Roth, 2005-11-30 Prisons have undoubtedly changed over the years as have penal practices in general though more so in some countries than others Prisons and prison systems have long been an overlooked part of criminal justice research and as a result limited material is available on many institutions This comprehensive encyclopedia provides a historical overview of institutions and systems around the world as well as penal theories prisoner culture and life and notable prisoners and personnel Readers will find a plethora of information including material on such famous prisons as the Tower of London and Alcatraz as well as on such topics as boot camps and parole Other entries include Devil s Island supermaximum prisons Nelson Mandela Pennsylvania system and Amnesty International Numerous appendixes list famous prisoners prison museums prison slang and more The Next Frontier David T Johnson, Franklin E Zimring, 2009-02-02 Today two thirds of the world s nations have abolished the death penalty either officially or in practice due mainly to the campaign to end state executions led by Western European nations Will this success spread to Asia where over 95 percent of executions now occur Do Asian values and traditions support capital punishment or will development and democratization end executions in the world s most rapidly developing region David T Johnson an expert on law and society in Asia and Franklin E Zimring a senior authority on capital punishment combine detailed case studies of the death penalty in Asian nations with cross national comparisons to identify the critical factors for the future of Asian death penalty policy The clear trend is away from reliance on state execution and many nations with death penalties in their criminal codes rarely use it Only the hard line authoritarian regimes of China Vietnam Singapore and North Korea execute with any frequency and when authoritarian states experience democratic reforms the rate of executions drops sharply as in Taiwan and South Korea Debunking the myth of Asian values Johnson and Zimring demonstrate that politics rather than culture or tradition is the major obstacle to the end of executions Carefully researched and full of valuable lessons The Next Frontier is the authoritative resource on the death penalty in Asia for scholars policymakers and advocates around the world **Thai Stick** Peter Maguire, Mike Ritter, 2013-11-12 The untold history of the underground marijuana trade in Thailand from surfers and sailors to pirates Located on the left bank of the Chao Phya River Thailand s capital Krungthep known as Bangkok to Westerners and the City of Angels to Thais has been home to smugglers and adventurers since the late eighteenth century During the 1970s it became a modern Casablanca to a new generation of treasure seekers from surfers looking to finance their endless summers to wide eyed hippie true believers and lethal marauders left over from the Vietnam War Moving a shipment of Thai sticks from northeast Thailand farms to American consumers meant navigating one of the most complex smuggling channels in the history of the drug trade Many forget that until the mid 1970s the vast majority of marijuana consumed in the United States was imported and there was

little to no domestic production Peter Maguire and Mike Ritter are the first historians to document this underground industry the only record of its existence rooted in the fading memories of its elusive participants Drawing on hundreds of interviews with smugglers and law enforcement agents the authors recount the buy delivery voyage home and product offload They capture the eccentric personalities of the men and women who transformed the Thai marijuana trade from a GI cottage industry into a professionalized business moving the world s most lucrative commodities unraveling a rare history from the smugglers perspective Highly recommended for anyone who loves adventure cannabis surfing or all of the above It s every single bit as heady energetic and captivating as the title implies Cannabis Now *Play Among Books* Miro Roman,Alice_ch3n81,2021-12-06 How does coding change the way we think about architecture This question opens up an important research perspective In this book Miro Roman and his AI Alice_ch3n81 develop a playful scenario in which they propose coding as the new literacy of information They convey knowledge in the form of a project model that links the fields of architecture and information through two interwoven narrative strands in an infinite flow of real books Focusing on the intersection of information technology and architectural formulation the authors create an evolving intellectual reflection on digital architecture and computer science *Thailand: Deadly Destination* John Stapleton,2014-11-17 The daily robbing bashing drugging extortion and murder of foreign tourists on Thai soil along with numerous scandals involving unsafe facilities and well established scams has led to frequent predictions that Thailand s multi billion dollar tourist industry will self destruct Instead tourist numbers more than doubled in the decade to 2014 The world might not have come to the hometowns of the many visitors fascinated by Thailand but it certainly came to the Land of Smiles While the Thai media is heavily censored and bad news stories about tourists suppressed nonetheless there is more than enough evidence to demonstrate that something has gone seriously awry with the nation s tourist industry In 2014 just as in the years preceding it there were train bus ferry speedboat motorbike and car accidents murders knifings unexplained deaths numerous suicides diving accidents robberies gone wrong anonymous bodies washing up on the shores and a string of alcohol and drug related incidents Thailand had a dying king and serious succession problems weak democratic institutions an economy slipping into recession faced issues of corruption across many of its key services and was host to international crime syndicates awash with despised foreigners and drifting perilously towards civil war Tourists choose one destination over another for a number of reasons most of which Thailand scores highly on But on the core issue of tourist safety Thailand scores very badly indeed
