

MUSICAM SACRAM

Instruction on Music in the Liturgy

PREFACE

1. Sacred music is one of the elements of liturgical reform that Vatican Council II considered thoroughly. The Council explained the role of music in divine worship and set out many principles and rules in the Constitution on the Liturgy, which has an entire chapter on the subject.
2. The recently begun reform of the liturgy is already putting the conciliar enactments into effect. The new norms relative to the faithful's active participation and the structuring of the rites, however, have given rise to some problems about music and its ministerial function. It seems necessary to solve these in order to bring out more clearly the meaning of the relevant principles of the Constitution on the Liturgy.
3. By mandate of Pope Paul VI the Consilium has carefully examined these problems and drawn up the present Instruction. It is not a collection of all the legislation on sacred music, but a statement simply of the principal norms that seem most needed at the present time. The Instruction also stands as a continuation and complement of the earlier Instruction of the Congregation of Rites on the correct carrying out of the Constitution on the Liturgy, which was also prepared by the Consilium and issued 26 September 1964.
4. The reasonable expectation is that in welcoming and carrying out these norms pastors, composers, and the faithful, will strive with one accord to achieve the genuine purpose of sacred music, 'which is the glory of God and the sanctification of the faithful.'¹
 - a. Music is 'sacred' insofar as it is composed for the celebration of divine worship and possesses integrity of form.²
 - b. The term 'sacred music' here includes: Gregorian chant, the several styles of polyphony, both ancient and modern; sacred music for organ and for other permitted instruments, and the sacred, i.e., liturgical or religious, music of the people.³

PART I:

GENERAL NORMS

5. A liturgical service takes on a nobler aspect when the rites are celebrated with singing, the ministers of each rank take their parts in them, and the congregation actively participates.⁴ This form of celebration gives a more graceful expression to prayer and brings out more distinctly the hierarchical character of the liturgy and the specific make-up of the community. It achieves a closer union of hearts through the union of voices. It raises the mind more readily to heavenly realities through the splendour of the rites. It makes the whole celebration a more striking symbol of the celebration to come in the heavenly Jerusalem.

Musicam Sacram Instruction On Music In The Liturgy:

Sacred Music and Liturgical Reform Rev. Anthony Ruff, O.S.B., 2022-01-07 Anthony Ruff O S B has written a brilliant comprehensive well researched book about the treasures of the Church's musical tradition and about the transformations brought about by liturgical reform. The liturgy constitution *Sacrosanctum Concilium* stated many revolutionary principles of liturgical reform. Regarding liturgical music the Council's decrees mandated on the one hand the preservation of the inherited treasury of sacred music and on the other hand advocated adaptation and expansion of this treasury to meet the changed requirements of the reformed liturgy. In clear precise language he retrieves the Council's neglected teachings on the preservation of the inherited music treasury. He clearly shows that this task is not at odds with good pastoral practice but is rather an integral part of it. The book proposes an alternate hermeneutic for understanding the Second Vatican Council's teachings on worship music.

The Ministry of Music Kathleen Harmon, 2016. Like its predecessor this revised edition of *The Ministry of Music* explores liturgical singing in terms of how it enables the gathered assembly to enter more fully into ritual enactment of the paschal mystery. The whys and how-tos of music ministry are developed from this perspective. How does communal liturgical singing enable us to participate in and surrender to the paschal mystery? What musical and pastoral choices best enable the singing to fulfill this role? And how does the singing form us in a paschal mystery spirituality that shapes daily Christian living and makes the relationship between liturgy and life more evident? This edition incorporates new understandings of the ministry of liturgical music generated by *Sing to the Lord Music in Divine Worship STL*. New material addresses the underlying theology shaping STL, provides schemas for using both the Proper chants and vernacular songs at the Entrance and Communion, discusses the value of singing the dialogues and explores silence as a necessary component of music making and liturgical prayer. Music and Meaning in the Mass AnnaMaria Cardinalli-Padilla, 2020-08-04 Your music by speaking to humanity in a language deeper than words can save our world by

drawing souls to Christ where He most longs to encounter them in the Eucharist **Liturgical Music as Ritual Symbol**

Judith Marie Kubicki, 1999 In this book Sister Kubicki uses Jacques Berthier's Taizé music to explore the nature of liturgical music as ritual symbol She carries out a hermeneutical analysis of Berthier's chants and examines biographical and historical data related to the creator's of Taizé music and the founding of the Taizé community The author draws on five areas of study to interpret the Taizé chants as ritual symbol symbol theory semiotics theologies of symbol ritual theory and performative language theory The final chapter explores potential ecclesial meanings which may be mediated in the Taizé liturgy and the role of Berthier's chants in mediating that meaning The study concludes that it is music's symbolic property that enables it to be both ministerial and integral to the liturgy As symbolic activity music making evokes participation negotiates relationships and enables the assembly to orient themselves and to find their identity and place within their world Furthermore music making provides the illocutionary force to do something in the act of singing Thus it is that as part of a complexus of ritual symbols music interacts with other symbols in mediating the liturgy's meaning *Celebrating Divine Mystery* Catherine

Vincie, 2016-03-24 Christians are identified by their participation in liturgy In this primer Catherine Vincie introduces readers to current liturgical theology by providing them with the foundational themes of the field She explains that liturgy draws us into the paschal mystery of Jesus Christ that it should create a space in which we attempt to name toward God by employing an abundance of metaphors and images and that the sacraments are communicated and understood through the use of symbols Vincie is grounded in the liturgical reforms of the Second Vatican Council As such *Celebrating Divine Mystery* seeks to draw readers into full conscious and active participation in the liturgy by informing them about recent scholarship and challenging them to enter the divine mystery as informed and engaged participants Catherine Vincie RSHM PhD is professor of sacramental and liturgical theology at the Aquinas Institute of Theology in St Louis She is also author of *The Role of the Assembly in Christian Initiation* and many articles on initiation Eucharist and liturgy and justice As a practicing liturgical musician she is also interested in the role of the arts in past and current liturgical celebration *Annunciations: Sacred*

Music for the Twenty-First Century George Corbett, 2019-05-01 Our contemporary culture is communicating ever increasingly through the visual through film and through music This makes it ever more urgent for theologians to explore the resources of art for enriching our understanding and experience of the Judeo Christian tradition *Annunciations: Sacred Music for the twenty First Century* edited by George Corbett answers this need evaluating the relationship between the sacred and the composition performance and appreciation of music Through the theme of annunciations this volume interrogates how when why through and to whom God communicates in the Old and New Testaments In doing so it tackles the intimate relationship between Scriptural reflection and musical practice in the past its present condition and what the future might hold *Annunciations* comprises three parts Part I sets out flexible theological and compositional frameworks for a constructive relationship between the sacred and music Part II presents the reflections of theologians and composers involved in
