Rethinking Leadership Annabel Beerel, 2021-07-04 This book provides a detailed review of the key leadership theories and skills required during times of crises and radical uncertainty how these can be developed and how they can be applied in practice Written over the course of the 2020 pandemic the book highlights the immense lack of leadership competencies required for effective leadership in times of radical uncertainty and provides in depth insights into the capacities and skills that should be part of all leadership development The latest leadership theories as well as existing key styles including mindful leadership the neuroscience of leadership and transpersonal and adaptive leadership are discussed and critiqued along with their potential contribution to developing effective leaders Each chapter concludes with a convenient executive summary and questions that can be used for teaching purposes and class discussion This is a comprehensive book about the interdisciplinary and multifaceted requirements of leadership and how to attain those capacities to develop effective leaders It will be valuable for advanced undergraduate as well as postgraduate courses as a foundational resource on leadership theory and its application in practice

The Ethics of Neoliberalism Peter Bloom, 2017-06-26 The 21st century is the age of neo liberalism a time when the free market is spreading to all areas of economic political and social life Yet how is this changing our individual and collective ethics Is capitalism also becoming our new morality From the growing popular demand for corporate social responsibility to personal desire for work life balance it would appear that non market ideals are not only surviving but also thriving Why then does it seem that capitalism remains as strong as ever The Ethics of Neoliberalism boldly proposes that neoliberalism strategically co opts traditional ethics to ideologically and structurally strengthen capitalism It produces the ethical capitalist subject who is personally responsible for making their society workplace and even their lives more ethical in the face of an immoral but seemingly permanent free market Rather than altering our morality neoliberalism individualizes ethics making us personally responsible for dealing with and resolving its moral failings In doing so individuals end up perpetuating the very market system that they morally oppose and feel powerless to ultimately change This analysis reveals the complex and paradoxical way capitalism is currently shaping us as ethical subjects People are increasingly asked to ethically save capitalism both collectively and personally This can range from the moral responsibility to politically accept austerity following the financial crisis to the willingness of employees to sacrifice their time and energy to make their neoliberal organizations more humane to the efforts by individuals to contribute to their family and communities despite the pressures of a frantic global business environment Neoliberalism thus uses our ethics against us relying on our good nature and sense of personal responsibility to reduce its human cost in practice

This Generation Leads Mike Teke, Muzi Kuzwayo, 2022-03-01 This book was born out of an idea that I had during the period in which I spent time with several young people who had approached me to assist them in different ways including personal development career advancement and growth as well as growing their businesses and entrepreneurial

acumen and skills I took the challenge but felt that more could be achieved hence this book The chapters in this book are written by each one of these young people They chose the topics guided by me and the plan was to simply convey a message from each one of them about leadership They did not do this for fame or to sell this book to make money but to share their ideas The topics covered in this book will appeal to different readers and some readers might find more lessons in one chapter or in more chapters than one I urge each one of you who read this book to pick one or a few lessons and share it with those you wish to make a difference to Mentorship of young people is critical but this does not mean that the mentors will provide handouts in the form of money People who wish to grow are not interested in money they are interested in a piece of your generous heart Mike Teke

Training in Interpersonal Skills Stephen P. Robbins, Phillip L. Hunsaker, 2003 Artist and screen writer Brian Godawa used to revel in his ability to argue the truth of the gospel often crushing his opponents in the process In time however he began to realize that winning an argument about the logic of Christianity did not equal persuading people to follow Jesus What was missing Through prayer and searching the Scriptures Godawa realized that while God cares deeply for rationality propositional truths were not the only or even the primary tools he used to reach people with his Truth In fact Godawa discovered that story metaphor and imagery were central to God's communication style because they could go places reason could never go into the heart In his refreshing and challenging book Godawa helps you break free from the spiritual suffocation of heady faith Without negating the importance of reason and doctrine Godawa challenges you to move from understanding the Bible literally to literarily by exploring the poetry parables and metaphors found in God's Word Weaving historical insight pop culture and personal narrative throughout Godawa reveals the importance God places on imagination and creativity in the Scriptures and provides a biblical foundation for Christians to pursue image beauty wonder and mystery in their faith For any Christian who wants to learn how to communicate and defend the Gospel in a postmodern context this book will help you find a path between the two extremes of intellectualized faith and anti intellectual faith by recovering a biblical balance between intellect and imagination
