Communication Skills Journal

This journal will show you how I grew as a communicator over the last 16 weeks. You will see 5 different journal entries. These also show growth through hardship which I find to be an interesting topic.

Communication Competence

My strengths as a communicator are communicating with friends, acquaintances, and in meetings. I attribute a lot of that to my mission and speaking opportunities in church.

Recently, I feel I have also become better at communicating with my supervisor at work due to issues we have had. I have had to stand up for myself. This has been one example in my life lately of becoming a more mindful communicator, seeing different viewpoints, and strengthening weaknesses.

I feel I could become better in the areas of group discussions and strangers. I often feel that others have more important or insightful things to say. Also, I have been shy since childhood so talking to strangers is a weakness I'm working on.

Perception and Self

I think my family immensely impacted my perception of others. I also believe my church has impacted my perception of others. I found the primacy effect very intriguing that we are more likely to put more value in the first information we know about a person. I want to work on putting as much value on the information learned after the first impression. One of my best friends scared me the first time I met her. She is built and intimidating but I'm glad I gave myself the opportunity to get to know her better.

Perception of self is such a struggle for me. I'm so hard on myself. I'm really good at comparing myself to others. I like the concept that the simple question of "tell me about yourself" can be super telling about your level of self-esteem. That makes me want to work harder on my self-esteem.

Bowman, 2020-05-11 Nonverbal Communication An Applied Approach teaches students the fundamentals of nonverbal communication by making connections between the principles they learn and the everyday communication they perform and interpret Award winning teacher and author Jonathan M Bowman uses a narrative style and an applied approach that is informed by the important theories and research driven knowledge of this interdisciplinary area of study The approach encourages students to understand the relevancy of nonverbal codes by exploring applications sooner rather than in the latter half of their course Bowman brings in a unique focus on culture and social justice demonstrating how nonverbal communication shapes how we interact in a diverse society Jonathan Bowman was awarded the 2021 University Professorship by the University of San Diego This is the highest academic honor bestowed university wide and is given in recognition of outstanding scholarly achievements in teaching and research Included with this title The password protected Instructor Resource Site formally known as SAGE Edge offers access to all text specific resources including a test bank and editable chapter specific PowerPoint slides

Nonverbal Communication Albert Mehrabian, 2017-07-28 Even though our society subtly discourages the verbal expression of emotions most of us in ostensibly conforming to our roles nevertheless manage to express likes dislikes status differences personalities as well as weaknesses in nonverbal ways Using vocal expressions gestures postures and movements we amplify restrict or deny what our words say to one another and even say some things with greater facility and efficiency than with words In this new multidimensional approach to the subject of

nonverbal communication Albert Mehrabian brings together a great deal of original work which includes descriptions of new experimental methods that are especially suited to this field detailed findings of studies scattered throughout the literature and most importantly the integration of these findings within a compact framework The framework starts with the analysis of the meanings of various nonverbal behaviors and is based on the fact that more than half of the variance in the significance of nonverbal signals can be described in terms of the three orthogonal dimensions of positiveness potency or status and responsiveness These three dimensions not only constitute the semantic space for nonverbal communication but also help to identify groups of behaviors relating to each to describe characteristic differences in nonverbal communication to analyze and generate rules for the understanding of inconsistent messages and to provide researchers with new and comprehensive measures for description of social behavior This volume will be particularly valuable for both the professional psychologist and the graduate student in psychology It will also be of great interest to professionals in the fields of speech and communication sociology anthropology and psychiatry *Nonverbal Communication* Daniel Druckman, Richard M.

Rozelle, James C. Baxter, 1982 *Nonverbal Communication* is an attempt to provide a unique contribution to the literature The volume combines breadth of coverage with analytical reach in experimentation A broad sampling of concepts and processes are treated These include channels of communication impression formation and management attributions of feelings and cause information processing stages expression games deception clues and leakage and inference strategies **Nonverbal**
