Neoliberal Hegemony A Global Critique:

Neoliberal Hegemony Dieter Plehwe, Bernhard J. A. Walpen, Gisela Neunhöffer, 2007-05-07 Neoliberalism is fast becoming the dominant ideology of our age yet politicians businessmen and academics rarely identify themselves with it and even political forces critical of it continue to carry out neoliberal policies around the globe How can we make sense of this paradox Who actually are the neoliberals This is the first explanation of neoliberal hegemony which systematically considers and analyzes the networks and organizations of around 1 000 self conscious neoliberal intellectuals organized in the Mont Pelerin Society This book challenges simplistic understandings of neoliberalism It underlines the variety of neoliberal schools of thought the various approaches of its proponents in the fight for hegemony in research and policy development political and communication efforts and the well funded well coordinated and highly effective new types of knowledge organizations generated by the neoliberal movement partisan think tanks It also closes an important gap in the growing literature on private authority presenting new perspectives on transnational civil society formation processes This fascinating new book will be of great interest to students of international relations political economy globalization and politics

The Discourse of Neoliberalism Simon Springer, 2016-07-29 Why should we be worried about neoliberalism if we are not able to fully appreciate its deleterious effects How can we fully appreciate its intricacies and power without attending to and seeking to potentially reconcile the various critical theorizations of how it actually operates The Discourse of Neoliberalism offers a critical political economy meets poststructuralist perspective on the relationship between neoliberalism and power By advancing a geographical approach to understanding the discursive formations and material consequences of neoliberalism the book exposes how processes of neoliberalization are shot through with violence It argues that reading neoliberalism as a discourse better equips us to understand the power of this variegated economic formation as an expansive process of social spatial transformation that is intimately bound up with the production of poverty inequality and violence across the globe It illuminates the vital and ongoing power of neoliberalism in order to open up a critical space for thinking through how life beyond neoliberalism might be achieved

Margins in Revolt Fabio de Nardis, Angelo Galiano, 2025-07-01 *Margins in Revolt* offers a theoretically grounded and empirically rich account of how global extractive capitalism reshapes local territories daily life and political agency Focusing on Southern Italy between 2007 and 2017 the book explores a cycle of social conflicts triggered by austerity deindustrialisation and the erosion of political mediation Far from being peripheral or exceptional the South is reframed as a paradigmatic site a condensed expression of contemporary capitalism's contradictions Here neoliberal restructuring and EU led integration have deepened spatial inequalities producing landscapes of abandonment precarity and environmental degradation Yet these margins also become spaces of insurgency where new solidarities and political subjectivities arise Combining critical political sociology with insights from racial capitalism postcolonial governance and critical geography the book examines labour struggles after factory closures migrant workers strikes in agri food chains and

environmental resistance to toxic industrial projects These are not isolated events but symptoms of broader systemic violence where profit is extracted from land bodies and futures with scant concern for social or ecological sustainability *Margins in Revolt* challenges developmentalist narratives by framing the South not as a policy problem but as an active site of critique and collective imagination It foregrounds ethical and political questions about conflict development and resistance showing how marginalised groups respond not only with grievance but by cultivating autonomous spaces of care mutual aid and defiance Ultimately the book urges us to rethink the South as a strategic vantage point from which to interrogate neoliberalism and envision alternative futures of emancipation *Margins in Revolt* is the first volume in the Ethics Press

Critical Horizons in the Social Sciences series **The Routledge Handbook to the Political Economy and Governance of the Americas** Olaf Kaltmeier, Anne Tittor, Daniel Hawkins, Eleonora Rohland, 2020-01-09 This handbook explores the

Vlad Mykhnenko, 2013-07-18 The recent devastating and ongoing economic crisis has exposed the faultlines in the dominant neoliberal economic order opening debate for the first time in years on alternative visions that do not subscribe to a free market ethic Bringing together the work of distinguished scholars and dedicated activists *The Rise and Fall of Neoliberalism* presents critical perspectives of neoliberal policies questions the ideas underpinning neoliberalism and explores diverse responses to it from around the world *Neoliberalism in Crisis* Henk Overbeek, Bastiaan van Apeldoorn, 2012-02-29 The

authors interrogate the condition of the neoliberal project in the wake of the global crisis and neoliberalism's predicted death in 2007 both in terms of the regulatory structures of finance led capitalism in Europe and North America and the impact of new centres of capitalist power on global order *Think Tanks and Global Politics* Alejandra Salas-Porras, Georgina

Murray, 2017-08-30 This text provides a cutting edge analysis of the increasingly central role think tanks play in societies

worldwide Examining their control of global resources both in economic and political policy fields and their inroads into structures of power it addresses key questions How have think tanks reached these positions of power Has the northern core produced neoliberal clones that have hydra like colonised the globe Who funds and controls these think tanks and for what purpose How is policy making knowledge created How are new policy ideas propagated and validated How do think tanks become dominant sources of knowledge in public spheres including the media Exploring the dynamics of think tank networks in specific regions and countries this book considers the coalitions they generate to advance the social purpose they endorse and in particular the spaces they occupy in the structures and fields of power at the national regional and global level Neoliberal Health Organizing Mohan J Dutta,2016-07-01 Mohan J Dutta closely interrogates the

communicative forms and practices that have been central to the establishment of neoliberal governance In particular he examines cultural discourses of health in relationship to the market and the health implications of these cultural discourses Using examples from around the world he explores the roles of public private partnerships NGOs militaries and new technologies in reinforcing the link between market and health Identifying the taken for granted assumptions that constitute the foundations of global neoliberal organizing he offers an alternative strategy for a grassroots driven participatory form of global organizing of health This inventive theoretical volume speaks to those in critical communication in health research in social policy and in contemporary political economy studies **The Role of Neoliberalism in the Marketisation of**

Higher Education Gerbrand Tholen,2024-09-11 This book assesses to what extent marketisation in Higher Education can be attributed to Neoliberalism Higher education sectors in many countries have increasingly relied on market mechanisms in their management and functioning particularly in their provision of education Many assume that Neoliberalism with its pursuit of free markets and competition is the key driver Neoliberalism continues to be a popular concept to describe the social political and economic worlds around us but there is little consensus on how it should be defined or understood The book argues that there is a clear scope for the use of Neoliberalism to describe the direction HE is shifting towards but it is rather inadequate on its own and not applicable in all areas Handbook of Neoliberalism Simon Springer,Kean Birch,Julie

MacLeavy,2016-07-07 Neoliberalism is easily one of the most powerful discourses to emerge within the social sciences in the last two decades and the number of scholars who write about this dynamic and unfolding process of socio spatial transformation is astonishing Even more surprising though is that there has until now not been an attempt to provide a wide ranging volume that engages with the multiple registers in which neoliberalism has evolved The Routledge Handbook of Neoliberalism seeks to offer a comprehensive overview of the phenomenon of neoliberalism by examining the range of ways that it has been theorized promoted critiqued and put into practice in a variety of geographical locations and institutional frameworks With contributions from over 50 leading authors working at institutions around the world the volumes seven sections will offer a systematic overview of neoliberalism s origins political implications social tensions spaces natures and

environments and aftermaths in addressing ongoing and emerging debates The volume aims to provide the first comprehensive overview of the field and to advance the established and emergent debates in a field that has grown exponentially over the past two decades coinciding with the meteoric rise of neoliberalism as a hegemonic ideology state form policy and program and governmentality It includes a substantive introductory chapter and will serve as an invaluable resource for undergraduates graduate students and professional scholars alike

Market Civilizations Quinn Slobodian, Dieter Plehwe, Esra Elif Nartok, Aditya Balasubramanian, Tobias Rupperecht, Isabella M. Weber, Antina von Schnitzler, Jeremy Walker, Paulo Chamon, Karin Fischer, Mila Jonjic, Nenad Pantelic, Lars Mjøset, Reto Hofmann, Jimmy Casas Klausen, 2022-05-24 A deep investigation of neoliberalism's proselytizers in Eastern Europe and the Global South Where does free market ideology come from Recent work on the neoliberal intellectual movement around the Mont Pelerin Society has allowed for closer study of the relationship between ideas interests and institutions Yet even as this literature brought neoliberalism down to earth it tended to reproduce a European and American perspective on the world With the notable exception of Augusto Pinochet's Chile long seen as a laboratory of neoliberalism the new literature followed a story of diffusion as ideas migrated outward from the Global North Even in the most innovative work the cast of characters remains surprisingly limited clustering around famous intellectuals like Milton Friedman and Friedrich Hayek Market Civilizations redresses this absence by introducing a range of characters and voices active in the transnational neoliberal movement from the Global South and Eastern Europe This includes B R Shenoy an early member of the Mont Pelerin Society from India who has been canonized in some circles since the Singh reforms Manuel Ayau another MPS president and founder of the Marroqu n University an underappreciated Latin American node in the neoliberal network Chinese intellectuals who read Hayek and Mises through local circumstances and many others Seeing neoliberalism from beyond the industrial core helps us understand what made radical capitalism attractive to diverse populations and how often disruptive policy ideas went local

Globalization and Capitalist Geopolitics Daniel Woodley, 2017-11-27 Globalization and Capitalist Geopolitics is concerned with the nature of corporate power against the backdrop of the decline of the West and the struggle by non western states to challenge and overcome domination of the rest of the world by the West This book argues that although the US continues to preside over a quasi imperial system of power based on global military preponderance and financial statecraft and remains reluctant to recognize the realities global economic convergence the age of imperial state hegemony is giving way to a new international order characterized by capitalist sovereignty and competition between regional and transnational concentrations of economic power This title seeks to interrogate the structure of world order by examining leading approaches to globalization and political economy in international relations and international political economy Breaking with the classical school Woodley argues that geopolitics should be understood as a transnational strategic practice employed by powerful state actors which mirrors predatory corporate rivalry for control over global resources and markets

reproducing the structural conditions for corporate power through the transnational state form of capital In a period of increasing geopolitical insecurity and economic instability this title provides an authoritative yet accessible commentary on debates on capitalism and globalization in the wake of the financial crisis It is valuable resource for students and scholars seeking to develop a deeper understanding of the historical determinants of the changing dynamics of neoliberal capitalism and their implications for world order

Discourses of Neoliberalism in Singapore's Higher Education Context

Marissa K. L. E, 2022-11-30 E explores using textual words and visual image data from the corporate newsletters of two prominent Asian universities how particular discourses and their associated discursive representations of neoliberal logic and subjectivity occur in higher education In particular she looks at the expression of both institutional priorities and state imperatives that lend themselves to a complementarity built upon two contradictory perspectives individualism and communitarianism She argues that the ever increasing demand for and utility of higher education in neoliberal society means that it no longer functions merely to provide knowledge and skills but has implications for society the individual and the state with regard to their ways of thinking doing and being Contributing to a growing corpus of literature on how higher education around the world is being shaped by neoliberal policies E's research is based on work done in the city state of Singapore a less well represented context in current literature While both higher education institutions possess significantly different institutional identities and backgrounds the alignment of their varied representations of neoliberal logic and subjectivity with state sanctioned imperatives that indirectly impose demands and constraints shows how neoliberalism as ideology adapts to the socio political socio cultural and socio economic dimensions that make up the Singapore context The discursive representations of context dependent neoliberal logics and subjectivity are discussed in terms of their ideological implications focusing primarily on the complementarity between seemingly contradictory ideological positions E's work uses an innovative framework that integrates aspects of Discourse Theory with Critical Discourse Analysis and demonstrates the use of this framework through empirical linguistic and image analysis Appealing to academics and graduate students in linguistics especially those with an interest in critical multimodal discourse analysis audiences from the domains of higher education research critical geography sociology and political science will also find this a useful book

Spiders of the

Market, Enhanced Ebook David Afriyie Donkor, 2016-07-11 The Ghanaian trickster spider Ananse is a deceptive figure full of comic delight who blurs the lines of class politics and morality David Afriyie Donkor identifies social performance as a way to understand trickster behavior within the shifting process of political legitimization in Ghana revealing stories that exploit the social ideologies of economic neoliberalism and political democratization At the level of policy neither ideology was completely successful but Donkor shows how the Ghanaian government was crafty in selling the ideas to the people adapting trickster rooted performance techniques to reinterpret citizenship and the common good Trickster performers rebelled against this takeover of their art and sought new ways to out trick the tricksters

Management and Neoliberalism Alexander Styhre, 2014-04-16 After the financial collapse of 2008 and the bailing out of banks in the US and the UK the long term viability of the neoliberal doctrine has come under new scrutiny The elimination of regulatory control the financialization of the economy including the growth of increasingly complex financial innovations and the dominance of a rentier class have all been subject to thorough criticism Despite the unexpected meltdown of the financial system and the substantial costs for restoring the finance industry critics contend that the same decision makers remain in place and few substantial changes to regulatory control have been made Even though neoliberal thinking strongly stresses the role of the market and market based transactions the organization theory and management literature has been marginally concerned with neoliberalism as a political agenda and economic policy This book examines the consequences of neoliberalism for management thinking and management practice Managerial practices in organizations are fundamentally affected by a political agenda emphasizing competition and innovation Concepts such as auditing corporate social responsibility shareholder value and boundariless careers are some examples of managerial terms and frameworks that are inextricably entangled with the neoliberal agenda This book introduces the literature on neoliberalism its history and controversies and demonstrates where neoliberal thinking has served to rearticulate managerial practice including in the areas of corporate governance human resource management and regulatory control of organizations **The**
