The Ethics Of History

Brendan G. Carr

The Ethics Of History:

The Ethics of History David Carr, Thomas Robert Flynn, Rudolf A. Makkreel, 2004-10-30 Expressing a variety of philosophical interests and epistemic and ethical views the essays in this volume acknowledge the ethical dimension of historical enterprise and describe that dimension as integral to what history is book cover

A Short History of Ethics Alasdair C. MacIntyre, 1998 Widely acknowledged to be the perfect introduction to the subject this important text presents in concise form an insightful yet exceptionally complete history of moral philosophy in the West from the Greeks to contemporary times

Big and Little Histories Marnie Hughes-Warrington, Anne Martin, 2021-08-19 This book introduces students to ethics in historiography through an exploration of how historians in different times and places have explained how history ought to be written and how those views relate to different understandings of ethics No two histories are the same The book argues that this is a good thing because the differences between histories are largely a matter of ethics Looking to histories made across the world and from ancient times until today readers are introduced to a wide variety of approaches to the ethics of history including well known ethical approaches such as the virtue ethics of universal historians and utilitarian approaches to collective biography writing while also discovering new and emerging ideas in the ethics of history Through these approaches readers are encouraged to challenge their ideas about whether humans are separate from other living and non living things and whether machines and animals can write histories The book looks to the fundamental questions posed about the nature of history making by Indigenous history makers and asks whether the ethics at play in the global variety of histories might be better appreciated in professional codes of conduct and approaches to research ethics management Opening up the topic of ethics to show how historians might have viewed ethics differently in the past the book requires no background in ethics or history theory and is open to all of those with an interest in how we think about good histories

A Short History of Ethics Alasdair MacIntyre, 2017-10-15 A Short History of Ethics is a significant contribution written by one of the most important living philosophers For the second edition Alasdair MacIntyre has included a new preface in which he examines his book thirty years on and considers its impact It remains an important work ideal for all students interested in ethics and morality

William of Malmesbury and the Ethics of History Sigbjørn Olsen Sønnesyn, 2012 William of Malmesbury arguably the greatest English historian of the twelfth century repeatedly emphasises that the primary purpose of all literary and intellectual activities is to provide moral instruction for the reader the most famous of his statements to this effect being found in his monumental work *Gesta Regum Anglorum* where he categorises history as a sub discipline of ethics However modern studies have chosen to focus on other aspects of William's oeuvre and tended to dismiss such claims as perfunctory nods to a pious commonplace This book differs from recent orthodoxy by being based on the proposition that medieval professions of the moral aims of historiography are in fact genuine It seeks to read William's celebrated historical works in the light of his devotional and didactic texts and in the context of the religious

intellectual and literary traditions to which he expressed his allegiance He also demonstrates how William s conception of ethics forms a constitutive element of his historical output The resulting image of William shows a committed monk and man of his time placing his extraordinary learning at the service of his culture his society and his faith Publisher s website

History as Past Ethics P. V. N. Myers,2015-06-12 Excerpt from *History as Past Ethics* An Introduction to the History of Morals This work completes the series of historical textbooks which I began more than thirty years ago It is an expansion of a course of lectures given for several years to my advanced classes in history and is designed as a brief introduction to the history of morals In treating the science of morals as a branch of history my thought is without trenching in the least upon the domain of the philosophy of morals to make the work of the department of history more helpfully introductory than it has hitherto been to that of the department of moral philosophy The book is the outgrowth of a conviction that the philosophy of ethics if it shall become a stimulus and guide to social service and humanitarian effort especially if it shall bring reenforcement to that ethical idealism which so largely motives the present day movement for world peace must be based on a knowledge of the facts of the moral life of the race in all the various stages of the historic evolution and that to gather and systematize these facts is a part of the task of the historian indeed the most important part of his task It is my hope that teachers of both history and ethics may find the book helpful whether made the basis of classroom discussion or of lecture comment About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *A Short History of Ethics* Alasdair C. MacIntyre,1968 *"The Unthinkable" in Ethics, History and Philosophical Anthropology* Sami Pihlström,2025-02-06 What we find unthinkable is not seriously considered as an ethical option in our thought and deliberation it is ruled out from the outset Combining a broadly pragmatist approach with a Kantian inspired transcendental strategy Sami Pihlstr m distinguishes between what is considered unthinkable and what is merely ethically wrong Pihlstr m demonstrates how different issues concerning the unthinkable vs the thinkable ranging from the proper ethical response to the Holocaust to philosophical considerations of monstrous characters familiar in gothic fiction may challenge the categories we use to structure the world In particular he makes the case that it is unthinkable for us to reject the kind of human exceptionalism that attributes an ineliminable dignity or preciousness to human beings Chapters also explore the complex relationship between our responses to human suffering and the suffering of non human animals together with questions concerning the philosophy of war and pacifism *The Unthinkable in Ethics History and Philosophical Anthropology* turns our attention to the ethically and ontologically constitutive character of the boundaries

we draw between the thinkable and the unthinkable while utilizing conceptual and argumentative resources from the Wittgensteinian tradition in moral philosophy particularly from the work of Raimond Gaita An original and timely study it will be welcomed by students and scholars interested in the fundamental ethical issues of human life **Ethics and the materialistic conception of history** Karl Kautsky,1909 **History as Past Ethics** Philip Van Ness Myers,1913 Ethics History, Theory and Contemporary Issues ,2002 **A Short History of Ethics** Alasdair Chalmers MacIntyre,2002

Outlines of the History of Ethics Henry Sidgwick,1922 **History of the Problems of Philosophy: pt. II. Ethics. pt. III. Metaphysics. pt. IV. Theodicy** Paul Janet,Gabriel Séailles,1902 **History of Christian Ethics** Christoph Ernst Luthardt,1889 **Why History?** Keith Jenkins,1999 The author aims to show through a series of case studies of Derrida and others that postmodern ways of thinking signal the end of history history especially when taken in either of two forms the metanarrative on the one hand and the professional academic form on the other introd **History of Ethics: Modern and contemporary ethics** Vernon Joseph Bourke,2008 The modern period to mid 20th century The Concise Encyclopedia of the Ethics of New Technologies ,2000-11-06 The ethical assessment of new technologies raises two principal concerns the need to develop effective policies and legislation and the reconsideration of the ethical frameworks in which these policies and laws are developed The importance of rapid accurate examinations of tensions between Philosophy and Law and the relationship between philosophical principles and empirical data has never been greater The Concise Encyclopedia of Ethics of New Technologies includes 23 articles previously published in the highly acclaimed Encyclopedia of Applied Ethics nine updated articles and five new articles commissioned especially for this volume Over half of the previously published articles include updated facts and bibliographic citations Authors of genetics articles have updated their works to include the most recent developments and publications New articles include Cloning Geneticization Health Technology Assessment Intrinsic and Instrumental Value and Novel Foods Articles fall into these subject categories Medical Ethics Scientific Ethics Theories of Ethics Environmental Ethics Legal Ethics Ethical Concepts **Outlines of the History of Ethics for English Readers** Henry Sidgwick,1988-01-01 The work of a master in the subject who in a few pregnant pages has sketched out skillfully and judiciously the history of Greek of medieval and of English reflections on the aims and laws of human conduct William Wallace at time of first publication *History as Past Ethics* Philip Van Ness Myers,1913
