The Coherence of Gothic Conventions Eve Kosofsky Sedgwick, 2023-02-14 First published in 1986 *The Coherence of Gothic Conventions* makes the case that the Gothic in English literature has been marked by a distinctive and highly influential set of ambitions about relations of meaning Through readings of classic Gothic authors as well as of De Quincey and the Brontës Sedgwick links the most characteristic thematic conventions of the Gothic firmly and useably to the genre's radical claims for representation The introduction clarifies the connection between the linguistic or epistemological argument of the Gothic and its epochal crystallization of modern gender and modern homophobia This book will be of interest to students of literature cultural studies and psychology *Perils of the Night* Eugenia C. DeLamotte, 1990-02-22 This book argues that the source of Gothic terror is anxiety about the boundaries of the self a double fear of separateness and unity that has had a special significance for women writers and readers Exploring the psychological religious and epistemological context of this anxiety DeLamotte argues that the Gothic vision focuses simultaneously on the private demons of the psyche and the social realities that helped to shape them Her analysis includes works of English and American authors among them Henry James Mary Shelley Herman Melville Nathaniel Hawthorne Emily Brontë Charlotte Brontë and a number of often neglected popular women Gothicists **Ecofictions, Ecorealities, and Slow Violence in Latin America and the Latinx World** Ilka Kressner, Ana María Mutis, Elizabeth Pettinaroli, 2019-11-21 *Ecofictions Ecorealities and Slow Violence in Latin America and the Latinx World* brings together critical studies of Latin American and Latinx writing film visual and performing arts to offer new perspectives on ecological violence Building on Rob Nixon's concept of slow violence the contributions to the volume explore processes of environmental destruction that are not immediately visible yet expand in time and space and transcend the limits of our experience Authors consider these forms of destruction in relation to new material contexts of artistic creation practices of activism and cultural production in Latin American and Latinx worlds Their critical contributions investigate how writers cultural activists filmmakers and visual and performance artists across the region conceptualize visualize and document this invisible but far reaching realm of violence that so tenaciously resists representation The volume highlights the dense web of material relations in which all is enmeshed and calls attention to a notion of agency that transcends the anthropocentric engaging a cognition envisioned as embodied collective and relational *Ecofictions Ecorealities and Slow Violence* measures the breadth of creative imaginings and critical strategies from Latin America and Latinx contexts to enrich contemporary ecocritical studies in an era of heightened environmental vulnerability **Murders, Madness, Monsters** Tanya González, 2004 **Gothic Evolutions** Corinna Wagner, 2014-06-23 The texts in this unique collection range from the Gothic Revival of the late eighteenth century through to the late Victorian gothic and from the poetry of Wordsworth and Coleridge to the short fiction of H G Wells and Henry James Genres represented include medievalist poetry psychological thrillers dark political dystopias sinister tales of social corruption and popular ghost tales In
