The Mayan Calendar And The Transformation Of Consciousness:

The Mayan Calendar and the Transformation of Consciousness Carl Johan Calleman, 2004-03-25 Reveals the Mayan calendar to be a spiritual device that describes the evolution of human consciousness from ancient times into the future Shows the connection between cosmic evolution and actual human history Provides a new science of time that explains why time not only seems to be speeding up in the modern world but is actually getting faster Explains how the end of the Mayan calendar is not the end of the world but a path toward enlightenment The prophetic Mayan calendar is not keyed to the movement of planetary bodies Instead it functions as a metaphysical map of the evolution of consciousness and records how spiritual time flows providing a new science of time The calendar is associated with nine creation cycles which represent nine levels of consciousness or Underworlds on the Mayan cosmic pyramid Through empirical research Calleman shows how this pyramidal structure of the development of consciousness can explain things as disparate as the common origin of world religions and the modern complaint that time seems to be moving faster Time in fact is speeding up as we transition from the materialist Planetary Underworld of time that governs us today to a new and higher frequency of consciousness the Galactic Underworld in preparation for the final Universal level of conscious enlightenment Calleman reveals how the Mayan calendar is a spiritual device that enables a greater understanding of the nature of conscious evolution throughout human history and the concrete steps we can take to align ourselves with this growth toward enlightenment Homo Luminous P.W. Brown, 2011-09-26 Everywhere there is concern about the present and future as governments religions and economics no longer live up to their claims People want to be able to solve pressing issues and current challenges People want to be able to survive the present and somehow prepare for the future but how Everyone wants to be safe but where to go What to do Where to look Every issue surrounding the human experience is based in consciousness The language of consciousness expressed through human culture exposes intimate relationships with environment Through the expansion of individual awareness the collective of humanity will benefit via new resolutions to current challenges as well as those encountered in the future 2012 Daniel Pinchbeck, 2007 Draws on cosmological phenomena of the modern world as well as the author's own research into shamanic and metaphysical belief systems to support the Mayan theory about an unprecedented global shift predicted for the year 2012 **Conscious Healing** Sol Luckman, 2009-05-10 The classic definitive book on DNA activation CONSCIOUS HEALING now updated and expanded with a wealth of empowering new information is far more than the inspiring story of the development of a revolutionary healing science NEXUS An unparalleled synthesis of modern and ancient healing wisdom this leading edge text is essential reading for anyone interested in alternative medicine energy healing consciousness research quantum biology human evolution or personal enlightenment Sol Luckman's bestselling reader friendly narrative details his experience of chronic illness and miraculous recovery thanks to the Regenetics Method of DNA activation offering a ray of hope to those who like the author have tried everything In addition CONSCIOUS

HEALING provides scientific substantiation for the work of alternative healers from many orientations clearly and convincingly making the case for energy work in general CONSCIOUS HEALING might be the key that unlocks an entirely new way of being ODYSSEY Magazine Editor's Choice Book *The Global Mind and the Rise of Civilization* Carl Johan Calleman, 2016-05-29 How the global mind drives the evolution of both consciousness and civilization Explains how our brains receive consciousness from the global mind which upgrades human consciousness according to a pre set divine time frame Reveals how the Mayan Calendar provides a blueprint for these consciousness downloads throughout history Examines the mind shift in humans and the development of pyramids and civilization in ancient Egypt Sumer South America and Asia beginning in 3115 BCE In each culture the origins of civilization can be tied to the arising of one concept in the human mind straight lines Straight and perpendicular lines are not found in nature so where did they come from What shift in consciousness occurred around the globe that triggered the start of rectangular building methods and linear organization as well as written language pyramid construction mathematics and art Offering a detailed answer to this question Carl Calleman explores the quantum evolution of the global mind and its holographic resonance with the human mind He examines how our brains are not thinking machines but individual receivers of consciousness from the global mind which creates holographic downloads to adjust human consciousness to new cosmological circumstances He explains how the Mayan Calendar provides a blueprint for these downloads throughout history and how the global mind rather than the individual has the power to make civilizations rise and fall He shows how at the beginning of the Mayan 6th Wave Long Count in 3115 BCE the global mind gave human beings the capacity to conceptualize spatial relations in terms of straight and perpendicular lines initiating the building of pyramids and megaliths around the world and leading to the rise of modern civilization He examines the symbolism within the Great Pyramid of Giza and the pyramid at Chich n Itz and looks at the differences between humans of the 6th Wave in ancient Egypt Sumer South America and Asia and the cave painters of the 5th Wave He reveals how the global mind is always connected to the inner core of the Earth and discusses how the two halves of the brain parallel the civilizations of the East and West Outlining the historical psychological geophysical and neurological roots of the modern human mind Calleman shows how studying early civilizations offers a means of understanding the evolution of consciousness **The New York Times Magazine**, 2007 **New Consciousness for a New World** Kingsley L. Dennis, 2011-08-16 A call for a paradigm shift in human thinking in recognition of the interconnectedness of all things a new mind for a new world Explains how the instability of our current time is part of a larger cycle of human evolution that will soon turn toward renewal and regeneration Reveals how to participate in the process of conscious evolution to maintain resilience during these transitional times Examines new findings in quantum physics and quantum biology on the interconnectivity of all life and how to utilize this for conscious evolution For centuries indigenous wisdom traditions have talked of an epochal shift on the horizon of a spiritual renaissance for the earth and her

living family Now the timelines are converging and the potential for an energetic upgrade for humanity is here but first we must survive and evolve through the current period of transition Explaining that evolution is not a gradual process but more like a shock to the system radical waves of transformation after a period of dormancy author Kingsley Dennis reveals that we are currently undergoing an evolutionary leap and shows not only how to survive but also thrive in this period of global upheaval and change Examining the nature of evolutionary cycles he explains that the instability we are now experiencing climate change economic meltdowns and increasing political polarization is the convergence of complex systems that have reached a critical state What we need in order to push through to the coming spiritual renaissance is a paradigm shift in human thinking and perception a conscious evolution in recognition of the interconnectedness of all things a new mind for a new world Examining new findings in quantum physics and quantum biology on the interconnectivity of all life as well as opportunities for us to reawaken our slumbering souls this book offers a glimpse of the new global society to come a renewed humanity for the 21st century and how each of us can best participate during the process of planetary transformation

The Purposeful Universe Carl Johan Calleman, 2009-10-13 Identifying the Mayan World Tree with the central axis of the cosmos the author shows how evolution is not random Shows how the evolution of the universe emanates from the cosmic Tree of Life Explains the origin and evolution of biological life and consciousness and how this is directed Using recent findings within cosmology coupled with his broad understanding of the Mayan Calendar biologist Carl Johan Calleman offers a revolutionary and fully developed alternative to Darwin's theory of biological evolution and the theory of randomness that holds sway over modern science He shows how the recently discovered central axis of the universe correlates with the Tree of Life of the ancients This provides an entirely new context for physics in general and especially for the origin and evolution of life and suggests that we look upon ourselves as parts of a hierarchy of systems that are all interrelated and evolve in a synchronized way Calleman's research demonstrates that life did not just accidentally pop up on our planet but that Earth was a place specifically tagged for this He demonstrates how the Mayan Calendar describes different quantum states of the Tree of Life and presents a new explanation for the origin and evolution of consciousness Calleman uses his scientific background in biology and cosmology to show that the idea of the Purposeful Universe is real He explains not only how DNA but also entire organisms have emerged in the image of the Tree of Life a theory that has wide ranging consequences not only for medicine but also for the origin of sacred geometry and the human soul With this new theory of biological evolution the divide between science and religion disappears

Galactic Alignment John Major Jenkins, 2002-07-01 Explores the central role played by the galaxy in both ancient and modern times in the transformation of the human spirit Extends Jenkins groundbreaking research in Maya Cosmogenesis 2012 Reveals how the coming Galactic Alignment of era 2012 promises a renewal of human consciousness Uncovers the galactic vision of Mayan Egyptian Greek and Vedic cosmologies The Galactic Alignment is a rare astronomical event that brings the solstice sun into alignment with the center of the Milky Way galaxy

every 12 960 years Building on the discoveries of his book *Maya Cosmogenesis* 2012 Jenkins demonstrates that the end date of 2012 does not signal the end of time but rather the beginning of a new stage in the development of human consciousness He recovers a striking common thread that connects the ancient cosmological insights of the Maya not only to Egyptian thought and Vedic philosophy but also to the diversity of humankind's metaphysical traditions ranging from Celtic sacred topography and Medieval alchemy to the Kabbalah and Islamic astrology His work presents us with a groundbreaking synthesis of lost wisdom once common to ancient cosmologies that will help us understand the significance of this transformative cosmic milestone

Quantum Science of Psychedelics Carl Johan Calleman, 2020-03-10 A groundbreaking exploration of how psychedelics and quantum science are vital to understanding the evolution of consciousness and reality Explains why altered states of consciousness exist how they work and why psychedelics have the effects that they do Describes how quantum waves rather than the DNA molecule have been the driving force behind biological and historical evolution Explains how psychedelics interact with the human mind to create altered states that may further the continued evolution of consciousness In this groundbreaking book Carl Johan Calleman reveals the quantum science of the Maya a science lost to the modern world that explains the phenomenology of psychedelics and altered states of consciousness The ancient Maya had a sophisticated understanding of the multidimensional nature of reality and the forces that drive the evolution of consciousness Calleman explains how quantum waves illustrated by the Mayan Calendar emanate from the center of the universe and activate new phases in the evolution of consciousness through holographic resonance which alters the dualities of the human mind For example the 5th Wave which dominated in Paleolithic times and evolved human consciousness above that of animals brought a chaotic floating state reminiscent of the psychedelic or shamanic state and the recent 8th Wave brought the digital revolution The 9th Wave which began in 2011 offers the potential for individual development of higher consciousness and healing if we can synchronize ourselves with its positive holograms This multidimensional perspective explains why altered states of consciousness exist and how they work Calleman describes the role of the pineal gland for the human mind how it controls our state of consciousness and how it can connect us to the cosmic Tree of Life He shows that the mind is a reducing valve that normally limits our experience of cosmic consciousness but that this can be reversed through altered states As Calleman concludes psychedelics like ayahuasca and DMT not only give rise to extraordinary mystical and cosmic experiences and enable access to healing states but they also are important for harmoniously synchronizing humanity with the 9th Wave to further the evolution of consciousness

Newsweek, 2009-04 **American Book Publishing Record**, 2004 **Forthcoming Books** Rose Army, 2004 *The Nine Waves of Creation* Carl Johan Calleman, 2016-11-24 A guide to aligning your life with the frequencies of the Nine Waves of Creation Explains the quantum physics behind the Waves of the Mayan Calendar system and how their holograms shape the human mind Shows how throughout history each revolution in human consciousness has been driven by the activation of one of the Nine Waves of Creation Reveals how we can consciously work to deactivate the negative patterns of the Sixth Wave and manifest the unity consciousness of the Ninth Wave In the past few years the world has witnessed changes in social consciousness whose sudden development the ruling scientific paradigm has

not been able to explain These changes correspond with the activation of new Waves of Creation emanating from the center of the universe that influence human thinking From the Big Bang to the present these Waves guide the evolution of the universe and through their holographic resonance with the human mind profoundly shape revolutions in religion technology economy and social consciousness Presenting a quantum holographic perspective on world history and human consciousness Carl Calleman explains the quantum physics behind the Waves of the Mayan Calendar system and how these Waves allow us to understand the shifting eras on Earth as well as the possibilities of the future He describes how prior to the activation of the 6th Wave in 3115 BCE our social systems were based on a unified cosmic order but the hologram of this Wave shifted society to an all consuming focus on Good and Evil leading to the rise of patriarchal religious structures slavery and warfare He explores how later Waves and their new holograms helped humanity survive the negative effects of the 6th Wave such as the Industrial Revolution of the 7th Wave and the Digital Revolution of the 8th Wave In 2011 the 9th Wave was activated bringing with it an accelerated push for a more egalitarian world a rising awareness of unity consciousness and access to the full power of all Nine Waves of Creation Calleman explains how our individual resonance with each Wave plays a role in the quality of our lives and how we must consciously work to resonate with the higher Waves Revealing how we can become quantum activists in a holographic world by aligning with the 9th Wave the author shows how we each can help manifest the destiny of humanity hinted at in ancient texts
