The Humble Story of Don Quixote Cesáreo Bandera, 2006 Don Quixote is often called the first modern novel many would argue it is the greatest novel ever written But compared with other world masterpieces from the Iliad to Paradise Lost or from Oedipus the King to Hamlet or Life is a Dream for example the storyline of Don Quixote is remarkably uninspiring and lowly a middle aged man becomes mad reading novels and makes a fool of himself by believing he is a hero The first great modern novel is a warning about the reading and the writing of novels In this original study by Ces reo Bandera the intimate connection between the simplicity and humility of the story and its greatness is explored Other comparisons are also made the story of the picaresque rogue on the one hand and the psychological insights of the pastoral novel on the other Through these analyses the meaning and significance of Cervantes novel are developed The book takes into critical account Mikhail Bakhtin s theory of the novel as well as Michel Foucault s views about madness and civilization in order to bring into relief the modernity of Don Quixote From another angle the contrasting views on human desire of such critics as Unamuno and Ren Girard become central to a new understanding of Don Quixote s madness as well as to the development of the main connection between the humility of the story and its greatness ABOUT THE AUTHOR Ces reo Bandera professor emeritus of Spanish literature at the University of North Carolina at Chapel Hill is author of several books and numerous essays in English and Spanish including The Sacred Game The Role of the Sacred in the Genesis of Modern Literary Fiction PRAISE FOR THE BOOK The originality of Bandera s approach and the novelty of his focus are grounded not only on a solid knowledge of history and literary theory but also of philosophy history of religion anthropology etc Bandera s study attracts from its first pages by confronting the reader with concepts which are fundamental to an understanding of the culture and literature of the West in the 17th century Jos Mar a D ez Borque Madrid Universidad Complutense We are dealing with a book different from all others that have come out on the occasion of the Fourth Centenary It is full of intuitions accurate judgments and above all it is organized and written by an author ready to make tabula rasa of all Cervantine bibliography in

The Cervantean Heritage J. A. Garrido Ardila,2017-12-02 Many critics regard Cervantes s Don Quixote as the most influential literary book on British literature Indeed the impact on British authors was immense as can be seen from 17th century plays by Fletcher Massinger and Beaumont through the great 18th century novels of Fielding Smollett Sterne and Lennox and on into more modern and contemporary novelists 20th century critics fascinated by Cervantes were moved to write what we now see as the classical works of Cervantes scholarship Through their previous publications the eminent contributors to this volume have helped to determine the reception of Cervantes in Britain Together they now offer a comprehensive and innovative picture of this topic discussing the English translations of Cervantes s works the literary genres which developed under his shadow and the best known authors who consciously emulated him Cervantes s influence upon British literature emerges as decidedly the deepest of any writer outside of English and very possibly of any writer since the Renaissance
