role in satisfying the Americans insatiable demand As he did in his highly acclaimed Cod Mark Kurlansky once again illuminates the

big picture by focusing on one seemingly modest detail In the process the world is revealed as never before *Women in the Kitchen* Anne Willan,2021-05-04 Award winning culinary historian Anne Willan traces the origins of American cooking through profiles of influential women whose recipes and ideas changed the way we eat *Women in the Kitchen* explores the lives and work of twelve cookbook authors beginning with the early colonial days through the still popular works of Fannie Farmer Irma Rombauer Julia Child Edna Lewis Marcella Hazan and up to Alice Waters working today Anne Willan offers a brief biography of each influential woman highlighting her key contributions seminal books and representative dishes Willan also includes fifty original recipes as well as updated versions she has tested and modernized for the contemporary kitchen Moving seamlessly through the centuries to help readers understand the ways cookbook writers inspire one another and owe their place in history to those who came before them *Women in the Kitchen* is the story of the authors whose essential books forever changed the culinary landscape Book jacket Chopsticks Q. Edward Wang,2015-01-26 Chopsticks have become a quintessential part of the Japanese Chinese and Korean culinary experience across the globe with more than one fifth of the world s population using them daily to eat In this vibrant highly original account of the history of chopsticks Q Edward Wang charts their evolution from a simple eating implement in ancient times to their status as a much more complex cultural symbol today Opening in the Neolithic Age at the first recorded use of chopsticks the book surveys their practice through Chinese history before exploring their transmission in the fifth century to other parts of Asia including Vietnam Korea Japan and Mongolia Calling upon a striking selection of artwork the author illustrates how chopstick use has influenced Asian cuisine and how in turn the cuisine continues to influence chopstick use both in Asia and across the globe **Everybody Loves Ice Cream** Shannon Jackson Arnold,2004 The essential guide for ice cream lovers everywhere **Cod** Mark Kurlansky,2011-03-04 Wars have been fought over it revolutions have been spurred by it national diets have been based on it economies have depended on it and the settlement of North America was driven by it Cod it turns out is the reason Europeans set sail across the Atlantic and it is the only reason they could What did the Vikings eat in icy Greenland and on the five expeditions to America recorded in the Icelandic sagas Cod frozen and dried in the frosty air then broken into pieces and eaten like hardtack What was the staple of the medieval diet Cod again sold salted by the Basques an enigmatic people with a mysterious unlimited supply of cod Cod is a charming tour of history with all its economic forces laid bare and a fish story embellished with great gastronomic detail It is also a tragic tale of environmental failure of depleted fishing stocks where once the cod s numbers were legendary In this deceptively whimsical biography of a fish Mark Kurlansky brings a thousand years of human civilization into captivating focus
