The Martin Luther King Jr Wilson Center:

God's Hand on America Michael Medved, 2019 In *The American Miracle* Divine Providence in the Rise of the Republic Michael Medved uncovered a pattern of extraordinary and improbable turns in the young nation's ascent to power Now in the anticipated second volume the nation's epic tale enters the modern era As the civil war comes to an end and reconstruction begins the Union is narrowly saved from total demise But contempt still runs hot through the battered nation and the future of the United States is still at stake In *This Favored Land* Medved reveals the instruments of fate that took the bedraggled country from its lowest point to her dominant role on the world stage today Following the paths of American heroes and the little known figures who played indispensable roles in the unfolding of the nation's freakishly fortunate destiny *This Favored Land* proves that the founding fathers were right God has always been and continues to be at work in shaping the fate of the nation

The Path to Paralysis Donald G. Nieman, 2024-10-15 How did the world's oldest democracy lose its mojo How did we get to a point where we face existential crises like climate change yet leaders can't agree that there's a problem let alone develop solutions Political leaders bear some of the responsibility Newt Gingrich Sarah Palin and Donald Trump to name a few have shattered political norms and transformed our politics into a free for all in which personal attacks appeals to bigotry and fear disregard for truth and disdain for governing have become the norm But they are more a symptom than the cause *The Path to Paralysis* examines changes in political culture during the past 60 years conflict over race religion and gender wrenching economic changes and growing concentration of wealth the end of the Cold War hardening regional divisions and dramatic changes in communications that made Donald Trump possible if not inevitable Long in the making these cross currents came together in the early 21st century as the United States experienced the deepest recession since the 1930s and elected its first Black president to create the perfect storm The result was toxic and deeply polarised politics that threatened the existence of constitutional government

Race and Ethnicity in America Russell M. Lawson, Benjamin A. Lawson, 2019-10-11 Divided into four volumes *Race and Ethnicity in America* provides a complete overview of the history of racial and ethnic relations in America from pre contact to the present The five hundred years since Europeans made contact with the indigenous peoples of America have been dominated by racial and ethnic tensions During the colonial period from 1500 to 1776 slavery and servitude of whites blacks and Indians formed the foundation for race and ethnic relations After the American Revolution slavery labor inequalities and immigration led to racial and ethnic tensions after the Civil War labor inequalities immigration and the fight for civil rights dominated America's racial and ethnic experience From the 1960s to the present the unfulfilled promise of civil rights for all ethnic and racial groups in America has been the most important sociopolitical issue in America *Race and Ethnicity in America* tells this story of the fight for equality in America The first volume spans pre contact to the American Revolution the second the American Revolution to the Civil War the third Reconstruction to the Civil Rights Movement and the fourth the Civil Rights Movement

to the present All volumes explore the culture society labor war and politics and cultural expressions of racial and ethnic groups

Citizen Engagement in Cuba James A. Baer, 2024-02-02 Citizen Engagement in Cuba Neighbors and the State in Pogolotti examines citizen engagement at the local level in Cuba through projects initiated by the community since the 1990s The nature of citizen participation in Cuba is not clearly understood by many in the United States where the communist government is conflated with the Soviet states of Eastern Europe as a totalitarian regime in which the people of Cuba are helpless to confront and punished when they do The reality in Cuba is much more nuanced This book discusses this reality through a focus on Pogolotti reflecting on its history as the first low cost housing community in Cuba in 1910 This community is but one example of a neighborhood where projects represent active participation by citizens The willingness of communist authorities to work with officially sanctioned workshops and partner with civic groups indicates a level of citizen participation that has not been studied fully and provides an understanding of the relationship between citizens and the state in Cuba
