Simple moves such as correcting seat height, adjustment, and learning how to best shift when engaging a steep ascent add tons of fun and efficiency to any ride. Intermediate skills including riding technical terrain, power wheelies, and cornering zip readers into the next level of riding competence. Now sporting a wide grin and the confidence of nailing the basic and intermediate skills, readers transition into advanced skills such as jumps, bunny hops, and counter steering. After reading and putting Langton's lessons to practice, what once was a thigh-quivering lap around the park should now feel and look more like an iron-saddled grind up a steep mountain path.
