The Dialectics Of Secularization On Reason And Religion

Christopher C. DeMuth, Yuval Levin

The Dialectics Of Secularization On Reason And Religion:

Dialectics of Secularization Benedikt XVI. (Papst), Jürgen Habermas, 2006 Two of the worlds great contemporary thinkers theologian and churchman Joseph Ratzinger now Pope Benedict XVI and Jürgen Habermas philosopher and Neo Marxist social critic discuss and debate aspects of secularization and the role of reason and religion in a free society These insightful essays are the result of a remarkable dialogue between the two men sponsored by the Catholic Academy of Bavaria a little over a year before Joseph Ratzinger was elected pope

A Communication Perspective on Interfaith Dialogue Daniel S. Brown Jr., 2013-01-30 Communication theory provides a compelling way to understand how people of faith can and should work together in today's tumultuous world In *A Communication Perspective on Interfaith Dialogue* fifteen authors present their experiences and analyses of interfaith dialogue and contextualize interfaith work within the frame of rhetorical and communication studies While the focus is on the Abrahamic faiths these essays also include discussion of Hinduism and interracial faith efforts Each chapter incorporates communication theories that bring clarity to the practices and problems of interfaith communication Where other interfaith books provide theological political or sociological insights this volume is committed to the perspectives contained in communication scholarship Interfaith dialogue is best imagined as an organic process and it does not require theological heavyweights gathered for academic banter As such this volume focuses on the processes and means by which interfaith meaning is produced

Natural Law and Religious Freedom J. Daryl Charles, 2017-07-20 Every successive generation finds fresh reasons for the study of natural law Current interest in the natural law may well be due to a pervasive moral pessimism in the Western cultural context and wider contemporary geopolitical challenges Those geopolitical challenges result from two significant and worrisome global developments unprecedented violent persecution of religious minorities on several continents and a growing climate of secular hostility toward religious faith in Western societies *Natural Law and Religious Freedom* aims to address what is relatively absent from the literature by demonstrating the importance of natural law ethics in both establishing and preserving basic human rights of which religious freedom has pride of place Probing contemporary challenges to natural law thinking that are both internal and external to religious faith and examining the character and constitution of natural law ethics *Natural Law and Religious Freedom* will be of interest to theologians ethicists and philosophers as well as policy analysts politicians and activists who are concerned to anchor religious freedom and human rights policy considerations in an enduring way

Christianity in the Modern World Ambrose Mong, 2022-01-01 The influence of religion on culture is as strong as ever but the shape of that influence is unique in today's pluralistic society In *Christianity in the Modern World* Ambrose Mong examines critically themes of religious commitment and tolerance attitudes towards other religions and the sociological aspects of religion and inter religious dialogue He provides an overview of factors that challenge traditional religion from the relationship between monotheistic and polytheistic beliefs to the history of tolerance and intolerance in the church and the future of secularism

Following the global ethics formulated by the late Hans K ng Mong also engages with the dialogue between J rgen Habermas and Joseph Ratzinger to provide an extensive defence of the importance of inter religious dialogue with particular relevance to multiple religious belonging in the Asian context Scholars of world religions will find Mong s analysis compelling while students will find his introduction to the historical dialectics underlying many of today s tensions illuminating *The Christ of the Apocalypse: Contemplating the Faces of Jesus in the Book of Revelation* Msgr. A. Robert Nusca, 2018-06-30 That the Apocalypse of John is a Revelation of Jesus Christ Rev 1 1 is a fact too often overlooked by interpreters of this last book of the Bible As Msgr A Robert Nusca s *The Christ of the Apocalypse Contemplating the Faces of Jesus in the Book of Revelation* proposes beyond predictions of earthquakes and falling stars St John articulates from start to finish a multifaceted and compelling portrait of Jesus Christ Nusca offers an exegetical reading of selected verses of the Book of Revelation incorporating rich spiritual and pastoral reflections *The Christ of the Apocalypse* above all affirms that St John s God and Christ centered symbolic universe offers our contemporary world a spiritual place to stand amid the shifting sands of postmodernity As Cardinal Thomas Collins Archbishop of Toronto writes in his Foreword Now as in the first century Christians face martyrdom and those who are not called to die for Christ are called to live for Christ in a world which in many ways rejects the Gospel More than ever we need the apocalyptic vision to have our own vision of reality clarified and to be strengthened in our evangelical witness *Rorty, Buber and the Revival of Social Hope* Akiba Jeremiah Lerner, 2007

The Future of Religion Paul Rennick, Stanley B. Cunningham, Ralph Henry Johnson, 2010 Religion evokes strong emotions and raises hard questions This volume addresses many of the contentious elements that religion provokes and challenges some of the easy answers contemporary society has produced The frequent and often facile dictum about the separation of church and state when examined closely may prove to contribute to the erosion of some of our most cherished human values rather than to their preservation The science versus religion dichotomy is dogma for many yet the empiricism that is the hallmark of scientific method and knowledge can be singularly absent from positions that claim to be science The current spate of attacks against God and religion that are now commonplace when critically scrutinized often fail to provide compelling arguments or even to be as objective as their authors claim These and other explorations are the focus of this book From the Forward in which Charles Kimball challenges the West to re evaluate its perspective and understanding of the East particularly Islam to the Afterword in which theologian Gregory Baum chronicles the extraordinary reversal of sociology TM s estimation of religion the invitation from this volume to all of us is to review our pieties and presuppositions as we reflect on the future of religion **(Anti) Narcissisms and (anti) Capitalisms** Mark Malisa, 2010 What if Mahatma Gandhi Malcolm X Nelson Mandela and Jurgen Habermas had a conversation on what it means to be a human being This book synthesizes the depiction of human nature in relation to anti capitalisms and anti narcissisms in the work of Mahatma Gandhi Moksha Malcolm X Islam Nelson Mandela Ubuntu and Jurgen Habermas Communicative Action Critical Theory

Understandings of what it means to be a human being and the purpose of life vary from one philosophy to another and yet have a bearing on contemporary issues. The reader is invited to assess the philosophies with regard to conceptually and life affirming philosophies of human nature when placed in the context of anti narcissisms and anti capitalisms. Also examined are the theories of education in the works Mahatma Gandhi, Malcolm X, Nelson Mandela and Jurgen Habermas. To teach toward a fuller and meaningful humanity requires an analysis and understanding of the many traditions that contribute to humankind including the non western. The classroom offers unheralded opportunities for students and educators to be knowledgeable about different cultures, peoples and ways of being. Anti Narcissisms and Anti Capitalisms will be of interest to researchers, educators, students, peace activists, philosophers of education and those working in the humanities. Mark Malisa, Formerly of Northeastern University, Boston, Massachusetts, United States of America.

Religion and the American Future

Christopher C. DeMuth, Yuval Levin, 2008. Religious belief is thriving in America today even though it seems under assault as seldom before, attacked by secularists, scientists and increasingly vocal atheists, constrained by judges and civil libertarians, mocked by contemporary artists and treated pragmatically if not cynically by politicians seeking votes. This book explores the enduring strength of religion in American life. Faith and religious observance are not obsolete or incompatible with modern society; on the contrary, the religious principles that guided the Founders continue to bind the nation and justify human endeavor. In *Religion and the American Future*, a distinguished group of scholars examine the future of religion in America. Michael Novak, John C. Green, Leon R. Kass, Douglas W. Kmiec, Roger Kimball and Marcello Pera contemplate in turn the relationship of religion to the dominant secular realms of politics, science, law and art. They argue that the religious and the secular realms should construct a mutual and productive understanding that faith based voting is not the threat it often seems that science cannot answer humanity's deepest moral inquiries and that the United States Constitution presupposes the existence of God. The volume concludes with an instructive look at Europe and the troubling implications of turning away from religious belief altogether. *Religion and the American Future* is a lively, learned dialogue on the role of religion in American society. The contributors raise their voices in opposition to the tide of cynicism and constraint that often overwhelms religion in public life and argue that tolerance, respect and free expression must define the future of religion in America. Book jacket.

The History of Continental Philosophy

Alan D. Schrift, 2011-01-01. From Kant to Kierkegaard, from Hegel to Heidegger, continental philosophers have indelibly shaped the trajectory of Western thought since the eighteenth century. Although much has been written about these monumental thinkers, students and scholars lack a definitive guide to the entire scope of the continental tradition. The most comprehensive reference work to date, this eight volume *History of Continental Philosophy* will both encapsulate the subject and reorient our understanding of it. Beginning with an overview of Kant's philosophy and its initial reception, the *History* traces the evolution of continental philosophy through major figures as well as movements such as existentialism, phenomenology, hermeneutics and poststructuralism. The final

volume outlines the current state of the field bringing the work of both historical and modern thinkers to bear on such contemporary topics as feminism globalization and the environment Throughout the volumes examine important philosophical figures and developments in their historical political and cultural contexts The first reference of its kind A History of Continental Philosophy has been written and edited by internationally recognized experts with a commitment to explaining complex thinkers texts and movements in rigorous yet jargon free essays suitable for both undergraduates and seasoned specialists These volumes also elucidate ongoing debates about the nature of continental and analytic philosophy surveying the distinctive sometimes overlapping characteristics and approaches of each tradition Featuring helpful overviews of major topics and plotting road maps to their underlying contexts A History of Continental Philosophy is destined to be the resource of first and last resort for students and scholars alike

The Taylor Effect Ian Albert Leask, 2010 The Taylor Effect presents an original and diverse collection of essays addressing Charles Taylor TM s magisterial A Secular Age Ranging from close and critical readings of Taylor TM s formulations and suppositions to comparative studies of Taylor and various interlocutors TM to applied approaches utilizing Taylor TM s concepts to explorations launched from a Taylorian foundation the 13 chapters comprise a multifaceted exploration of Taylor TM s multifaceted achievement Given the vast synoptic sweep of Taylor TM s magnum opus the contributors represent a suitably diverse range of interests backgrounds and expertise members of departments of philosophy literature philosophical theology systematic theology moral theology education and political science whose interests stretch from Plato to Girard phronesis to pedagogy Deism to dogmatics medical ethics to aesthetics Accordingly The Taylor Effect is not only one of the first major responses to A Secular Age the astonishing breadth as well as the quality of contributions will ensure that it remains a central reference point in any future discussion of Taylor TM s work

Vatican Diplomacy at the United Nations Roman A. Melnyk, 2009 Vatican Diplomacy at the United Nations A History of Catholic Global Engagement

Meaning and History in Systematic Theology Robert M. Doran, 2009 This Festschrift is written in honor of theologian and philosopher Robert Doran one of the most creative and important Lonergan scholars working today His magnum opus Theology and the Dialectics of History 1990 integrated his reworking of depth psychology into a theory of history that serves as a foundation not only for systematic theology but also for interdisciplinary collaboration It relies on Lonergan s seminal contribution to the reversal of the post Enlightenment crisis of meaning that is his emphasis on the subject s intelligent and responsible self appropriation as the foundation of epistemology metaphysics and human collaboration Doran s achievement is a profound development of this work and it provides fecund ground that enables Lonergan s legacy to make itself felt across the humanities the human sciences and beyond The range of contributions contained in this volume points to the immense significance of Doran s work and they cover topics as varied as communication studies critical history depth psychology pastoral theology philosophy religious diversity and systematic theology These different concentrations ensure that this collection of essays is of use to readers who

are curious about the relevance of Lonergan's critical realism to a breadth of scholarly disciplines. It is also of acute interest to established scholars who are well aware of the merits of Doran's contributions to Lonergan Studies and who wish to gain an understanding of the directions in which his work is being both employed and developed.
