The Compleat Meadmaker :

The Compleat Meadmaker Ken Schramm, 2003-06-09 Since the publication of *The Compleat Meadmaker* mead has enjoyed a remarkable resurgence in the United States. In 2003 there were roughly 60 commercial meaderies; by 2020 that number had grown to nearly 500. This growth reflects not just commercial success but also the passion of hobbyists discovering the joys of crafting their own nectar of the gods. Mead, fermented honey and water, is among humanity's oldest alcoholic beverages with deep roots in ancient cultures across Europe, Africa, and Asia. Its simple ingredients and intoxicating charm made it a staple of rituals and celebrations. Although mead's popularity faded with the rise of beer, wine, and spirits, the modern craft beverage movement has brought it back into the spotlight alongside artisanal beers and wines. A central figure in this revival is Ken Schramm, veteran meadmaker and co-founder of the Mazer Cup Mead Competition, North America's premier mead-only event. In *The Compleat Meadmaker*, Schramm introduces readers to the craft with clear instructions and straightforward recipes. He guides beginners through their first batches and then explores more advanced styles using spices, fruit, grapes, and malt. The book is a comprehensive guide covering Equipment and Basics, The tools and steps to make your first mead, Fermentation Techniques, Choosing yeast, managing pH, aeration, and nutrients, Flavor Balancing, Adjusting acidity, sweetness, and alcohol to taste, Clarification and Bottling, How to clarify, bottle, and store mead properly, Aging and Conditioning, Using oak and time to build complexity. Schramm also explores honey in detail, its natural history, floral sources, and the essential role of bees. He introduces the concept of honey varietals and explains how different nectar sources affect flavor and aroma, giving meadmakers a wider palette of options. Beyond traditional mead, Schramm dives into a variety of historical and modern styles: Melomel (Mead with fruit), Cyser (Mead blended with apple cider), Pymment (Mead with grapes or grape juice), Metheglin (Spiced or herbed mead), Braggot (Mead with malt bridging beer and mead traditions). Each offers unique character and complexity, showcasing the drink's versatility. Whether bone-dry or rich and sweet, mead can be tailored to individual tastes and paired with diverse cuisines. Ultimately, *The Compleat Meadmaker* invites readers to explore the art and science of mead, connecting a millennia-old tradition with today's craft movement. Whether you're new to brewing or an experienced fermenter, Schramm offers the tools and inspiration to make exceptional mead at home.

Moveable Gardens Virginia D. Nazarea, Terese Gagnon, 2021-06-01 Moveable Gardens explores how biodiversity and food can counter the alienation caused by displacement. By offering in-depth studies on a variety of regions, this volume carefully considers various forms of sanctuary making within communities and seeks to address how carrying seeds, plants, and other traveling companions is an ongoing response to the grave conditions of displacement in today's world. The destruction of homelands, fragmentation of habitats, and post-capitalist conditions of modernity are countered by thoughtful remembrance of tradition and the migration of seeds, which are embodied in gardening, cooking, and community building. Moveable Gardens highlights itineraries and sanctuaries in an era of massive dislocation, addressing concerns about finding comforting and familiar refuges in the Anthropocene. The worlds of marginalized individuals who live in impoverished rural communities, many Indigenous peoples, and refugees are constantly under threat of fracturing. Yet in every case, there is resilience and regeneration as these individuals re-create their worlds through the foods, traditions, and plants they carry with them into their new realities. This volume offers a new understanding of the performances and routines of sociality in the face of daunting market forces and perilous climate transformations. These traditions sustained our ancestors, and they may suffice to secure a more meaningful, diverse future. By delving into the nature of nostalgia, burrowing into memory, and knowledge, and embracing the specific wonders of each deeply rooted or newly displaced community, endlessly valuable ways of being and understanding can be preserved.
