Augustine and the Catechumenate William Harmless, 2014 A simple look at the universality of love Debating Transcendence Bin Song, 2025-11-04 A bold and rigorous reexamination of transcendence uniting religion theology philosophy and science while bridging Confucian and Christian thought to explore the origins of the world and human destiny Debating Transcendence is a groundbreaking contribution to the ongoing dialogue between Confucian and Christian thought by addressing the transcendence debate a key controversy that has shaped centuries of cross cultural intellectual exchange Song examines whether the Confucian concept of Tian Heaven or Taiji Ultimate Limit possesses a transcendent dimension comparable to Christian understandings of the Creator God This study revisits the

historical and philosophical roots of the debate tracing its evolution from early interactions between Confucianism and Christianity during the sixteenth century to present day discussions At the heart of this book is Song s aim to construct a Confucian definition of theology and a Confucian approach to comparative theology Grounded in a scientifically rigorous methodology that transcends the conceptual boundaries of philosophy religion and theology this new approach balances rootedness and impartiality minimizing biases and revealing shared ground Covering essential thinkers from the West and the East such as Plato Augustine Descartes and Paul Tillich alongside Confucius Laozi Wang Bi and Zhu Xi Song explores the historical development of key concepts such as creatio ex nihilo creation out of nothing and sheng sheng birth birth challenging misconceptions and highlighting underexplored commonalities and differences Drawing from his diverse scholarly background and extensive engagement with both traditions Song distinguishes Confucian from Daoist metaphysics and demonstrates that Confucian metaphysics centered around the concept of generatio ex nihilo offers a compelling framework for understanding transcendence that not only resembles but in certain aspects surpasses major streams of its Christian counterpart Readers seeking to understand the profound spiritual foundations underpinning interactions between China and the West will find Song s work essential Combining rigor scope and depth Debating Transcendence paves the way for refreshed interactions between Confucian and Christian thought offering insights vital to contemporary scholarship and interreligious exchange

Creating Augustine Eric Leland Saak, 2012-06-21 The term Augustinianism has been used by scholars for over a century to refer to trends in medieval philosophy theology and politics

which had a major effect on the transformations of European culture and society from the Middle Ages to the onset of modernity Yet in each of these three disciplines Augustinianism means something different and the lack of clarity only increases when the debates over the relationship between a late medieval Augustinianism and Martin Luther are considered as well Based on historical philological and iconographic analysis this study adopts a hermeneutical approach drawn from philosophical hermeneutics religious studies and literary and sociological theory to argue for a historical as distinct from a philosophical or theological referent for the term Augustinianism The interpretation of Augustine and of a late medieval Augustinianism can only be based historically on the newly created image of Augustine discerned in the writings of the Augustinian Hermits in the early fourteenth century Recognising the diverse dimensions of this created image is requisite to a historical understanding of Augustine s late medieval reception and impact Understanding Augustine as a created saint has implications for a wider understanding of Augustine s influence stretching on beyond the later Middle Ages up until the present day

Augustine's Problem Jeff Nicoll, 2016-06-03 Augustine s Problem provides a new approach to St Augustine s life and doctrine hypothesizing that his problem was not sexual addiction but sexual impotence For Augustine the problem with sex was not the seductive nature of women but the unpredictability of desire which can induce an unwanted erection or fail to provide one when even the mind would choose to have sex He extends his personal incapacity to a general impotence of the will we can never without grace choose any good Just as the impotent man cannot work on his impotence we cannot work on our salvation only God can make a difference and predestines a tiny elect The disobedience of the Garden is transferred to the disobedience of the male member guaranteeing that the sin of Eden is transferred in conception as original sin The most controversial elements of Augustine s theology are all linked to the theme of impotence as expressed in his writings from the Confessions to the anti Pelagian works written at the end of his life Twenty Five Years at St Augustine's College Henry Bailey, 2025-08-27 Reprint of the original first published in 1873 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage

to a sermon A History of Preaching will be the definitive resource for anyone who wishes to preach or to understand preaching's role in living out the gospel This work is expected to be the standard text on preaching for the next 30 years says Ann K Riggs who staffs the NCC's Faith and Order Commission Author Edwards former professor of preaching at Seabury Western Theological Seminary is co-moderator of the commission which studies church uniting and church dividing issues A History of Preaching is ecumenical in scope and will be relevant in all our churches we all participate in this field says Riggs from EcuLink Number 65 Winter 2004 2005 published by the National Council of Churches Australian National Bibliography ,1978 *Augustine's Invention of the Inner Self* Phillip Cary,2003-04-03 In this book Phillip Cary argues that Augustine invented the concept of the self as a private inner space a space into which one can enter and in which one can find God Although it has often been suggested that Augustine in some way inaugurated the Western tradition of inwardness this is the first study to pinpoint what was new about Augustine's philosophy of inwardness and situate it within a narrative of his intellectual development and his relationship to the Platonist tradition Augustine invents the inner self Cary argues in order to solve a particular conceptual problem Augustine is attracted to the Neoplatonist inward turn which located God within the soul yet remains loyal to the orthodox Catholic teaching that the soul is not divine He combines the two emphases by urging us to turn in then up to enter the inner world of the self before gazing at the divine Light above the human mind Cary situates Augustine's idea of the self historically in both the Platonist and the Christian traditions The concept of private inner self he shows is a development within the history of the Platonist concept of intelligibility or intellectual vision which establishes a kind of kinship between the human intellect and the divine things it sees Though not the only Platonist in the Christian tradition Augustine stands out for his devotion to this concept of intelligibility and his willingness to apply it even to God This leads him to downplay the doctrine that God is incomprehensible as he is convinced that it is natural for the mind's eye when cleansed of sin to see and understand God In describing Augustine's invention of the inner self Cary's fascinating book sheds new light on Augustine's life and thought and shows how Augustine's position developed into the more orthodox Augustine we know from his later writings **Catalogue** Cadmus Book Shop,1919 **Does God Answer Your Prayers?** Chacko Varghese,2019-05-23 Does God answer prayers If he does what is the timing What prayers does God answer Does God answer according to our expectation or differently How important is God's will in answering prayers This book answers to those questions and explains how important and essential praying daily is to grow and continue our relationship with God It contains the prayers of many of the biblical men and women and the principles we can learn from them Also this book explains the purpose and reasons behind prayer and why it is important in our lives on earth It explains how prayer helps us move closer to God and spiritually grow and stay in faith with God This book explains how God was moved by the prayers of his servants and his children in difficult circumstances It also proves that our God is a prayer answering God Also this book provides information from the prayers of the apostles and church fathers including St Paul St Augustine and Martin Luther
