Raising Emotionally Healthy Boys Michael Reist, 2015-07-25 Raising emotionally healthy children is not just about what we need to do but what we need to avoid doing We all know that repressing our feelings can be damaging and that emotional repression is an especially prevalent issue among males From a very young age boys are socialized to hide their

emotions Girls on the other hand are encouraged to learn a much broader range of emotional expression The long term repercussions of this imbalance are profound Many of the problems we face both as a society and as a species are directly affected by how we raise our boys We are all products of nature and nurture combined The conscious and unconscious lessons we give our children often enhance and improve their human natures but can sometimes degrade them too As we come to the end of thousands of years of patriarchy we are being challenged to redefine masculinity Our boys are lucky to be living in such a time and luckier when they have adults in their lives who are aware of how their minds function and what they need If we want to raise men who are strong confident and whole in the best sense of these words then parents around the world urgently need a conversation about what we teach and don't teach our boys *Raising Boys in a New Kind of World* Michael Reist, 2011-12-24 More than ever before boys need guidance and this book will guide parents on all subjects such as bullying discipline and homework Limited time offer From video games to the Internet technology and popular culture are having a profound effect on today's boys Boys need guidance more than ever But how can we help them do better in school How can we keep the lines of communication open *Raising Boys in a New Kind of World* is a passionate call for greater empathy The more we know about boys the more realistic our expectations of them will be We need to stop seeing normal boy behaviour as a problem and learn to understand a boy's need for movement his unique learning styles and his personal methods of communicating Michael Reist writes from the front lines As a classroom teacher for more than 30 years and the father of three boys he has seen first hand the effects that changes in modern culture are having on boys *Raising Boys in a New Kind of World* is an inspiring and entertaining collection of positive practical advice on many topics including discipline homework video games and bullying and provides numerous tips on how to communicate with boys

Saracino,2011-05-01 In an age of globalization where borders seem to be disappearing everywhere between nations religions and even within families it is easy to believe our reactions to difference are vanishing as well Bringing together the latest insights from constructive theology contemporary continental theory and trauma studies Michele Saracino shows how deceiving and even deadly this assumption can be She argues that in the post 9 11 era Christians are obligated now more than ever to be vigilant about difference to be attentive to the emotional dissonance that encountering others incites and to acknowledge it before border disputes escalate into violence We are neither so different that we have nothing to talk about nor so similar that we have everything to celebrate Instead for Saracino we are caught in the middle at porous borders at in

between spaces which cause consternation fear anger and even rage By embracing these conflicting emotions that accompany border life Saracino claims that Christians can honor the person and work of Jesus Christ and the mystery of the incarnation and perhaps become living memorials to those who have suffered trauma all in the name of their being different Michele Saracino is an associate professor of religious studies at Manhattan College in Riverdale New York She is the author of *On Being Human A Conversation with Lonergan and Levinas* and researches and teaches on the intersections between theology and culture
