Summary of Being Mortal Alexander Cooper,2021-08-13 Summary of Being Mortal Gawande starts by explaining that doctors in general are never trained to tend to the emotional needs of the patient The only things that he learned was to identify diagnose treat and cure diseases that plagued modern medicine He was trained to understand the complex science behind the human body not the mind He did not realize just how relevant emotions are in real life until he started practicing medicine and treating the dying There is one case in particular that has a lasting impact on Gawande and changed his world forever During his stay as a junior surgical resident Gawande treated a patient by the name of Joseph Lazaroff for cancer Science had not yet found a cure for his condition so not surprisingly radiation treatment failed There was only one last option left and it was to perform surgery on Mr Lazaroff While surgery was the only real option left the doctors were aware there was slim chance of success In the best case scenario the surgery would be able to extend his life for a few months a life confined to a hospital bed While surgery was an option it was very high risk There was a good chance that Mr Lazaroff would not survive the surgery and on top of that post surgery complications were severe The doctors presented the options to Mr Lazaroff and he chose the surgery thinking that it was his best solution The surgery was performed and two weeks later Mr Lazaroff passed away due to complications from the surgery Looking back at this story Gawande expresses that there was a failure of the doctors to fully comprehend the reality of Mr Lazaroff s situation as well as their own abilities According to Gawande the surgery was destined to fail before it even began The doctors chose not to fully confront this reality of a failure and hoped blindly for a miracle The doctors were not able to fully communicate their concerns with the surgery to the patient Gawande states that the real problem was not the doctors involved the real problem lay with the professional medical

institutions that granted their licenses They were never taught to provide emotional support for a dying patient They were never even taught to face the reality of a dying person Gawande states that doctors are not to blame for cases like this instead the modern medical system of schooling is Medical schools do not prepare graduates with the training necessary for the realities of a patient's death Gawande's book is an examination of how an honest and conscious look at the realities and experiences of the dying can serve to benefit them Sometimes there is no treatment remedy or surgery that can save a life It is during these times that modern medicine has no answer and continues put lives in a greater risk than necessary when they need to face reality and provide the best possible solution Here is a Preview of What You Will Get A Full Book Summary An Analysis Fun quizzes Quiz Answers Etc Get a copy of this summary and learn about the book [Being Mortal: by Atul Gawande \(Trivia-On-Books\)](#) Trivion Books,2015-10-29 Trivia on Book Being Mortal Medicine and What Matters in the End by Atul GawandeTake the fan challenge yourself and share it with family and friends Features You ll Discover Inside 30 Multiple choice questions on the book plots characters and author Insightful commentary to answer every question Complementary quiz material for yourself or your reading group Results provided with scores to determine statusWhy you ll love Trivia On BooksTrivia On Booksis an independently quiz formatted trivia to your favorite books readers students and fans alike can enjoy Whether you re looking for new materials or simply can t get enough of your favorite book Trivia On Booksis an unofficial solution to provide a unique approach that is both insightful and educational Promising quality and value don t hesitate to grab your copy of Trivia on Books [Summary - Being Mortal Mr. Chapter](#),2016-10-26 Being Mortal Story Shortened into 35 minutes or less Being Mortal is a book written by Atul Gawande and it is a book that closely observes concepts of death aging and mortality When trying to bring these topics to his readers as close as possible Gawande uses many examples from real life Some of them include examples of case studies of his fellow doctors while some of them include his own research which he did while observing his own patients and even family members This book is also a good guide for people who want to know how to live and how to help their family members through their last days months or years of life In his book Gawande also speaks about how elderly people take care of themselves and how do they live when taking care of themselves becomes impossible due to sickness and or old age Here he tries to objectively comprehend everything that institutions like hospitals nursing homes and hospices offer and offers both negative and positive aspects of those institutions To show his readers that what he is talking about in his book is genuine and authentic Gawande uses many personal stories that are intermingled with each of segments mentioned above Being Mortal is an interesting literature because even though it talks about heavy things like mortality aging and the inevitable death it does so by objectively talking about that from a perspective of an expert Here Is A Preview Of What You Will Get In Being Mortal you will get a shortened version of the story In Being Mortal you will find the book analyzed to further strengthen your knowledge In Being Mortal you will get some fun multiple choice quizzes along with answers to help you learn about the book Get a copy and learn everything about Being
