The Java PAL is designed to be paired with the Sixth Edition of Joyce Farrell's *Programming Logic and Design* text. Together the two books provide the perfect opportunity for those who want to learn the fundamentals of programming and gain exposure to an actual programming language. Readers can discover how real Java code behaves within the context of the traditional language independent logic and design course. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

**Java Programming** Joyce Farrell, 2003. *Java Programming* Second Edition is written and designed specifically for students with no previous programming experience. Object oriented techniques are introduced early featuring short code examples that are built from the bottom up. Java applications are introduced prior to applets so students understand the programming process more thoroughly in a simplified environment. The second edition has been modified to include additional student exercises, explanations and examples using the `StringBuffer` class and a whole chapter explaining Swing. Swing components are used in place of AWT components. **Cti Higher Edn** Cengage Learning Australia, Thomson Course Technology, 2001-12. *A Guide to Programming Logic and Design* Joyce M.
