describes so accessibly Jung actually discovered a set of simple but fundamental dynamics as to how our psychology works to create our own ways of experiencing life Once we understand these dynamics we see ourselves our relationships and our world in new ways The book guides us as observers of ourselves and others leading to self awareness and from there to self acceptance potential for growth and more harmonious relationships We learn how to enhance our natural talents appreciate one another nurture commonalities and find hidden functions that endow our lives with an intensity and beauty not found elsewhere We discover that a life lived according to our own nature brings satisfaction and joie de vivre
