Musical Works And Performances A Philosophical Exploration:

Musical Works and Performances Stephen Davies, 2004 Stephen Davies addresses such questions as What are musical works are they discovered or created of what elements are they comprised how are they specified what is a performance and is it possible to perform old music authentically **Musical Works and Performances** Stephen Davies, 2004 What are musical works Are they discovered or created Of what elements are they comprised How are they specified by notations What makes a performance of one piece and not another Is it possible to perform old music authentically Can ethnic music influenced by foreign sources and presented to tourists genuinely reflect the culture's musical and wider values Can recordings substitute faithfully for live performances These are the questions considered in *Musical Works and Performances* Part One outlines the nature of musical works their relation to performances and their notational specification Works for performance differ from ones that are merely for playback and pieces for live rendition are unlike those for studio performance Pieces vary in the number and kind of their constitutive properties The identity of musical works goes beyond their sonic profile and depends on their music historical context To be of a given work a performance must match its contents by following instructions traceable to its creation Some pieces are indicated via exemplars but many are specified notationally Scores must be interpreted in light of notational conventions and performance practices they assume Part Two considers authenticity in performance musical traditions and recordings A performance should follow the composer's instructions Departures from the ideal are tolerable but faithfulness is central to the enterprise of work performance not merely an interpretative option When musical cultures interact assimilation from within differs from destruction from without Even music subject to foreign influences can genuinely reflect the musical traditions and social values of a culture however Finally while most works are for live performance most performances are experienced via recordings which have their own distinctive characteristics This comprehensive and original analysis of musical ontology discusses many kinds of music and applies its conclusions to issues as diverse as the authentic performance movement the cultural integrity of ethnic music and the implications of the dominance of recorded over live music *Musical works & performances* Stephen Davies, 2001

The Oxford Handbook of Western Music and Philosophy Tomás McAuley, Nanette Nielsen, Jerrold Levinson, Ariana Phillips-Hutton, 2021 The Oxford Handbook of Western Music and Philosophy celebrates the ways in which musicians have historically called upon philosophy as a source of inspiration and encouragement and scholars of music through the ages have turned to philosophy for insight into music and into the worlds that sustain it Early Sound Recordings Eva Moreda Rodriguez, Inja Stanović, 2023-02-28 The use of historical recordings as primary sources is relatively well established in both musicology and performance studies and has demonstrated how early recording technologies transformed the ways in which musicians and audiences engaged with music This edited volume offers a timely snapshot of a wide range of contemporary research in the area of performance practice and performance histories inviting readers to consider the wide range of

research methods that are used in this ever expanding area of scholarship The volume brings together a diverse team of researchers who all use early recordings as their primary source to research performance in its broadest sense in a wide range of repertoires within and on the margins of the classical canon from the analysis of specific performing practices and parameters in certain repertoires to broader contextual issues that call attention to the relationship between recorded performance and topics such as analysis notation and composition Including a range of accessible music examples which allow readers to experience the music under discussion this book is designed to engage with academic and non academic readers alike being an ideal research aid for students scholars and performers as well as an interesting read for early sound recording enthusiasts

Storytelling in Opera and Musical Theater Nina Penner, 2020-10-06 Storytelling in Opera and Musical Theater is the first systematic exploration of how sung forms of drama tell stories Through examples from opera s origins to contemporary musicals Nina Penner examines the roles of character narrators and how they differ from those in literary and cinematic works how music can orient spectators to characters points of view how being privy to characters inner thoughts and feelings may evoke feelings of sympathy or empathy and how performers choices affect not only who is telling the story but what story is being told Unique about Penner s approach is her engagement with current work in analytic philosophy Her study reveals not only the resources this philosophical tradition can bring to musicology but those which musicology can bring to philosophy challenging and refining accounts of narrative point of view and the work performance relationship within both disciplines She also considers practical problems singers and directors confront on a daily basis such as what to do about Wagner s Jewish caricatures and the racism of Orientalist operas More generally Penner reflects on how centuries old works remain meaningful to contemporary audiences and have the power to attract new more diverse audiences to opera and musical theater By exploring how practitioners past and present have addressed these issues Storytelling in Opera and Musical Theater offers suggestions for how opera and musical theater can continue to entertain and enrich the lives of 21st century audiences

Singers, Scores and Sounds Ellen Hooper, 2022-12-30 This book develops ways of discussing musical practices to articulate a new approach to understanding connections between recordings singers and singing Centred around materials from the mid twentieth century this book focuses on a time when composers and performers were questioning the idea of authorship within their musical practice Materials drawn upon include recordings scores archival content visual art interviews and liner notes to develop a rich conception of practices of performance Analysis of performances include recordings of singers such as Cathy Berberian Linda Hirst Lor Lixenberg Angelika Luz and Meredith Monk Compositions by Cathy Berberian Luciano Berio John Cage and Manuel De Falla are considered The book utilizes these sources to examine the collective way in which singers and composers form practices as multiple transforming emergent and not hierarchical The book articulates with a detailed close consideration of specific instances in recordings and scores a relational understanding of performance This book will be useful reading for students and scholars of music analysis

musicology performance practice and twentieth century vocal music **International Philosophical Quarterly** ,1961

The Journal of Philosophy ,2003 The Philosophy of Music Aaron Ridley,2004 New and distinctive approaches to five central topics in musical aesthetics are provided in this outstanding book The topics are understanding representation expression performance and profundity The theme of the book is the failure of the orthodox view that pieces of music are more or less self contained structures of sound to account for some important features of our musical experience and to explain why music should matter to us In exposing and correcting that failure the book introduces readers to the main problems and positions in the philosophy of music proposes fresh solutions to those problems and offers innovative approaches to the philosophy of song to musical ontology and to questions about the value of music Each chapter is built around a single musical work which provides a focus for the reader Features Broad accessible introductory overview to philosophy of music Original and stimulating insights The Philosophical Review Jacob Gould Schurman,James Edwin Creighton, Frank Thilly, Gustavus Watts Cunningham,2002 *The Performer's Role* Charise Y. Hastings,2006 Often overlooked in musical analysis the performer plays an important role in the recreation of musical works This dissertation incorporates the performer's perspective by focusing on social physical and mental processes of learning and playing music in the classical piano repertoire Drawing on studies in music and narrative the author argues that a narratological approach can extend beyond the listener's perspective to analyze the performer's experience Abstract **The Philosopher's Index** ,2008 Vols for 1969 include a section of abstracts Encyclopedia of Philosophy Donald M. Borchert,2006 This volume covering entries from Abbagnano Nicola to Byzantine philosophy presents articles on Eastern and Western philosophies medical and scientific ethics the Holocaust terrorism censorship biographical entries and much more **Listening to Popular Music, Or, How I Learned to Stop Worrying and Love Led Zeppelin** Theodore Gracyk,2007 Publisher description **Dutch journal of music theory** ,2007 **Kongressbericht Northfield/Minnesota, USA 2006** Internationale Gesellschaft zur Erforschung und Förderung der Blasmusik.
