Professional ASP.NET MVC 1.0 Rob Conery, Scott Hanselman, Phil Haack, Scott Guthrie, 2009-07-01 This book begins with you working along as Scott Guthrie builds a complete ASP.NET MVC reference application He begins NerdDinner by using the File New Project menu command within Visual Studio to create a new ASP.NET MVC Application You'll then incrementally add functionality and features Along the way you'll cover how to create a database build a model layer with business rule validations implement listing details data browsing provide CRUD Create Update Delete data form entry support implement efficient data paging reuse UI using master pages and partials secure the application using authentication and authorization use AJAX to deliver dynamic updates and interactive map support and implement automated unit testing From there the bulk of the rest of the book begins with the basic concepts around the model view controller pattern including the little history and the state of the MVC on the web today We'll then go into the ways that MVC is different from ASP.NET Web Forms We'll explore the structure of a standard MVC application and see what you get out of the box Next we dig deep into routing and see the role URLs play in your application We'll deep dive into

controllers and views and see what role the Ajax plays in your applications The last third of the book focuses entirely on advanced techniques and extending the framework In some places we assume that you re somewhat familiar with ASP NET WebForms at least peripherally There are a lot of ASP NET WebForms developers out there who are interested in ASP NET MVC so there are a number of places in this book where we contrast the two technologies Even if you re not already an ASP NET developer you might still find these sections interesting for context as well as for your own edification as ASP NET MVC may not be the web technology that you re looking for XHTML Comprehensive Don Gosselin,2004 CD ROM contains 30 day trial of Adobe Photoshop 7 0 120 day trial of XMLSpy5 electronic instructor s manual ExamView Microsoft PowerPoint slides for each chapter data files necessary for the Hands on Projects and Case Projects solutions to end of chapter Review Questions Hands on Projects and Case Projects **New Perspectives on HTML and CSS: Comprehensive** Patrick M.
