Leadership Failures Kate Fenner, Mark Reifsteck, Peter Fenner, 2022-08-03 Humans make mistakes Many of us lose career ascendancy or risk destroying our institutions by doubling down on or ignoring outcomes of our own poor decisions Good leaders learn and teach from their errors Professions are strengthened Institutions thrive Careers grow Through real life stories that focus on senior board leadership from multiple walks of life and brief discussions of significant attributes readers will be challenged to diagnose and turn missteps into positive growth experiences The authors of this book have had extensive careers in public and private for profit and not for profit settings and in independent and government sponsored consulting development academic and clinical environments Without having any single leadership paradigm to push they raise questions about outcomes for institutions that are affected and individual career paths Their cautionary tales ask readers to think through next steps or prevent the need to get there hence this is an ideal extra assignment book in graduate management courses and for managers seeking to work their way up toward higher leadership roles Board members also can learn from its non industry specific target readership
